

*Do angels exist?  
Are healing miracles real?  
Is there life after death?  
Can people get supernatural help from another dimension?  
Has the future been written in advance?  
Sid Roth has spent twenty-five years researching  
the strange world of the supernatural.  
Join Sid on this edition of "It's Supernatural."*

Hello, Sid Roth here, welcome to my world where it is just naturally supernatural. Who would want to be anywhere else? My guest Jason Westerfield has been doing it again; it has been provoking me to jealously. This young man is normal. What is normal? Read the book, the Bible, that's normal. Go to most churches; that is abnormal. You measure normal by what Jesus did. The same works that he did we are supposed to do. Well it is preached a lot, but it is not shown a lot. Jason, you had about a forty-minute download of what God is going to do in the economy. I would like to learn a little bit about this. Jason: Well I was having breakfast with my wife, I wasn't feeling very spiritual, just enjoying breakfast with my wife, and a vision opened up to my left for about 40-45 minutes, and the Lord began to show me the coming energy revolution. So just as we had an industrial age, right now this generation will be known as the energy age and energy revolution. and he showed me how we were going to be going to a hydrogen based world economy, and when that begins to come about, the different changes, geo-politically will take place on the planet and there will be a massive human rights movement take place. And I saw some converters that because of these converters every nation will be able to utilize and be self-sufficient in their energy and because of that the world will not be dependant on oil and we will see literally a global shift in power begin to take place. Sid: Were you given any insight into the economy of the United States as to why it appears that it just keeps going lower and lower? Jason: Well I know that God isn't mad at America, I know God loves America; he is the Father not just of America, he is the Father of the nations. And if you see the Lord as a Father looking at other nations as his kids, any nation that comes in alignment with him and begins to walk in his will and his thoughts and his ways he is going to begin to start low he will begin to disciple that nation. And so there are nations right now that are beginning to emerge and they are finally beginning to succeed and do a lot more better than they have before and because of that it is taking some of the pie so to speak away from America, so it is not that God is mad at America, it is that other nations are beginning to succeed and we see these in

emerging markets, and some of these markets right now that are beginning to succeed that although the American market might be going down we are kingdom citizens, we are global citizens.

You can begin to invest in New Zealand, Australia, Brazil, Ukraine, China and India.

Sid: Ukraine, why Ukraine?

Jason: Ukraine is the breadbasket, Ukraine is going to continue to produce a lot of food, it could pretty much fuel most of the world with the food it supplies.

Sid: You know the Bible talks about the price of grain being so expensive in the last days.

Do you really see food and commodities as something that God wants believers to invest in?

Jason: This last two years what I said is from what the Lord has shown me is I said there is going to be a massive shift and tide, the dollar value will begin to go down because of other countries increasing and if we begin to invest in some of these other currencies, more than the right stock is putting our money in the right place, you will find that it will begin to multiply and increase.

And then the other thing I said is also the commodity.

With the shift insecurity is going to take place.

When fear comes people don't invest as much, or they shift where their investing goes, so I said look at gold, look at oil, look at the precious metals, and then also begin to look at the commodities, there will be new highs in a majority of those and we are seeing that right now.

So you are saying to me it is not that the US is doing so badly, it is that these third world countries are starting to do so well that it looks like we are doing bad.

Is that what you are saying?

Jason: That is a lot of what I am saying and that is the lens that you won't hear a lot of people talking about but I know God loves not just this nation, he loves other nations, he loves the whole world, he is a good Father and he wants to see his children succeed so we are seeing global shift of power, resources.

A lot of it is going to go to China and India, you are talking about 2.4 billion people, 1.3 billion in China and 1.1 in India, and they are beginning to get in production and they are beginning to export and amazing things are going to continue to happen over there.

But the commodities, the merging markets as the places, and also precious stones continue to see, I said that gold and oil would go to all time high and now they have and so we are also going to begin to see silver.

Sid: Are they going to continue to be going up, gold and silver.

Jason: Well what is happening right now isn't going to stop any time soon; it is a wave and a shift of power that is taking place and so...

Sid: So why did God show this to you?

Jason: Why did he show it?

I believe that God is somebody's awesome investor and wants a multiplication of his talents.

