

*Is there a supernatural dimension, a world beyond the one we know? Is there life after death? Do angels exist? Can our dreams contain messages from Heaven? Can we tap into ancient secrets of the supernatural? Are healing miracles real? Sid Roth has spent over 35 years researching the strange world of the supernatural. Join Sid for this edition of **It's Supernatural**.*

**SID:** Hello. Sid Roth here. Welcome to my world where it's naturally supernatural. My guest Perry Stone has information that shows within four years, Israel will no longer be dependent on America. But I'll tell you this, America will always be dependent on Israel. I'm here with Perry Stone. And Perry, you provoke me to jealousy, exactly what the Bible says you're supposed to do, because Romans says that the job of the Gentile is to provoke the Jew to jealousy. You're just performing what the Bible says. You said to me that the information that we will be talking about and that you've been teaching on recently is without a doubt the most significant information you have released in all of studying the Scriptures, 100,000 hours.

**PERRY:** Yes.

**SID:** Tell me why you know so much at this point, rather than ten years ago.

**PERRY:** I believe very much what Daniel, chapter 12 says, that in the last days, knowledge will be increased, and that's spiritual knowledge. Daniel was even told that his book would not be totally understood. And now with the rise of fanatical Islam, with the rise of ISIS, with the rise of the idea of the Mahdi, who's supposed to come on a white horse, this is the Islamic Messiah, beheading of people, all of this is fitting into these prophecies [we] never did understand. And I believe it's a time to understand the mysteries of God and to understand those things that have been concealed for a generation. There are things concealed only for a particular generation. Someone asked me the other day, they said, "If the Rapture teaching or the coming of the Lord teaching was so prominent in Scripture, why wasn't it taught during the time of the Reformation, 1800s, 1700s?" And my answer was very simple: How can you teach on something when there's no signs being fulfilled saying it's the last days. Israel was not a nation then. Jerusalem was not the capital. The Jews were scattered across the earth. Israel was a swamp and a desert. And Israel had to be a nation, Jerusalem has to be the capitol, the Jews have to return, the land has to blossom like a rose, Israel has to fill the world like fruit. That's five of ten major prophecies that have to happen. And so when it's not—

**SID:** What is a prophecy?

**PERRY:** It's p[ ], a sign, an indicator. And so in other words—

**SID:** So all the signs are here.

**PERRY:** Yeah. Israel, Jerusalem and the Hebrew people, whether people want to believe this or not, are the indicator of the Messiah's return. And it goes back to that prophecy in Daniel, Daniel's 70 weeks. The Gentile church was grafted at the end of the 69th week with Jesus' resurrection. And there's been this Gentile body, predominantly since that time, and now the Jewish people are now being reached, which is the Romans 11 sign. And when God opens the eyes of the Jewish people, now this is in Romans 11, this shocks some people, he will eventually

close the door of the Gentile and that door will close through the Rapture of the church, coming for the church, Jesus coming for the church. Then he focuses all of his attention back to Israel. The Book of Revelation is very clear about it. The last days, that tribulation period, is one focus, not the church, not believers. It's the focus on the holy ones of Israel, the Jewish remnant, etc. It's a focus to them.

**SID:** My belief, Perry, is if you misunderstand God's plan for the Jew in Israel in the times that we're living in, you will then go into further heresy, and that could be one of the very major dividing lines between the true church and the counterfeit church.

**PERRY:** That's true.

**SID:** But you were told information that I have never heard anywhere before that in four years, Israel will no longer be dependent on America?

**PERRY:** Yeah. And let me, without giving, divulging the person, it's a very noted professor with a university who's very connected with the Knesset and Israeli leaders. And we were spending hours together, just him and I, discussing. He said, "I'm going to tell you something that's going to shock you." He said, "In four years, Israel will no longer need the United States." And I said, "You'd better explain that one to me because since 1948, we have been like an umbilical cord. We're connected." He said, "I'm going to give you the four reasons why." He said, number one is the gas fields. There's a Leviathan gas field with some gas fields that have been discovered off the Mediterranean coast, which is an Israeli territory. And what Israel is going to do eventually is turn everything over into natural gas away from oil. And we've had people in the United States talk about doing that, but they've not done it because the oil companies are so big and so much income there. So he said, with natural gas, we won't need to worry about what happens with Saudi oil or anywhere else. He said, number two, the technology. He said a lot of people have depended on the technology in California and all the technology of the U.S., the Internet and that type of thing. Israel now has geniuses working on their own technology that they won't need China, they won't need Russia and they will not need the United States for technology. They will come up with their own technology that's going to blow people's minds. They already have military technology that we don't know much about. And I said, probably the U.S. knows, but the world doesn't know. Let me just leave that one alone. But that brings me to the third one. He said, there will also come a time, and I would prefer to leave the nations out and the countries out he told me about. But he said, military equipment will soon be bought, not from the United States, but from other nations and Israel will have their own military equipment. Some of the things like lasers, laser-guided missiles, the iron dome, things of this nature, they're going to be able to come up with more advanced technology inside of Israel. Now sometimes they have to use Europe and the United States for certain parts or certain things, and bring it together. But they're going to be able to do that. The other thing that totally fascinated me is he said the Jewish people and Israel is coming up with medical breakthroughs that you will not believe.

