Todd: And what do you have here?

Woman: We've got the x-rays.

Todd: Bring me the x-rays.

You have the x-rays.

Man: This is when it was broken, right here,
and you can see in this area right there...

Todd: Yeah, you can see a mark.

Man: You can see the actual crack there.

Todd: A crack in the bone. It's there on this x-ray.

Man: And then when we pull up this one,
which she got just the day...

Woman: Three days ago.

Todd: Three days after the healing.

Oh my gosh!

Man: And if you look at the same area, there's no crack.

Todd: There's absolutely no crack showing in the bone!

Sid: Hello, Sid Roth here. Welcome to my world
where it's naturally supernatural.

I love the rarified air of heaven.

I'm at one of the greatest moves of God's Spirit in 100 years.

That's my impression of this. I'm in Lakeland Florida.

Todd Bentley is having meetings that are so pregnant,
so filled with the presence of God.

And listen, people don't want religion,
they want intimacy with God,

but they don't even know it's possible,
and religion doesn't usually offer that.

My guests are Leslie and Kelsey Hayes.

Tell me something Leslie,

describe the physical condition of your daughter
before she came to this, literally, swimming pool
filled with God's Spirit.

Leslie: Oh, it's been such a journey.

It's so hard to even put into words,
watching your daughter be as ill as Kelsey's been.
About ten years ago it started.

We worked in Ecuador with people living in a dump,
and we found out...

Sid: You didn't live in a dump.

Leslie: No, we didn't...

Sid: I know, I'm teasing you.

Leslie: We got the pleasure of working alongside of people. And we found out in the last six months that during that time, she had hepatitis C, and her body, by an amazing miracle, fought it off. But in that process of fighting it off, it turned and started attacking itself.

Sid: Started doing what?

Leslie: Attacking itself. It turned on itself.

So she lost the function of her thyroid about five years ago, and we thought that was it, that was the end. And then about six months ago, it started attacking her liver, her small intestine, they removed her gall bladder, they found out cells in her stomach lining, and she started having seizures where they think it was spreading to her central nervous system. She's been in and out of the hospital for six months, and truly in chronic pain.

Sid: Alright, what's the doctor's prognosis before coming here?

Leslie: Well, they diagnosed her with a multiple auto-immune syndrome.

Sid: Is it life-threatening?

Leslie: If they don't treat it.

What they do is kind of watch her body, and as systems get attacked, they try to medicate it. There's no cure for it.

Sid: How much medicine did she take?

Leslie: She was up to 30 pills a day.

Sid: How old are you?

Kelsey: 14.

Sid: 30 pills a day? Give me a break! At 14?

Kelsey: It was a lot.

Sid: So even before you came here to Lakeland, God started dealing with you. Tell me about that.

Kelsey: The first time I was admitted into the hospital, I was bummed out. I was like "Why am I here, God? You use me so much." I was just really bummed out.

I went up to the throne room, and I walked up to Jesus and said "Jesus, how long? How long until You heal me? How long until You come?"

And Jesus literally walked off the throne and came.

I had a hospital gown on, and an IV, and He cut the IV, then He went back down, and then God came and took out the IV from my hand, and He put on regular clothes, and He said "Go.

Now's the time for you to go." And then I woke up.

I came back, I was back in my hospital room, still in my hospital gown, still in chronic pain.

And I was like "Ok, what's going to happen?"

And nothing happened. That was about four weeks ago, so I was really still confused.

Sid: So how did you even know about this revival?

Leslie: We had been in the hospital most of April, so we didn't know. We came out of the hospital, and some people said there's some things happening in Florida, and we're like "Really?"

