

*Is there a supernatural dimension, a world beyond the one we know? Is there life after death? Do angels exist? Can our dreams contain messages from Heaven? Can we tap into ancient secrets of the supernatural? Are healing miracles real? Sid Roth has spent over 35 years researching the strange world of the supernatural. Join Sid for this edition of **It's Supernatural**.*

SID: Hello. Sid Roth here. Welcome to my world where it's naturally supernatural. You know when doctors give you bad reports and they say that your mother or your father died of cancer or heart trouble, it's your DNA. Well my guest has been shown how to supernaturally change your DNA. He calls it genetic salvation in which God has literally shown him, and thousands of people have done this now. You go all the way, not just four generations, you go all the way where the flaw started, Adam and Eve, you break those curses and you're walking in new DNA. Now my guest is African. He was born in Zambia. Dr. Myles, you Africans provoke me to jealousy no end. You understand the invisible world. Why does it appear as though the Africans that sell out to the Kingdom of God understand the supernatural better than us here in America?

DR. MYLES: Well that's because in Africa you grow up in the [unintelligible] where it's already charged for the supernatural. The only problem is charged the other way where it's more the demonic supernatural, but you are raised to see witch doctors literally perform what would be signs and wonders if you did not know Jesus, astounding things. And you grow up around it so you are aware that we are not alone in this world. There is another world out there.

SID: But it's hard to believe. At age 18, his body has painful boils, he drops to under a hundred pounds. And as he just said, he went to the doctors. They couldn't figure out what was wrong. Then he went to the witch doctors. They couldn't figure out what was wrong. He was in critical shape. But in the meantime, the nastiest student at his school had an encounter with the Lord. And so he saw such a transformation. He talked to him and this friend of his said, "Well if you come out to my church you'll be healed." So he's not too interested in God and Jesus. He just wants to be healed. So he goes to the church, but he got something that he didn't bargain for. He had a genuine encounter with the Living God. But he wasn't healed. However, a month later a mysterious light comes into him. Tell me about that.

DR. MYLES: I was living with an alcoholic uncle. And I went to sleep on a bed that was on the floor. And all of a sudden the room I was in was filled with the most brilliant white light I've ever seen in my life. It was the manifestation of the Glory of God. And that white light filled into me from my head down to the sole of my feet, and the literally in seconds, unzipped my body like opening up a luggage. And my spirit stood up and I could see my lifeless body on the floor, on the bed. I could see everything. I was aware of everything around me, and my spirit looked like my body, you know. So then suddenly, the Glory of God lifted me up and I found myself on top of the roof of the house we were living in. I could see the neighborhood. And then all of a sudden, in front of me on top of the house, I see this demonic prince. I saw this demonic principality filled with what I could only call as rivers of hate. I had never seen so much hate out of anybody. Demons really hate people. And I looked at this demon and all of a sudden it came after me. But there was no fear in me, though.

SID: You're a baby believer. How come you had no fear?

DR. MYLES: That was the most interesting thing, because you know, the way I was raised, I should be very afraid. Because we were raised to be afraid of the demonic world and what they can do to you. Witches are legend in Africa. So I should be afraid. But instead, there was zero fear in my spirit. As I looked, and by the way, when I looked at the demon, my spirit could scan the history of this spirit. I knew exactly the dimension of the spirit, what it could do. It was amazing, just like in seconds. And then when it reached out for me we began to fight, and it was a 50-50 percent fight, see. And all of a sudden, something changed. Right above us, the sky, the heavens opened up like around, it opened up. And as it opened up, the same shining glorious light that entered my bedroom covered the neighborhood where we were. I could see something very tiny in my neighbor's yard. The whole neighborhood was covered with light. And I thought everybody is going to rise up and come out and watch what's going on. They must be seeing this. And nobody came out. And then all of a sudden, so me and this demonic principality are now looking towards the heavens and we see a majestic golden hand of a man with a huge nail imprint in his hands, and it rested over us. And all of a sudden, a door opened out of his hand, a door.

SID: A door opens out of his hand.