The Jewish people completely have an understanding of

also of finances, that is part of the blessing, and if we are going to multiply and increase everything God gives us, that is not just our gifts and our talents, but that also means our money, if we just have our money sitting in a bank where it is losing and the purchasing power is going down, it's losing, we are not multiplying our finances, but in the days ahead we are going to have to be discipling nations, God talks about running economies, understanding markets, it wasn't to plant churches, it was to disciple nations, so we have to get understanding of that to where to position ourselves and put our funds to have the finances we need to do to continue to help out with a lot of the social justice concerns that are taking place in the world, we will need finances and be able to mobilize people.

Sid: You also told me that God showed you there are certain hotspots in the world if you will, where revival is going to hit.

Jason: Yeah, there is revival taking place but we are going to continue to see it in China, we are going to continue to see it in India because of what is going on over there with God outpouring his Spirit there is an emerging group of people that are coming.

And we need to understand that when God's Spirit begins to fall, it falls on everybody, not just the righteous but also the unrighteous.

People start getting witty ideas as in inventions, visions, and there starts to be something in them, a confidence, they start believing they can change the world.

We are seeing that in both the countries right now.

Also in New Zealand and in Brazil and Australia and Ukraine, I want to reiterate those nations you are seeing an emerging people and in that place you are going to start seeing and emerging economy and an emerging market continue to increase as well.

Sid: I have to ask you something, it may sound funny to you, but I am just curious, you said that you should invest in paper, toilet paper?

Jason: Yeah, the commodities is a hot place right now but around the world there is a generation that is raised up right now and they are young and they are growing but they are raised up into a global community with global communication, so when you get a five or eight year old or twelve year old right now be on the communicate via internet and look into other places of the world and looking at some of these countries and underdeveloped nations that don't have some of the bare necessities of life like water and different filtration systems for waste management, they are going to say why aren't we doing something about this.

And if we say well it costs a lot of money, you don't understand, they will say no it doesn't cost a lot of money, we need to do something about this.

So we will not only see this emerging generation walking in the supernatural, and it is not just going to be a spiritual supernatural things, it is going to be ground out in practical, real life situations, that just see nations built up

and so one of the things that will take place as this happens is you are going to see toilet paper and a lot of toilet products begin to be on the increase within these nations.  
Sid: Listen this is fascinating to me but wait till you get to find out when Jason is called to go to the Philippines, he influences weather, he influences politicians, we will be right back after this word.

*We'll be right back to, "It's Supernatural."*

*Call now and receive two anointed audio teaching CD's "Miracles, Signs, and Wonders," and "The Coming Energy Revolution" from Jason Westerfield, plus his life-changing booklet, "God Come To Me or I'm Coming To You."*

*We now return to, "It's Supernatural."*

Sid: Hello Sid Roth here with Jason Westerfield. Jason you recently were called by God to go to the Philippines, did you know why you were going there, did you have speaking assignments, why did you go to the Philippines?

Jason: I was originally going to the Philippines to work with over five hundred pastors as a part of a team that I was going with.

And on the way over there, it was interesting, the Lord sat me next to a gentleman on the airplane that has the largest American company that employs jobs to the Philippine citizens over there, so God began to give us insight in his life, what was going on personally, but also insight to what was going on in his companies management.

Sid: When you look in the Spirit you have insight into people's lives, is that what you are saying?

Jason: Yeah, God will show me where people are at and where companies and organizations and where nations are at, and then where they need to get to, and then how to practically get there.

He will put a plan and a strategy in place.

So it feels a lot more like consultation is taking place and I will do that whether I am at businesses, whether people or government, whether I'm at churches,

or whether people in film, really dealing with people and seeing their improvement take place.

And so when we went to the Philippines we not only saw this man's life begin to get touched, but the Lord had said I am going to open up the doors to the national government to you, and I am over there less than twelve hours, one thing leads to another, the next thing that occurs is I'm at this restaurant with this lady who owns the restaurant and she is serving the table that we are with and two ladies come and sit down, one of which I saw in prayer earlier that morning and I told her, I said I saw you this morning. And she said I don't know you.