And healings were happening. Kelsey should go,
because everybody knows Kelsey's been sick.
And we're thinking, should we go?
It's a lot of money, and the time,
and what if we go and we're disappointed.
It's been such a confusing time.
So somebody came up to my husband on Thursday
and said "My wife and I feel like we need to pay
for your trip to Florida." So we felt like, ok God, we're going,
and we got in a plane Saturday morning
and were in a service Saturday night.
Sid: And I was in that same service that you were in.
Describe what happened to you, Kelsey, at that service.
Kelsey: Mostly Todd just had a calling.
He said "If you've had IV pain meds, come up here."
Sid: I remember that. And he said something else,
he said "Whenever I get a vision, it's always from God.
It always comes to pass."
Kelsey: Right. The people that we were sitting next to
had said "I think that's for her."
And at that point, I was in so much pain I couldn't walk.
I was just curled up in the seat in the top of the balcony.
Sid: Were you in pain normally, 24/7?
Kelsey: Oh yeah, all the time. Nonstop.
Sid: How bad was the pain? Just like a little ache?
Kelsey: Oh no, it was crippling most of the time,
just chronic pain. The only time I was even close to pain-free
was when I was hospitalized with an IV drip.
Sid: So you hear this word - what did you do?
Kelsey: I was just sitting there, and I was like
"God, I just want You."
Everybody around me was like "Ok, let's go",
so these two guys were helping me walk down
to get down to the stage. So finally I got on stage,
and Todd's having all these different words,
and all these different people are coming down.
And I'm like, ok, this really hurts, I've got to sit down.
Then he just came and said
"Are you crying because of God or what?"
And I said "No, I'm just in so much pain, and I'm crippled."
So he prayed for me, and I fell over.
I was literally taken up to heaven right away and I was
in a surgery room, and Jesus was standing over me.
He said "Just look at Me, just look at Me.
I've got you. I'm going to take care of you."
And then I could feel these angels,
they were working on my stomach, and that's where
mainly the most pain was, on my upper right side.
I could feel the angels working in there.
They were touching and everything.
And then I felt them turn me over,
and they were touching all my physical body,
my arms, my back, my legs, and all that,
because my physical body was so weak
just from all the medication and stuff.
And then I woke up, apparently an hour later.

I felt like it was two minutes, but, you know.
I woke up and stood up, and the guy came
and he said "How do you feel?"
And I said "I don't feel anything."
He said "What do you mean? People were seeing angels around you."
And I said "No, you don't get it.
I haven't not felt something in six months.
I've been in so much pain. There's no pain."
And I stood up, and I had strength in my legs,
and energy in my body.
I was like, this is so weird, I haven't had energy.
I haven't been able to stand.
I was so sick that I couldn't do anything.
It was like God finally pushed through,
and I thought, how crazy is this?
Sid: Leslie, what do you think about your daughter
right now, the miracle she's just had?
Leslie: Oh, I'm numb still. I keep looking at her.
The next morning I woke up an hour early,
and just stared at her thinking, is she going to wake up today?
Every day she woke up in pain, because she hadn't been
on pain meds for the hours that she actually slept.
And I was just afraid. I felt so unreal at the same time.
We just keep crying and laughing, and everyone's calling
and texting, going "Kelsey was healed."
And there's been so much prayer...
Sid: But there's so many people being healed
at this outpouring, it's like a river.
I'm going to have the most unlikely person in the world,
and that's what he is, Todd Bentley.
He's got tattoos up and down his arm, that I can see.
I don't want to know what I can't see.
But he's like a little over 30 years of age,

bald-headed, rough. I mean he's not a slick, cool,
religious, legal type of individual.
Don't go away, we'll be right back after this word.

*We now return to It's Supernatural.
Hello, Sid Roth here with Todd Bentley,
and I'm in Lakeland Florida,
and there is a literal eruption of God's Sirit going on.
I have my spin on it, and Todd Bentley, the young man
that God has used in this outpouring, he has his spin.
It's my show, so I'm going to give you my spin first.
My spin is, this is a throwback, not to the 1940's
where there were these great healing evangelists
like Oral Roberts and T.L. Osborne,
and Coe, and Allen, and Branham.
But this is a throwback further.
This is a hundred year throwback. This is Azusa street.
And Todd Bentley, I said something to you
when I interviewed you on radio,
that causes me to think the way I'm thinking.
And what I said to you is, you're unchurched.
You're not religious at all.
As a matter of fact, if I could use a word, raw.
Todd: Yeah.
Sid: I mean I'm not talking about the tattoos.
Because you're unchurched, you don't use church terminology.
But I heard you speaking,
and you spoke like a Pentecostal preacher,
and I said to you, "Were you raised in a Pentecostal church?"
Were you?
Todd: No, absolutely not.
Sid: So the reason that you speak like a Pentecostal church pastor
is because the Pentecostal pastors, most of them,
have learned their behavior; have learned how they're speaking.
But there was a spirit a hundred years ago at Azusa street
that they had to talk that way,
because the Spirit of God was so controlling them.
You have that same spirit from Azusa street.
That's my spin on what's going on right now.
Todd: Well I like that, because I never learned a behavior,
and just don't think Christianity should be
about learning a behavior.
Forget about copying a model and cookie-cutter Christianity,
but yeah, that's the Spirit of God.*