DR. MYLES: A door opens and a blue scroll comes out. And he speaks as the scroll comes out, and he speaks to me and he says, "Son, use my word." And the scroll comes and I touch it, and it goes into me. I'm a baby Christian and so the only scripture I know is John 3:16.

SID: "God so loved the world that He gave His only begotten son." He knows this. Okay.

DR. MYLES: Yes. And so that's the only thing I remember because coming from a Catholic background, that's the only Bible I had, was John 3:16. And so I said it. I said, "God so loved the world that He gave His only begotten son that we shall not perish." When I said it, there was a lightening from one end of the heavens to the next. Then the lightening was followed by what I can call billions of thunders. It was the largest sound I've ever heard in my life. The authority of the Word shocked me. It was amazing me. Everything shook. And I thought the houses were going to collapse in the rubble. And the next thing that I saw was this demonic principality was lying flat, head first by my feet. After the Glory of God left and I got back into my body, I was instantly healed from three years of all the boils. Everything in my body, all the pain disappeared completely.

SID: I like that. Would you like that? You see, he saw this invisible world and he had such revelation on what he called genetic salvation. I want you to teach them that when we come back.

SID: Frances, explain what a generational curse is.

DR. MYLES: Well the Lord told me that a generational curse, if you break up the word, the word "generation" is made up of two words: "gene" and the word "aration". He said a generational curse is a curse attached to generational genes you receive from you ancestors.

SID: Oh, so that's interesting. The genes of your ancestors are the gene-arational, generational curse. Okay. And tell me how these patterns affect families.

DR. MYLES: They affect families, you know, because when Adam and Eve fell in the garden, see Adam and Eve were created with the DNA of God. And when they fell they lost that DNA. And so when they lost that DNA, now from Adam onwards, since the fall of Adam, every bloodline on the planet, no matter how famous it is, is compromised genetics. And because the enemy has demonic pathways in the genetics, he can still afflict God's people even when they are believers because of whatever, what the Lord called liens, demonic liens against the DNA. And for some people demonic liens is spinsterhood. So no matter how beautiful the women are they never get married. Some people, it's financial calamity. Whatever lien is in the bloodline, connected generational genes they receive from their ancestors, can affect their life tremendously.

SID: You have been shown things that I've never heard of before. For instance, where did you learn, what is and where did you learn to jump the line?

DR. MYLES: Well when the Lord came to me and visited me four years ago, He said to me, "It is time." I said, "What do you mean, it is time?" He said, "It is time for my people to experience genetic salvation." I said, "God, what is genetic salvation?" He said, "Genetic salvation is when the finished work of the cross is applied to the healing of my people's genetics and giving them a new genetic inheritance." So the enemy has no voice in the genetics to come against their prophetic destinies. And so He then took me into the spirit and He showed me a group of believers standing in front of a bloodline. But in the bloodline, standing in front of them was a lot of sound, like almost like a broken radio. And He said, "That sound you are hearing in the blood is a sound of iniquities from the forefathers that are fighting against my people coming into their destiny." He said, "I want to silence that voice by my people receiving my genetic inheritance." He said, "When I came to the planet my blood was shed not only to forgive your sins, but to create your own bloodline because Abraham missed the cursed bloodline."

SID: So what does someone do when you tell them to jump the bloodline?

DR. MYLES: It's a prophetic act. When they jump the prophetic bloodline, they're simply saying prophetically that they are leaving the heritage of the compromised genetics of their ancestors and jumping to the Messiah's flawless bloodline.

SID: That sounds pretty good to me. Tell me about a businessman that did that.

DR. MYLES: We had a businessman who had four failed businesses and got a hold of this revelation in his garage. He did a prophetic act of renouncing his attachment and allegiance to

natural lineage, corrupted lineage, and he embraced the Messiah's lineage and jumped over the line. Within about three weeks, he was offered \$5 million for one of his businesses. He never had that happen before.

SID: Okay. How about illness? Tell me about the woman with rheumatoid arthritis.