And so I began to tell her what the Lord had shown me, I relayed to her a lot of facts and details about her life to give credibility, and that there would be an understanding with her that God knew who she was and I began to tell her the things that God wanted to have take place in her life and how to bring her into these things.

She completely got touched, never had anything like that happen, we are inside of a nice restaurant in a well to do place and then I asked her,

I said do you know some people in government?

Sid: Why did you want to know people in government?

I felt from the Lord I was to ask them right there because God had given me a full one-page word about a word of the Lord for that nation of the Philippines, a state of the union, where it was at currently, where God wanted to bring it and what they needed to do to get in that place to turn things around.

And she said actually I graduated from law school, I have friends that are in the senate and then the lady who owns the restaurant says, I know somebody who is running for president, one of their head senators over here.

And the next thing I know I am not even in the country twelve hours, I am given a phone to this gentleman and I begin to read off the word of the Lord to him, he gets totally touched by God over the phone and says that is everything I have been trying to tell these people, that is exactly what we need to be doing as a nation.

And not only was that pretty impressive, what God did and how quick that God can open doors, the next thing that happened is a table of about ten people came Sid, and sat down right across from us, everyone at our table kind of perked up and I said what is going on?

And they said do you know who that is and I said no. They said those are high-ranking government officials over there and two of those other people help run the media over the entire nation.

So the lady who owns the restaurant went over and talked to them, they said please, have this young man come over if he has heard from God about our nation.

So I walk over and they say please sit down we hear that you have a word from God about our nation.

We want to hear what God is saying over the Philippines right now.

So I read the complete word to them, they were really touched, the presence of God came over everybody and

then I said to them, "Do you all understand this word?"  
And they said yes we do and there were words  
that had to do with the economy, with the political  
economy, with society, and also with the environmental  
issues and the creation of the nation itself.  
And they said yes we do and I said  
I want to pray for you and they said please do.  
So I had them all hold hands, government officials,  
people in media right in the center of this well to do  
restaurant and the presence of God came in a very  
powerful way and I began to pray for wisdom for them  
that God would allow the righteous to begin to lead and  
decisions be brought forth to empower the whole nation.  
Amazing things happened when we were in the  
Philippines, within an hour and a half I was with the  
decision makers of the nation and an hour  
and a half later I am with the poorest people on the planet,  
Smokey Mountain.

And when we went out there we say God do  
numerous miracles and we also saw three  
deaf children completely get their hearing back.  
After that we flew to a nearby island and the Lord  
said I want you to pray for the resistance and limitation,  
the generational curses that have limited this nation off  
these people and off this nation to be broken.  
So we corporately repented for all this sins generationally  
upon the nation, and as we did this winds began to come  
into this place and over five hundred pastors were there,  
over eighty of them miraculously got healed with no one  
touching them, just from the repentance God outstretched  
his hand and began to heal them but began to shift the very  
weather in the atmosphere and when I left there I said  
because of what happens spiritually over this nation,  
the geopolitical shift, what is going to be taking place  
within the next twenty-four hours there is going to be a  
significant earthquake in the Asia-Pacific rim because  
of the shift in powers that are taking place.

Sid: So what happens if it doesn't happen  
and you prophesy that?

Jason: Well what happened is within twelve hours  
of me saying that a 5.8 earthquake hit Bali, Indonesia.  
And so it wasn't a bad earthquake.

Sid: So you did get their attention.

Jason: I got their attention, but it is not about me it is  
about the Lord and he wants to disciple nations  
and he loves every nation and he wants to see them  
come into the fulfillment and the fullness and the  
potential of what he has available for them.

Sid: There is such a wonderful presence of God on the set  
right now that when we come back Jason I am going to ask  
him to pray and I am not going to tell him what to pray,  
I wouldn't mind him praying for people's memories,  
I wouldn't mind him praying for a transfer of anointing,  
I wouldn't mind him praying whatever God tells him too.  
Don't go away, we'll be right back.