And I was quite surprised when I got saved,
because ever since I was saved, it's just who I was,
and it's something I never had the opportunity to learn.
I believe it is the spirit of Pentecost and Azusa street,
but all the way back to the book of Acts
when the day had fully come, the day of Pentecost.
It's just the way the Holy Spirit falls and flows through.
Sid: But at Azusa street, there was this one-eyed black man,
but it could've been a 30-some year old man
with tattoos up and down his arm.
Except this fellow Seymour did something
I haven't seen you do, at least yet.
He took a box, I don't know if you've heard this story...
Todd: I've heard the story.
Sid: ...and put it on his head,
and only came out when God had something to say.
But he looked foolish. He looked so foolish.
But then the story goes, it gets sadder.
When he eventually decided not to be foolish
and to take the box off of his head,
the anointing walked out the door.
Todd: Wow.
Sid: So let's whet our appetite a little bit.
Tell me what's going on with people with scars.
Todd: Oh man, it's been absolutely amazing.
I've never seen anything like it in all the years
that we've been involved in healing ministry.
The glory of God has been showing up.
It started with, I heard the Lord speak to me in a meeting,
and I heard Him say "I'm going to remove a scar
from somebody's body. It's a sign of My love.
I give beauty for ashes." And I just thought,
"Well why not, Lord?"
And I threw it out there as a word of knowledge,
God is removing a scar from somebody's body right now,
and I just said in the name of Jesus. And that was it.
And then somebody came up to the platform,
and it started with one...
Sid: By the way, commercial from our sponsor:
That word, it was for you. God's removing a scar for you.
Go ahead.
Todd: Come on. That's right. I like that.
Sid: We had a commercial break.
Todd: You can't talk about these things
and it not happen for the people watching.
This stuff is contagious.
Sid: I've noticed that. When someone gets up to speak,
someone else gets healed.
Todd: That's right, it's contagious.
It's like popcorn. I call it popcorn miracles.
Somebody came up with a 6 inch long scar, 2 inches wide,
deep purple scar tissue raised up off their body - gone.
And now it's been like 30 stories of people
that have had C-sections, the happy face this one lady said.
She was driving by the meeting, wasn't even in the meeting,
driving by in her car, and she had a happy face
from a C-section, from one hip all the way over

to the other hip, disappeared.

We've had a burn. A young man at a fireworks,
and he blew up his leg, burn marks all over his leg - gone.
One person had 40 scar marks. They were a cutter.
They had 40 scars, and all 40 scars disappeared.

Sid: You know what's exciting me even more than that?

People are coming that were formerly gay,
lesbian, homosexual. I mean what is this?
They're getting set free.

Todd: Again last night, there was a period of time for
about 5 days in a row, every day there were people claiming
"I was struggling with homosexuality,
I've been involved in a lesbian relationship,
I came into the meeting and it's gone from me,
and I know I'm free.

Sid: Last night, I wanted so badly to go up there,
because there was one spot that you were speaking.
You were talking about the pool of Bethesda,
where someone, if they could just get in that water,
they would be healed. Explain what was going on.

Todd: It was like at one moment, I remember
when it happened, I saw a yellow light in the room,
and for me that's the gift of revelation.
I know the angel is moving in the room when I see that light.
I see a white/yellow light,
and it'll come over a different part of the room,
and I'll know it's the Lord moving.

And my daughter at that moment had a vision.

Sid: I was right behind her, I was watching her.

Todd: My 8 year old daughter saw the angel of the Lord
as a yellowish white light.

She said the angel was on the platform with me.

Sid: I have a question. Branham had the famous picture,
it looks almost like a halo, a white light over his head.
Is that the same?

Todd: It's the same. William Branham would describe
the light that would come into his meetings,
and for me, his description and what I see is very similar.
I've never had a picture taken with a halo,
but people around the world who have never heard
my story will say they see a light like an angel.
And quite often it happens when I pray for the sick,
and that's what was happening on the platform.
That angel came last night. I didn't see it, but I felt it.
My 8 year old daughter had an open vision
and she saw the angel, and by what was going on
in the room, you could see the miracles.

Sid: Explain what was happening to people
who walked right to that one spot.

Todd: It was right in front of my pulpit,
and the angel of the Lord stood there,
so anybody that got near that angel's presence
fell on the ground and started vibrating.
They would come up the stairs...

Sid: What is happening when someone vibrates?

Todd: It's power. It's like electricity.
It's virtue going through their body.

I've had it happen to me. It feels like fire.

Sid: I'm watching you, and you're vibrating all the time. Your head is going like this...

Todd: All the time, all the time.

When I get under that power, it's like dynamite.

Sid: But don't you know that you look peculiar when you're doing that? But with what I see over here, that doesn't bother you that much.

Todd: that doesn't bother me at all.

Sid: Just out of curiosity, is God going to leave this? Or is He, just like He's taken away scars, is He going to take away tattoos?

Todd: You know what? He's done it.

I know stories of people who have gotten baptized, and they've had evil tattoos that go back to moments in their life...

Sid: This is all B.C.

Todd: This is all religious, most of my tattoos.

Sid: Really?

Todd: I've got a lot of religious art, like I've got Jesus and different things.

