*Is there a supernatural dimension, a world beyond the one we know? Is there life after death? Do angels exist? Can our dreams contain messages from Heaven? Can we tap into ancient secrets of the supernatural? Are healing miracles real? Sid Roth has spent over 35 years researching the strange world of the supernatural. Join Sid for this edition of **It's Supernatural**.*

SID: Hello. I'm Sid Roth. Welcome to my world where it's naturally supernatural. Have you ever heard of a man by the name of William Branham? He had without a doubt since the days that Jesus walked in the flesh the greatest miracle ministry I ever read about. No guess work on his part. He knew when people were going to be healed. He never missed it. Well I have a guest that operates in that same type of presence of God. He was telling me that he, many times, almost every time, he sees what are known as panoramic visions. He'll see a light over someone and he'll pick that person out, and then he'll see photographs of their entire life right above their head, their past, their present, their future. And he was mentored by an individual that said, she's in Heaven now, but she said he would transmit the most supernatural anointing to people in the last days. Are you interested in hearing about it? I have to tell you something. I read in the Bible that the Gentile believer is supposed to provoke the Jew to jealousy. So my friend James Maloney has been provoking me to jealousy. But I just found out he's not Gentile. He just found that he's Jewish. So I don't know how can you be provoking me to jealousy? People see a flame of fire. Explain that, when you speak many times.

JAMES: Well Sid, well what many times happens is I'm ministering after the Word sometimes I enter in to what's termed, in Hosea 12:10, "multiplied visions." It's what we term a seer operation, prophetic seer operation. So what happens is the person that's, you know, I feel impressed to call someone out. I have him stand in front of me and they welcome the anointing and the congregation is drawing on that gifting and anointing. And then I just have this overwhelming sense that an angelic person comes to my side. I've actually had people as well as myself sense the weightiness of this angel, and it's like a flame of fire. It's, I can't describe. But just that way, hundreds have seen this terror kind of fire just hover over the person and I, and just drop on us. And when it does extraordinary things happen.

SID: Speaking of extraordinary things, I mean, you should have been at a meal that I recently had with James. I mean, you were telling me one thing after another. Tell me about the person with the tattoo.

JAMES: You like that one, don't you?

SID: I do. I do.

JAMES: Out in Anaheim, California there was a drug addict that had just gotten saved, just a couple of weeks, and he was so embarrassed, precious brother, because not only did he have needle marks in his arm, hundreds of them on both arms, but tattoos, and they were all demonic. I mean, they were just grotesque. And he said, "You know, I just want to serve Jesus, but I'm so embarrassed because I've been a drug addict and I have hepatitis C, and this and that, and look at these needle marks." And I just saw the hands of Jesus in a vision just put his hands on him, and

30 seconds later, all the needle marks disappeared. And, hey, that got him excited. And then I said something. I said, he's worried about the tattoos. I said, "Just watch what the Lord does. Wake up in the morning. Just watch what God does." That's how I said it. And he woke up the next morning and he was there in the bathroom, you know, brushing his teeth, and all of a sudden he felt this tingling. He said, "I felt this shaking and tingling." Then poof! And he had brand new baby skin, not one tattoo left. Hallelujah!

SID: You're looking at James and you're saying, boy that man is such a blessed man. But you don't know what that man has gone through. You see, his, he was born illegitimately. His mother's husband was in prison. He gets out of prison, recognizes that James could not be his. He was in prison, could not possibly have been his son and abuses James. He locks him in a closet. He doesn't eat. He's beaten. He's rejected. How long were you locked in that closet?

JAMES: Nine months straight and then periodically about six, seven months.

SID: Did they give you much food?

JAMES: Oh no. I'd go two and three days with no food. They would just throw a bottle of water, a little milk or a half-eaten hamburger in there, and the only time I was taken out was to be beaten and then thrown back in there. So my nose was broken several times, my eye area, ribs, fingers were broken, this and that, you know.

SID: But God had mercy and he was adopted by a wonderful family. At 15, he hears the audible voice of God and he becomes a believer in the Messiah. Nineteen, he's off to Bible college and you had a visitation. You believe it was from the Angel Gabriel. What happened?

