Do angels exist?
Are healing miracles real?
Is there life after death?
Can people get supernatural help from
another dimension?
Has the future been written in advance?
Sid Roth had spent twenty-five years researching
the strange world of the supernatural.
Join Sid on this edition of "It's Supernatural."
Sid: Hello, Sid Roth, welcome to my world
where it is naturally supernatural.
Are we going to have a show today.
It started with a letter, let me read it to you.
Dear Sid, last night I purchased a live CD made at my
church, River Walk Fellowship in Ft. Worth, Texas.
I brought it home and started listening to it.
Out of the blue I plainly heard, "send this to Sid Roth."
I don't know why but I am sending you this CD.
What is really amazing is many times while worshipping
I have seen things like trap doors in the ceiling opening up
like the pen was pulled with the door falling open and
what looked like a ladder of DNA falling out of the ceiling
to the floor, and I heard, "You can come up if you want."
So I did.
I saw these ladders of DNA falling all over the building;
I saw many people, not angels, ascending and descending.
I did this myself many times getting revelation
about many things but mostly about Jesus.
He loves to take our hands and dance with us; he has no
worries about anything and just smiles and dances.
He set me free with this.
This letter goes on Steve Solomon, about people are frozen
to the floor; they are having the most amazing visitations.
You have a type of music and there is a Hebrew word,
pronounce this word shigionath, what does that mean?
Steve: Well it is from Habakkuk 3:1 and it is a
prayer of Habakkuk set to shigionath.
And the Hebrew means to "set the loud, enthusiastic,
triumphal music" and it has got a dual meaning,
"to cry aloud against sin."
Well before we get to some of this music, and this music
is so supernatural, this is happening to so many people at
his congregation, it is kind of a "in your face"
music you know, call I call it that?
Steve: It's exactly, that's what the Lord told me to do
eight years ago, get the music in their face.
Sid: Tell me about your Jewish background,
you grandfather founded a synagogue.
Steve: Yes, my mother's father, they were founders of a

conservative synagogue in Boston, Mass, and then my parents in the early 19 - well the mid-1950's started a reform synagogue in Framingham, Massachusetts, Temple Beth Am, and so I was raised, born to a Jewish family, and raised in the Jewish faith, Bar Mitzvahed at age 13.

Sid: But when you were very young you had a heavenly visitation, tell me about that.

Steve: Sid, we lived on 6 Ruth Drive, in Framingham, Mass.

Sid: Sounds Jewish to me.

Steve: It sounds Jewish; it is a real Jewish area, 6 Ruth Drive, and one night I went to bed and I remember I was six years of age, and while I was sleeping I went, and a six-year-old doesn't know these kind of things, now looking back I figured it out, but I heard first of all a voice calling my name three times, Steven, Steven, Steven.

And I was in like a big room with big columns like a mansion, and I would look around and I heard my voice, and I said to myself, that's not my Dad and a voice would say, "that's the voice of your Father."

And I said "That's not my Dad he is in the next room, it doesn't sound like him."

And the voice said again, "That's the voice of your Father."

And I didn't understand what that was but I remembered it all my life until when Jesus appeared to me in 1974 when I was 24 years of age.

Sid: Let's take you back just a little bit; you are married, you are successful, what did you have, did you have your own band?

Steve: Yeah, we worked in the Disney World area, I graduated University of Central Florida in 1972 with a 4 year degree, but I was making more money working in the bands and we were real successful in the Orlando, Disney area.

Sid: So your wife is pregnant, she is expecting and you decided to leave her?

Steve: Well isn't that crazy?

Sid: Yeah.

Steve: That's what she said. It is really crazy.

It's one thing to... People fall out of love, that happens, but to not pay attention to your children, not care about them, something is wrong. And what was wrong was that a guy in the band got invoked in transcendental meditation and I didn't go to all the courses, id didn't want to pay all that money so I just bought the books on it so I started, because I was looking for something Sid, something, there was something about life, I was 23, 24 years of age, making a lot of money, successful, we owned our own home, but there was something missing in my life.

And I started looking, and I wanted to find what that was.

And the more I got into the study of the eastern religion and the occult kind of stuff;

I just became a different person.

And we decided, Diane was expecting the baby in November of 1974, we decided that summer that when the

baby came we would just leave and go our separate ways. She turned to me one day, now Diane was saved when she was four years of age, and was filled with the Spirit of God, and she said to me one day but she was backslidden, she said she had to backslid to meet me, she said get those books out of my house or I am going to burn them and send them back to hell where they came from.