God has removed tattoos. For me, I was hoping the angel of the Lord would come with some heavenly ones and start painting on people art right out of heaven.

Sid: You're one step ahead of me.

Your mom was deaf, so you were raised with a deaf mother. And you hate deafness, and I was watching deaf people get healed last night.

Todd: Yeah, I absolutely hate deafness.

Sid: Tell me, there was one meeting you had where so many deaf people got healed.

Todd: Oh, I remember it. I was in a meeting one time, and I knew the Lord was going to heal deaf mutes.

Not just deaf, you had to be born deaf, never heard, and never spoke.

It was one of the most historic meetings I've ever been a part of.

We lined up over 150 on the platform, and 139 deaf mutes heard, and all spoke in one meeting.

Sid: Now did you know this was happening?

Todd: Not that many.

Sid: Or were you as shocked as everyone else?

Todd: At the volume, at the sheer volume.

Sid: You got rid of the place where these people lived.

Todd: Yeah.

Sid: I mean they were out of business.

Todd: We've had whole deaf schools show up and get healed in meetings that I've done, but I wasn't expecting it on that level.

But for me, there's a gift of healing, and when I pray for the deaf, I can 9 out of 10 times guarantee that if I pray for a deaf ear, it's going to pop open.

Sid: Would you do that, and also pray for anyone else God wants you to?

Todd: Absolutely. People need miracles.

I can pray right now for people to be touched in their homes.

Sid: Please.

Todd: Let's do that. You're watching us right now, wherever you're watching, and maybe you have no idea what's taking place. It's the supernatural that's taking place, and it can come right into your home. If you need a healing right now, I encourage you to do one thing: put your hand on the part of your body that needs to be healed. Right now I pray in the mighty name of Jesus that this healing power, this healing virtue, be released, and I command deaf ears... A right ear right now is heating up. You've had a ringing in your right ear. God's healing that right now, and a 30 percent deafness. It just came upon a man watching right now, that right ear. In fact he had a hearing aid in that ear, there's always a ringing, 30 percent deafness being healed right now. I see the Lord touching a woman in your eye right now. There's some kind of a sty or mark in your eye. You actually have a scar on your eye. You cut your eye. God's healing that and restoring your vision. I pray right now for the healing of asthma, hepatitis, and any kind of pain in your body, chronic fatigue, pain, fibromyalgia, arthritis - go, loose right now. That anointing, we call it the anointing, it's the power of God. May you feel that vibration, that vibration of the Holy Spirit commanding the sickness to come right out of your body, in the name of Jesus. A lung disease is being healed right now. Your lung has collapsed and God is healing you right now in the name of Jesus. And I pray, God, release the angels, the ministering spirits, that bring miracles, miracles, miracles in the name of Jesus.

Sid: Todd, I was watching on TV, just watching, and I'm amazed at the presence of God that is on the telecast of your meetings. So I'm watching this, and I have a fairly large cyst about here, it's not bothering me, but I don't like the way it looks.

Todd: Absolutely. Who wants a cyst?

Sid: And I'm watching where people are having things removed, and I just put my hand here. And it wasn't like it was dried up already, it just came right off. I wasn't asking God to take it off, I didn't even believe He was going to take it off, but the presence of God came right through the TV.

Todd: Wow. It does.

Sid: Tell me very briefly one of your favorite miracles so far.

Todd: I'm thinking about it right now, because there was a woman watching the broadcast, just like people are watching right now. She was a young girl, totally deaf in her right ear. Her father was watching the telecast, he called his family into the home, and this young girl came into the living room and she felt a wind come right through the TV.

Sid: I felt the wind last night. I felt a wind.

Todd: It's blowing. It came right through the TV.
She said a rushing wind came right through the TV,
went through her ear, and like a cork,
went through and pushed out the deafness, and
her totally deaf right ear popped open watching on TV.
Sid: Listen, you think that's something,
a deaf ear being unstopped. That is nothing.
Let me tell you what something is.
Something is having intimacy, I mean real intimacy.
I don't mean a mental thing, I don't mean a religious thing,
I don't mean a traditional thing.
I mean having such intimacy with God.
And the good news is, no matter what you've ever done,
you are loved, and in the Messiah, you are accepted.
It's such love that tears come to my eyes
as I just talk about His love for you.
It's not an accident that you're watching,
it's a God incidence.
God Himself orchestrated for you to watch us right now.
And I tell you that if you draw close to God,
He will draw close to you.
Believe Jesus died in your place for your sins
and your bad deeds. Ask Him to forgive you.
No religious deal. Just say "Jesus, help."
If you'll just do that, you will know Him.
Not know about Him, you will know Him.
Knowing Him is everything. Knowing about Him, nothing.
Get everything now.