*We'll be right back to, "It's Supernatural."*

*It was God's purpose from the beginning for all nations to one in Yeshua, Messiah Jesus, to break down the middle wall of separation between Jew and Gentile. When Jewish spiritual DNA merges with the New Covenant Christians DNA, there will be what Paul called life from the dead. That's why Sid Roth's website is loaded with cutting edge articles and teaching about the One New Man. Log onto:*

*We now return to "It's Supernatural."*

Sid: Hello, Sid Roth here with Jason Westerfield and Jason has been spending some time with me, or I have been spending time with him, and observing some to the things he is talking about, it's for real people. But Jason told me that Jesus himself commissioned him. Tell me about that Jason.

Jason: I was laying down in California prior to moving out here to New England where I currently live, and I had an amazing encounter with the Lord where in this experience the Lord had walked up to me and put a sword over both of my shoulders and he said I am commissioning you Jason to go out of this place and create cultures of love, and he said I will be with you. And so I am very grateful for all the signs and the wonders and the miracles, I am very grateful for all the healings and people's lives being touched and restored, but when I go into a place and when I leave what the Lord measures me on is are the people more in love with him, more intimate with him and more open with him and have a greater relationship with him and are they also more in love with one another and have more compassion, more grace and whatever.

Sid: More important than diamonds and precious stones materializing out of nowhere, more important than people dying of cancer and getting healed, more important some with Alzheimer's getting their memory back, is this love?

Jason: God is love; that is who he identified himself as, and if we don't have love we are kind of missing the point. And we are to walk in love; we are to be clothed in love, we are his beloved, you know we are made in the image and likeness of love so when we are really normal and walking with the Lord we will be lovely and we will love those around us.

Sid: So God evaluates you more on whether you are walking in love than the signs that happen?

Jason: Yeah, people are blown away a lot of times at the signs that happen but that is not just for me; that is for everybody I just have a revelation about that so I started walking in that, but the most important thing is love. And people say well faith is very important.

Faith is important but faith works through love.

So what I get evaluated on from the Lord; are people more in love with him and are they more loving with one another when I leave a place.

That's what I get graded on on my report card when I spend time with them.

Sid: I want you to pray whatever God tells you to pray, I already put I a few requests but I want you to pray for whatever God tells you to pray but especially for that, you said that everyone that has intimacy with God can walk this way, pray for that impartation for people  
Jason: I will, it's a believer's ministry, not a special persons ministry, we are all special and God loves us all. So Father I just want to thank you right now Father, for your love, you are love and you so loved the world you sent your Son ad you take of the love of the Father by your Holy Spirit and you shed it abroad in our hearts. God I first want to pray right now for the broken, I pray for a restoration, that you would begin to shower right now with the move of your Spirit and begin to overwhelm them with your love, this is what you did with me as a young boy and then again when I was older and now everyday. I pray that just as you allowed me to experience that you would release that impartation upon your people right now, that they would begin to sense and begin to know your love, I also pray for a restoration of not just their broken hearts but their broken minds.

Any place in their mind that has been shattered, any split in their personality I pray that you would begin to release a wholeness in their personality that the best of them would begin to come forth and that they would come to know you in a deeper way.

I ask for their vision, their eyes and their ears to begin to open up, that they would begin to see and perceive, hear and understand, and God I ask for their physical bodies, indeed outstretch your hand in love because you love God, you would begin to heal those with cancer, you would begin to heal those with diabetes, I also pray for glaucoma right now and sinus issues God, I pray for bone spurs to begin to be removed right now.

And God I also ask right now for a release of miracle power for creative miracles.

You would begin to restore eardrums where parts are missing, glass eyes you begin to make whole God, you would begin to do things that would confound the wise but it is absolutely normal to you.

I pray for legs and limbs to begin to grow out right now, where there is only one kidney I pray you would create another one, I pray for thyroids to be completely healed and I pray for memories to come back and be made whole. God you have such a heart for the family; you are our Father.

Father I pray for the restoration of families God that you would break the power of divorce, strife, division and contention, you would restore family, you would restore the love of God in the family, there would be honor between the husband and the wife and the children and also the other way God.

And I pray the gifts and callings that you have upon your people would begin to be multiplied, that even their finances would multiply, that they would have enough

for them and enough to begin to be given.

I pray you would remove all poverty and limitations and God I pray for your love and respect and your honor to come towards those who are in authority and come to our fellow man around us.