JAMES: I was doing a lot of fasting and praying. Now that may sound real spiritual, but I was a student at Christ for the Nations in Dallas, Texas, and we didn't have a cafeteria, so I had no money, so I had no other choice but to fast. But God used it. I think it was on the fourteenth day that I had 22-minute visitation from an angelic person. I knew it was not Jesus because when I was born again, Jesus was the one that appeared to me. So there's a difference, of course. And I was given mandates and certain scriptures that I would identify my life ministry calling in the future. And it was at that time that I received just certain impartations and callings, and I didn't wait. I was 19. I just, you know, hey, I'm ready, let's go for it. And I just started stepping out as a student and God began to give me words of knowledge and wisdom, and prophetic words for students, and they were quite specific.

SID: I am in awe the gifting that you operate in. But in 40 years of the most amazing, amazing ministry, this is the single most profound experience. We'll talk about it when we come back.

SID: So James was directed to a woman. Her name, she's in Heaven now, her name is Francis Metcalf. And Francis had a group of people that would pray, that would do the most phenomenal things, I mean, visitations to Heaven, translated to other parts of the world when they would go into trances. And James, she had a face-to-face visitation from Jesus. What did he say to her?

JAMES: Well she had, Sid, many visitations from the Lord. But this particular one, now she's my spiritual mom, that group of women and men, about 70, 80, spent over 53 years, six days a week, eight, nine hours a day in high praise and worship, and intercession as a minister in my home town. And this particular visitation, Jesus spoke to her and said that there would come a time, an "end time ministry," whenever that is, whatever that means, I believe it's now, that Jesus face-to-face spoke to her and said that, "I will set apart and raise up," what he called, the Dove Company. She was a forerunning group. Her precious brothers and sisters and I were sent out from her at 19 years of age. I was a Jesus freak. I admitted I needed some changes in my life and a little bit more sanctification. She said that, "You grow and mature, you'll grow into this and you will be an extension." In other words, you will enter in to our prayers, our intercessions, our fastings, all that we've spent 50-some years. And it's interesting because a lot of the nations, Sid, that I go to, I find out in their writings that they had been there 60 years earlier.

SID: So they actually paved the way with prayers for James to come there. I told you our God is brilliant.

JAMES: Yes. Exciting move.

SID: Now tell me about the most profound, it happened a couple years ago, profound experience you've ever had.

JAMES: February of 2012, I was getting ready to go to bed. It was 1:00 in the morning, Texas time. All of a sudden, the next thing I know, I'm looking down at a map and I see the city Tashkent, Uzbekistan. I just thought I was in a visionary thing, God was going to reveal something about the community. But then I saw myself go up, I guess by course, an hour north and an hour east, near a city called, in English, Amoti [sp]. They are pronounced differently. And about 30 minutes or so, a walk 45 minutes south. I mean, the specificness of it. And all of a sudden, I'm just standing there on a dirt road and I realized, it didn't take much discernment, that I was translated there or transported, like Phillip in Acts 8, spirit, soul and body. And there had been gathered there about a thousand people that had just newly been saved, newly born again. But they were sick and afflicted, because the evangelist had just talked about salvation, by God, the greatest miracle, but did not talk about Jesus as the Messiah that could heal. So they were all waiting there to be healed. And out of all of my years of ministry, it was the most sick, diseased, infirm group of people I've ever seen, children with their limbs blown off because of mines. And I'm overwhelmed. But what overwhelmed me the most was I'm standing there thinking I'm alone, what am I supposed to do. It's in the middle of the afternoon. It's the next day, of course. And I look to my left and Jesus was standing right next to me.

SID: It's nice not to be alone.

JAMES: Yes.

SID: Especially there.

JAMES: And I'm thinking, oh thank you Jesus, you're here. But it was so amazing, Sid, because he just had this matter of fact look in his eye. And so he just went down in the crowd, and of course, I'm going to follow him.

SID: I would.

JAMES: Yeah, wouldn't you? And I just started to follow him. And he would go up to there's a man who had consumption or something, he should have been a 180-pound man, looked 90 pounds, curled up in a fetal position, was dying, was hardly able to breathe, just a lump of flesh. And Jesus looked at me and expected me to put my hands out to pray for the man. Well when I did, he entered into my body and the man saw the hands of Jesus, but they were my hands, but they were Jesus' hands. And the man was supernaturally lifted up. It was about four feet from us, no binding, loosing, didn't have to cast out, speak in, do nothing. Just the manifest presence of Jesus, lifted him up. He stood straight up and he filled out to the proper weight instantaneously, as if he never had the condition. And Jesus just a matter of fact just went to another person and another person. I followed him. And so no miracle took less than 15 seconds.