Well as a Jew I didn't -

Sid: So did you burn them?

Steve: No, but I put them in the back of my car, you know I didn't believe, I put them in the back of my car, I put them in the trunk of my car, I got them out of the house. And I remember that specifically.

Sid: You had a very defining moment where you were by yourself and something, just like when you were a little child something very supernatural happened, tell me about this.

Steve: Here is what happened, the band was playing at the Royal Plaza Hotel, typically after the nine o'clock set I would go into a banquet room and try to meditate, turn the lights out, and I was still trying to meditate and get in touch with God, and nothing ever happened.

All the thing I read, I had not one supernatural experience. I was looking for something supernatural, and this one night sitting in the chair in this dark room, no lights on, here is the prayer I prayed, here is what I said.

I said, "Is the God of Abraham, Isaac and Jacob, are you real, are you out there?"

And then for some strange reason I went on and I said, "Is Jesus Christ who he says he is?"

Suddenly...

Sid: Why did you say that?

Steve: I don't know.

Sid: I mean that is not what a nice Jewish boy does that is ready to leave his wife and almost baby.

Steve: No, just the sovereign providential God had a plan for my life regardless of what I wanted to do with my life, he was intervening in my life.

Sid: Okay, so you asked this question.

Steve: I asked this question.

Sid: And the question again?

Steve: "Is the God of Abraham, Isaac and Jacob, are you real, are you out there?"

Sid: Right, a fair question.

Steve: Yeah that's a good question.

"Is Jesus Christ who he says he is?"

Sid: Hold that thought.

We are going to be right back after this word.

We will find out what kind of answer he had, be right back, don't go away.

We'll be right back to, "It's Supernatural."

All I need is you

Sid: Sid Roth here with Steve Solomon. So what happens when a Jewish guy that's deeply involved in mysticism, the occult, new age, trying to find - what were you trying to find, what were you searching for Steve?

Steve: You know there had to be more to life than just what I was living, there was something out there and I had, there was something drawing me to something, there had to be something more.

Sid: All right, you asked two questions, repeat the questions and tell me what happened.

Steve, okay, "Is the God of Abraham, Isaac and Jacob, are you real, are you out there?"

"Is Jesus Christ who he says he is?"

Suddenly, remember now for months I had been trying to find a supernatural experience, trying to have something happen, and nothing worked.

Suddenly when I asked those two questions simultaneously, I know now what it was, I felt myself lifted out of my body, I felt myself, I know now my soul lifted out, and I saw simultaneously, now the room is dark, all the lights are out, a ball of fire, it looked just like the setting sun, amber in color, real bright, and a right hand came out from the center of this fire across the room, probably about forty feet away, across the room, touched me on my head, pushed my head straight back, and then I heard an audible voice and He said, "Yes I am, what you are doing is wrong, stop and follow Me."

Sid: Well did you just say, ignore it or what did you do with this.

Steve: No, I was stunned.

Two things, I didn't know who to tell, I knew that I asked if God was alive, the God of my fathers, Abraham, Isaac and Jacob, my forefathers, and is Jesus Christ is who he says he is.

I got one, "Yes I am, stop what you are doing, and follow me."

I totally stopped what I was doing, all the trying to meditate and all that stuff, I totally stopped, I went home, I didn't tell anyone because, number one I didn't know of any Jews who believed in Jesus of Nazareth as being the Son of God, I knew none.

I never heard of this that any Jews did believe.

And my wife had purchased a Bible when we were going through our marital problems, she had purchased a Bible and so secretly I would take her Bible and start reading the Bible, Old and New Testament behind her back for a few weeks and it was phenomenal.

The words just like they were alive, they came off the page.

You know I was raised you know and we in Massachusetts there were Jewish sections and Irish sections, and my Irish friends were named John and Matthew you see, and Mark, I thought those were Irish names, you know.

They are Jewish names.

You know guys in the New Testament like Matthew, you know, Mark, John, all these guys were Jews, and the word of God came alive to me Sid.

I read everything, it was phenomenal.

Sid: Well did you leave your wife anyway?

Steve: No, I started preaching to my wife a couple of weeks later.

I said you know -

Sid How did she take this?

Steve: Not good at first, I said Diane we need to start living for the Lord, and she said, and she said to herself, what does this Jew know about my Jesus anyway?