DR. MYLES: Yeah. There was a woman who had rheumatoid arthritis. And we asked her on a scale of 1 to 10 how bad it is, she said, "Twenty, plus there are days I ask Jesus to cut off my legs, it's that bad." She could hardly walk and getting in a [unintelligible] was hassle for church and getting out was another hassle. Well when she jumped the line, she could hardly jump actually, the pain was very difficult, but she did her best. When she jumped, within less than 15 seconds she began to run up and down the church. It was the most amazing thing.

SID: If God can heal someone of that type of lineage, He can change the DNA of any problem that you have, not just sickness, finances, family, all of these. When you come back, I want to find out some more about what God is showing you prophetically about what's shortly going to happen to President Obama.

SID: I heard of being immersed in water. I have heard of being immersed in the spirit. But have you ever heard of being immersed in love? Dr. Frances was subjected to a lot of bigotry because he was black and he was going to a white Bible school. And he was told to pray for a white couple, and he didn't want to. But he loved God so much that he prayed for that couple, and he got baptized in love. Tell me briefly what happened.

DR. MYLES: Yes. All of a sudden, I'm looking at them and having difficulty trying to pray for them because of the bitterness and the anger was in my heart. A vial of liquid love was poured on my head and as it was coming down my mind became alive on how much God loved His people. I knew in that moment that God loves people beyond measure. And then by the time it got to my heart, I fell in love with this white couple more than I've ever felt for my own love.

SID: But you had bigotry your whole life. I mean, it wasn't just the Bible school. I mean, how can you just instantly change like that? How could love this white couple with all that you went through?

DR. MYLES: It was so supernatural and it came up on me. As it came up on me and this baptism happened, my heart changed like this. It was so overpowering there was nothing I could do to stop it.

SID: Okay. This liquid love, you were praying for someone that had been insane for 20 years. What happened?

DR. MYLES: Yeah. They brought this woman, a difficult case to pray for because she smelled, because she was insane and used to sleep in the trash cans. So you can imagine when you have not taken a bath in 20 years, that's not a good smell. And so everybody in the crusade was staying away from her because the smell was overpowering. The more she came close, I could smell her. And all of a sudden that liquid love came upon me and the smell disappeared. And as the liquid love came upon me, I saw into her spirit. Her spirit was encircled by thousands of demons. And then her spirit looked up to me and said, "Frances, I need your help." And the Lord said, "Command them to unroll." And I said, "Unroll in the name of the Messiah." And it's like an invisible hand reached out and touched one of the demons by the tail, and pulled him out, and the demons rolled out like that. And when the last one went out, the woman was instantly normal. And when she looked around, she was properly dressed. She began to say, "Why am I looking like this?" It was incredible. People started shouting and screaming.

SID: She was in her right mind.

DR. MYLES: Hallelujah. She was in her right mind.

SID: Okay. Now briefly, because we have just been invaded with a healing spirit of God's love. But before I turn Dr. Frances loose, when Senator Obama was running for president, God told you, what did He say about him, that he would win?

DR. MYLES: He was 20 points behind Hillary Clinton. And what is amazing for me is my focus at that time was the Republican primary and I didn't see it coming. But I went to sleep and I had a prophetic dream in which I was at the nomination ceremony for the nominee for the Democratic party, and I was in Denver. And when they opened the door, the announcer said, "Here comes our nominee, Senator Barak Obama." And as he came through it was Barak Obama. And when he got to the podium and he began to give his nomination speech, his words were slurred because in the dream, he was drunk. And then all of a sudden, he went from being drunk to praying in tongues. And I'm like, what happened? When he started praying in tongues, some of the famous people around him began to walk away from him because they were shocked by him praying in tongues at the meeting. When it was all over, he walked out, and on his way out, he greeted me and then I woke up. And the Lord said, "He's going to be president and he will be president twice." He said, "The first year, the first term he's going to govern as a liberal." That's the drunkenness you saw in the dream. But there's a seed of Christ inside of him that has yet to be nurtured. And in the second term, as you pray, he will rise up and awaken to his faith and it will come a great political cause, politically, to some of his liberal friends who supported him, when he changes in mid-stream.