Thank you so much and release a grace that you would raise up leaders who would begin to love the world and don't complain, but to begin to be part of the solution and make it a better place in Jesus Name.

Thank you Lord.

Sid: And you know Jason as you were praying I saw that fingers, arthritic fingers, arthritis of any kind is just disintegrating, just bend your fingers, bend your knees, your hips, your arms, wherever that arthritis is, it cannot stay with the presence of the living God.

Jason, tell me about the bikers at Starbucks.

Jason: One time I was with my wife before she was my wife, Jessica, she is my best friend, she is a soul mate and we were talking in the room and we began to pray with one another.

As this happened I actually began to be lifted up in the Spirit and taken about a mile away and I was overlooking Starbucks and some other areas in the central location in Redding, California.

And the Lord said there is a man down there right now who is going to be showing up and be over there at that location who is dealing with financial issues in his life and his heart is broken right now and you need to go over there I want you to pray for him.

As you pray for him I am going to release a miracle in his life and that's all I knew.

I didn't know anymore than that so I said Jessica I believe that we need to get in the car and drive over there right now.

It is not enough to hear; you have to obey.

And so I get in the car with her and we drive down to Starbucks.

As we get down there we look and there are the people sitting right there.

That's interesting when that happens.

Like I said I am a novice and rookie, I don't understand everything, so I am still blown away by God and when all these things take place, I just want to learn more and so I said Honey I think you are supposed to go first, so she said are you sure, I said yes, I think you are supposed to approach the table.

So she went and approached the table and made some small talk with them, the door began to open and then I came over there.

And they asked what was going on and I shared with them, I said you know what this may come across crazy and strange but I want to tell you the truth, is that okay? And they said yes.

So I was just vulnerable and transparent, I shared with them that I am still new with everything but this is what happened.

Their chins began to drop and their mouths opened.

Sid: These were bikers; these were tough guys.

Jason: Yeah, and they said, "Oh my God, right now our friend was gambling and lost his money. And we are an AA group, Alcoholic Anonymous, and we are here to help and we called a surprise meeting the last second to come rally around him and they had just got there to help him so he wouldn't fall back in his drinking and abuse because of the situation he was currently in he wouldn't run from his issues." So when they heard that, that flipped them out because revelation knowledge came, they could not know and also he knew how much God loved him because he sent a couple that was minding their own business to go out of their way, meet them there, be willing to look like fools, just for the sake of this person, and that's the hand of God reaching out. And so I said I am going to pray for you right now and as I begin to pray for you a wind is actually going to go out right now and you are going to find that you have the money that you need to pay for the bills that you have and God wants you to know he is going to do this because he wants you to know how real he is and how much he loves you.

And he knows about everything going on in your life and he cares about the littlest thing.

We prayed and when we did wind started blowing around them, a peace came on him, they were still in awe about everything that happened.

Sid: What happened to the debt that the guy owed?

Jason: Well what happened is within a few days later we came back over to Starbucks, we are walking up, and all of a sudden these big bikers looked at us, and they said look there is the people.

I said Honey, Jessica do you know these people, because you know they are pretty tough folks and she said I'm not sure and then she said those are the people that prayed for us.

Now these are the people that just met the Lord and some who didn't know him who are now wide open in public places, because of the signs, because of the wonders, because of the miracles, testifying what God did, these weren't trained people, they are more of...

Sid: But what happened to the debt?

Jason: What happened to the debt?

they said do you know what happened?

I said no, and they said the gentleman went home, opened up his mailbox and there was an envelope in there that had all the money he needed to pay off the bills that he had so he had no more debt that got erased. And they were so in awe they called all their friends and now they are testifying all around in town just like the Samaritans woman did about everything that God did and now they wanted to know more about Jesus.

Sid: This is normal.

I jut want you to be normal.

Please be normal.

Jason isn't any superstar, he just happens to have

"The Superstar" inside of him.  
And he just happens to believe the Bible, he just happens  
to hear from God, and he just happens to be normal.  
And we both want you to be normal.  
It starts out by normally knowing God, repenting of your  
sin, believing Jesus died for your sin, asking him to live  
inside of you, and be Lord of your life.  
Do it now! Right now.