SID: Do you realize we are living in the days that what James is describing, there will be people, unknowns, people no one has ever heard of that are hungering and thirsting for this kind of reality right now, and they will be filled. When we come back I want him to describe a few of the miracles he saw there. But then I want him to tell you why this was not a pizza dream. We'll be right back.

SID: So James is translated to the former Soviet Union. He's seeing miracles like few people on Earth have ever seen. Tell me about limbs being restored, because they had all those mines and their limbs were blown off.

JAMES: What broke my heart more than, of course, all of the conditions of the people were, of course, it broke my heart, the compassion of the Lord, and you could just sense it, the Lord just touching them and going amongst them. But what really touched me were the little children. Just broke my heart because they would have a missing hand or missing leg, or foot, or whatever, because of the mines. And every single one of those children, the leg or hand did not grow out. It just appeared. It's the only way I can describe it.

SID: Now I asked James, what do you know, was it just a real vivid dream? How do you know this? Well first of all, he told me that people got reports that they remembered him and they remembered someone else with you. Who was the someone else?

JAMES: This guy that, brown hair and a beard, and he, for some strange reason wore, you know, like a tunic or, that's the way they worded it, you know.

SID: Imagine getting reports like that. But then, this is the most amazing part, when he got back, you were covered with what?

JAMES: Well let me just say this. When it was all done, they were all crying out, Yeshua! Yeshua! Yeshua! And now there's now about probably 1500, 1800, Yeshua! Yeshua! Yeshua! And he's standing right next to me. And Jesus just looks at me. It's been three hours I was ministering with them. And he's phasing in and out. They're seeing me, seeing him. That's the whole Romans 8, "manifest sons of God". And he just looked at me. It was real ironic. The Lord's got an amazing sense of humor. And he said, "Am I not Creator? Am I not God? Is there anything too hard for me?" Next thing I remember, I'm sitting on the edge of my bed in Texas and I'm looking, and all of my clothes was covered with dirt, mud, and shoes, and everything.

SID: Is there any way by your bed in Texas that you would have been there filled with mud? Any explanation?

JAMES: Not sitting on the edge of my bed with my wife there.

SID: Okay. You told me that God had something for us right now. I want you to, whatever God shows you.

JAMES: Well I tell you, I'm just going to lay it out here. There is an amazing manifest presence of God. It's very angelic. The Glory is here. It's in the audience. It's upon you, Sid. I told you that just a few minutes ago, the Glory. You know, even though we believe in Jesus, Yeshua is the centrality of everything. We believe in him as Messiah, yet he does use angelic persons to help aid in ministry of the Holy Spirit and there is just a powerful manifestation. And I'm really incredibly amazed that the one that particularly stands next to my right side when I move in visionary experience, he's here, and it's, I want to do everything in my power to keep myself from going into the crowd.

SID: But I want you, I want you to, I don't know, we may have a mutiny on our hands right now. But I want you to pray as God directs, right now.

JAMES: Holy Spirit, I just thank you for the various ways that you operate and move in the lives of your people, that this precious group, those that are watching, the millions, that there are thousands now that are being touched by the Holy Spirit right in Jesus' name, and they are being called to come up higher in the Spirit. They are called to greater visionary encounters, and dreams, and rapturous experiences. And as the Holy Spirit wills and directs, all of this scriptural. All of this is for this time. We've come to that season for such a time as this. In Jesus' name, we release that activation right now. So everyone that's watching this program, they're going to have

visions like they've never had before. They're going to have dreams like they've never had before. They're going to be called up. They're going to experience the presence of God and so are you, Sid. Hallelujah.

SID: I'll take that. How about you guys? You want to take it? How about you guys? Do you want to take it? James had a visitation to Hell, and I've heard his description of this. And I'm going to tell you, Hell is real. It so changed his life. He used a phrase, which really got to me. We have a race against time because Hell is real. Heaven is real. God is real. Jesus is real. You need reality and reality is the Messiah of Israel. Yeshua [Hebrew]. And if you right now within your heart and with your mouth you would say, I believe Jesus died for my sins. I'm so sorry. In Jesus' name give me the help to overcome them. Come inside of me. Be my Lord. Your words. Say this. Get right with God. There's a race against time.

SID: Next week on ***It's Supernatural***. Can demons cause sickness, such as cancer? And if you pray for a healing and you do not cast out the demon, maybe that's why people aren't being healed of diseases such as cancer. My guest says that when you cast the demon of cancer out, the healing begins.