SID: Now this will only happen, listen to me, this will only happen if we pray. But I have to pay attention to the Holy Spirit right now. If you will pray for people, I believe we're going to see more miracles. I mean, I believe there's going to be an explosion of miracles. You felt the healing. Pray right now.

DR. MYLES: Right now in the name of the Lord Jesus Christ, Father, we come against cancers, we come against lupus, we come against diabetes. In the name of the Lord Jesus Christ, I thank you for the healing power of illness leaving us right now in Jesus' name, the Messiah. There's a man by the name of [unintelligible], I see you had an accident in your pickup truck. I think it's a blue Ford pickup. And since then you've had tremendous back spasms, and I think you were in construction and you can hardly work now. But I feel the healing power of God is coming to you right now. God is healing you. Then I see another woman that you are contemplating on what to do next because your doctors have told you that your cancer, you need a surgery for your cancer. But they are saying that you might lose your, you might go blind in order for them to take out this cancer. But the Lord is healing you right now. There will be no need for the cancer and you are not going to lose your eyes in the name of Yeshua, the Messiah. Halleluiah. Praise God. Praise God.

SID: Well I'll tell you what. I'm still soaking in it. But what did God show you between 2012 and 2022 for America?

DR. MYLES: The Lord said the next 10 years are going to be known as the golden years of the Melchizedek quarter. He said there's going to be a restoration about a clear understanding of the Melchizedek priesthood of the Lord Jesus Christ, which will also lead to the greatest harvest of the Jewish people since the day of the apostles.

SID: Let that happen quickly. But what did He show you about the miraculous that will be on Earth?

DR. MYLES: Yes. He said, "During that 10 years," He says, "My body will begin to understand fully what it means to function as a king and a priest who is representing me on Earth. And He said, "There is no king who is without power." Whoever the king is has power. So He said, "As my people begin to function and kings and priests, we are going to see more miracles." Either the church is going to go actually, it may even go beyond the healing work of what we saw some in the healing movement, because it's going to be on a larger scale, not just evangelists, but it's going to be the body walking in the supernatural.

SID: Has God shown you anything about what Paul calls the "one new man," when all these Jewish people have encounters with God and then the ancient spiritual DNA on Jewish people mingles with the spiritual DNA on Christians. They come together and Paul calls it "one new man". What do you believe that will happen at that time?

DR. MYLES: Well we're going to see the greatest revival ever because it is literally Elijah's double potion being released on the earth.

SID: And when Christians and Jews get a revelation of the blessings of Abraham, what are they, briefly, the blessings of Abraham.

DR. MYLES: Well the blessings of Abraham, very quickly, you know, Abraham, God blessed when he met Melchizedek. See, Abraham was called, in Chapter 12, but he was not blessed. God says, "I will bless you." He got blessed. God said, "I will bless you," in Chapter 12, became "I

have blessed you." When Melchizedek met him the blessing was released. Blessed be Abraham [unintelligible]. That's when Abraham became blessed. So what we call the blessing of Abraham became the Melchizedek priesthood and it has several ingredients into it. One of them is the ability to represent the Melchizedek priesthood here on Earth. That's when God wanted to destroy Sodom, He could not do it when talking to Abraham because he represented that priesthood on Earth. So God will now begin to deal with us before anything happens in our nations, because we're representing a priesthood that is an executor of other nations. And so many things are attached to the blessing of Abraham.

SID: Well it's time you have a revelation because if you're Jewish and you believe in the Messiah, you have the full blessings of Abraham.

DR. MYLES: Yes.

SID: And if you're gentile and you believe in the Messiah, you're the same as Abraham's seed by faith. So I pray you have a revelation of the blessings of Abraham. And when we go off the air, you jump over that bloodline and get free in Jesus' name.

SID: Next week on *It's Supernatural*. Could sinister invisible forces be blocking answers to our prayers, stopping loved ones from being saved, stopping your physical healing, fouling up your finances? My guest has been taught for many, many years about what the Bible calls the breaker anointing. And when she speaks, the breakers start running interference for you and you just walk along your merry way. Would you like to understand the breaker anointing?

[music]