And so she found out that I knew more than what she, you know I told her, I have had an experience with Jesus, she came back to the Lord and the first thing the Lord did, the first thing, he gave us a phenomenal love for each other which stays even to this day and it has been thirty eight years.

Sid: A funny story wit your mother-in-law, tell me that?

Steve: Well, you know my mother-in-law, you know she went to the Four Square Church in Orlando, that's where Diane got saved, in Orlando, and my mother-in-law was a life-long charter member of that church, she got saved after Diane went to that church as a child with a neighbor, now listen, and once in a while she would say, now Steve, Jesus is your Messiah, and it just wouldn't mean anything to me, you know, and then she would turn to Diane and go, now Diane you know better, you are a backslider and you know better, but the first person I publicly told other than my wife, we would have dinner at my mother-in-laws house all the time, and then one night we left, I walked back into the door and said

Ma I want to tell you something and she goes what?

I said Jesus is who you say he is.

And I turned around and walked out and she was stunned.

And she came to find out that I was; that I had really had an experience with God.

Sid: Talk about people being happy, can you imagine how happy his mother-in-law was, how happy his wife is now, how happy he is, how happy his children are, I mean his whole life was transformed, you want to know what happy is?

The happiest music I have ever heard is on this CD, River Walk DNA, and there is a song, it is my favorite, it is called River of Life, do you like that?

Steve: I love it.

Sid: Because wherever the river goes, There is healing, let's hear a selection.

\$ music \$

All right, all right, all right

Here we go

*When Jesus prayed that they all may be one,
there were only two people groups:*

Jews and Gentiles.

Denominations did not exist.

From the beginning was for all nations to become one in Yeshua, Messiah Jesus, to break down the middle wall of separation dividing Jew and Gentile so that the world may believe that Yeshua is the Messiah and Lord over all.

When Jewish spiritual DNA merges with the New Covenant Christian DNA thee will be what Paul called life from the dead. That's why Sid Roth's website is loaded with cutting edge articles and teaching about the One New Man.

We now return to, "It's Supernatural."

Sid: Hello, Sid Roth here with Steve Solomon.

Steve becomes a pastor, a nice deal.

All of a sudden his church springs a leak,

oil all over the place, what happened, Steve?

Steve: Okay, it was the end of June, 2005,

and I get a phone call.

On Tuesday's we feed almost 300 families every Tuesday, we give them free groceries, so Tuesday is food ministry, Feed the Multitudes Day.

So the, we have some ladies that want to pray in the sanctuary before that takes place, and so they are praying and they wanted to pray for me and so they were looking for some oil, like a bottle of oil, they couldn't find any and one of the ladies yells out in the back, "I found the oil." And what had happened on the columns of the church oil was seeping out of the columns, and the more they looked clear oil, the oil started appearing everywhere in the sanctuary.

They called me at home and said Pastor Steve, here is oil leaking in the church.

Well my first thought was something broke and it was leaking you know out of the wall.

Sid: Of course, that's what I would think.

Steve: Oh great, this is terrific; we have got to fix something else.

And they said no, no, no, no, nothing broke, it is clear oil from the Lord, it is just appearing everywhere.

So we came down and sure enough there was oil in the church, just a few days before we were going to start some extended meetings, July 4th meetings for freedom and liberty in the Spirit.

And so it happened, and it stayed with us for months and months and months, just phenomenal.

Sid: The newspaper covered this.

Steve: Yeah and channel, the local CBS affiliate came out and did a story on that and when people started taking pictures of the oil, these white orbs of light showed up in all different kind of cameras, film cameras, you know, phone cameras, cell phone cameras, digital cameras.

Sid: Now you are sure this wasn't a leak of some sort?

Steve: No, we had it checked out, it was everywhere, it would show up on people's hands, on their feet, on my forehead, on the pulpit.

It started on the Israeli flag first and then went to the US flag.

Sid: Oh course to the Jew first.

Steve: To the Jew first so it started, it was there, it was everywhere.

And then we would have these meetings and the cleaning crew would say should we wipe it off like you know it is some sacred thing.

I said yeah wipe it off, just clean it up and see what happens, and the next night it would show up again.

It was just like raining.

Sid: Were many people healed from this oil?

Steve: You know there was a dramatic increase, I remember one guy came in, someone in the church you know found him and you know on the street somewhere, I mean the guy had a car and was a truck driver, he was about to lose his license because his knee was going bad and he was blind in one eye, he still had a license, I don't know how he did that, but he was blind in

one eye and he could barely walk and they brought him to church that day, eye opened up, his knee was healed totally, and he was instantly healed.

People all kind of diseases and sicknesses, one lady, she is still in the church, she had an intestinal cancer and prayed for her she went back to her doctor and it was totally gone.

Sid: But healing isn't part of your DNA, you had a trance vision once, tell me about that.

Steve: Yeah, it was right after I was saved, it was like early 1975 and I would go out, I had like a prayer room in the garage and I would go out there and pray, and a lot of times I would go out there and pray and fall asleep.

I don't know if that ever happened to you or not?

Sid: Never.

Steve: I didn't think so.

Sid: I can't tell a lie, once in a while.

Steve: Well I'd come in from the prayer room and I would have like this you know, saliva dripping, and creases on your face, and my wife would say I see you have really been seeking the Lord.

I would say oh yeah, I was laying before the Lord.

This one time I did fall asleep but I went into a trance and Jesus was standing to my right and we were in this meeting room, it was more like an auditorium instead of a church building, and I remember the people in this vision were like the late 1940's, early 1950's, and a healing meeting was going on, praying for the sick and Jesus was standing to my right and he spoke to me in an audible voice, this was about the third time I had heard his audible voice, and he said stretch forth thine hand to heal the sick. And I immediately woke up and I felt like this fire was just all over my body and I had heard him and I was in this thing and just said Lord if is you I need a scripture. And he spoke to me Deuteronomy 2:12 I believe it is if I am not mistaken and it says "For I have blessed all the works of thine hand and it is the same thing he said, stretch forth thine hand, and I said Lord give me one more scripture and I will really believe it, he said Exodus 19:5 "thou shalt obey my voice indeed," and so I took it as a sign from the Lord to start praying for the sick back in 1975.

Sid: And you have seen many miracles, you also have a radio show called "Praise in the Night," some of the loneliest people in the world listen to your show. Tell me one supernatural experience.

Steve: There was a Muslim lady in Dallas who was driving around wanting to commit suicide and listening to the radio, excuse me, she wasn't listening, as she was getting ready to turn the car on and put a hose, she found a place to park, and was going to do that, she turned the radio on as a lot of people do, and at the moment she turned it on I said "go home now, turn your car around and go home."

She thought it was for her, she turned her car around, she went home and she continued listening, she prayed and Jesus came into her life, and she is a Spirit-filled Christian now, she is not a Muslim anymore.

I have got one more if I have five seconds, a young man, a teenager in Lewisville, Texas, was getting ready to take his life, he had a gun in his hand, the alarm clock radio went off and he has never heard Praise Night, never listened to that radio station, KBDT in Dallas, the alarm clock radio went off at the same moment that I happened to be exhorting people that if you think you want to give up on life don't kill yourself, if you are suicidal tonight let's call on the name of the Lord together, he put the gun down, picked up the phone and called Praise in the Night and was saved.

Sid: Well you know the most important thing you can do is those two questions that Steve prayed. He says to this day he doesn't even know why he prayed it; the first question is "God are you real?"

Is that a fair question?

I think that is a fair question.

The second question he prayed is,

"Is Jesus Christ who he says he is?"

Let's pray that right now, out loud.

Pray that, "God are you real?"

Just say it right now, out loud.

"God are you real?"

And then that second question,

"Is Jesus Christ who he says he is?"

Say that out loud, "Is Jesus Christ who he says he is?"

And I pray in Yeshua's name that the Spirit of the Living

God will descend upon you and reveal all truth to you.

Because that is his job, I literally felt an angel touch me

on the head and I believe that that angel is touching

many of you, touching many of you right now,

an angel of healing has just touched your back and spine,

has God shown you anything?

Steve: That there are people who are hungry for something in this life right now, people who are desperate, people who blame themselves for all their problems, and this healing is for the glory of God, this deliverance is for the glory of God, don't give up.

That the Son of God is all you need and he is here right now to heal you and touch you and save you.

Sid: You know, my Jewish mother used to always say,

"I don't believe in this Jesus, but Jesus made my son a mentsh, that's a Hebrew word, a Yiddish word, it says a "good human."

And then Jesus made my mom a mentsh and my dad a mentsh, and my whole Jewish family a mentsh.

And you know what, I think God wants to make you a mentsh, pray to God to show you the truth about Yeshua; that is Hebrew for Jesus, do it now, right now.

\$ All I need is you \$