**SID:** You know, when I heard about that, I think the world is going to flock to Israel when it takes place.

**PERRY:** The tip, hey, let me say this. They already have a treatment for diabetes. They already have, I've got to be very careful here, because this can open up a can of worms. But Alzheimer's, there is a treatment being developed for that. They have systems developed, and I had a person who was a very heavy pharmaceutical purchaser, one of our ministry partners and wins awards for pharmaceuticals. And I said, honestly, tell me the truth, does Israel, will Israel have the cures to diseases. And the person said, "Yes, but I don't know that they're going to allow them in the United States because the pharmaceutical industry makes so much money."

**SID:** So you know what?

**PERRY:** Just go to Israel.

**SID:** Perry has tours to Israel. I have tours to Israel. There will be little medical tours *of It's Supernatural*.

**PERRY:** I like that. I like that. That's good.

**SID:** So when we come back, Perry has had some very, very disturbing visions that I want him to explain. Be right back.

*We now return to It's Supernatural.*

**SID:** Perry, tell me about these most recent visions that you've had, because I don't think in terms of Perry Stone getting prophetic End Time visions. But has this been going on your whole walk in the Lord?

**PERRY:** Yeah. In 1996, I won't go into detail about this, I saw the Trade Center shrouded in black with five great tornadoes coming off of it. Our partners heard me preach this in 1999. And when the Trade Center attack happened, I knew that's what that was. I had an incident, I talked about this publicly, off the coast of Louisiana, there would be an oil rig. Something happened to an oil rig that would cause the economy to really have havoc there. And I even called a pastor in Louisiana and told him when the BP oil spill happened, it was a fulfillment of the five things I saw. The most recent one, Sid, however, deals with tsunamis. I probably, once every two weeks, I have a dream of a tsunami.

**SID:** Once every two weeks?

**PERRY:** It's getting, I don't mean this in the negative, it's getting ridiculous almost to the number of times it happens. And my wife keeps saying, "Why do you keep having these?" I said, "Honey, the only thing I can figure is the Lord is giving us a warning." The odd thing is one

appeared to have been on the west coast and the other was very strong on the east coast, which I thought was a little odd. But let me just tell you where I was and I'm not going to name the city. I'm going to ask people never to contact me and ask me. I will only release it if the Holy Spirit tells me, because it creates fear in people, and we shouldn't do that. However, we were in a, we were near water in this vision and my wife and I, and my family were together, and it was a two-story duplex. It's almost like we were staying in the area. And I saw the city. It's a very beautiful city and the dark clouds were forming above it, and I knew a storm was coming. A storm can be spiritual, it can be natural. And when I turned, I remember telling my wife, and I'm reducing parts of this to get to the point, "Something big is about to happen. We've got to get everybody into safety. Something big is about to happen." And I went over to the top story. Now I'm on the second floor. I looked through this glass window, huge, beautiful glass window, and you could see two things. You could see a very beautiful bridge and you could see water. And all of a sudden, three things happened at once. The first thing is I saw, you've seen the big interstate signs that tell you what city you're going to. This one named a city that I'll leave out. But this bridge connects to that city, because I checked it out the next day on the map, this type of bridge. And I saw a tsunami wave hit. I don't want to estimate. It could have been 50 to 70 feet high. It was the biggest thing I've ever seen. And when it came in, then I saw the bridge buckle and the bridge collapse. Now it almost looked to me as though the bridge, there was an explosion at the base of the bridge, and I couldn't figure if the tsunami was caused by some kind of sea explosion and the bridge was separate. But here's what I did see that shocked me. I saw, the only way to describe this is to talk, to say it was the Twin Towers coming up out of the water in a ghostly look, real ghostly, real stuff, not a hologram, but it was just like a ghost. That's the only way I can describe. And they came up out of the water and disappeared in the atmosphere. And this wave came in and was hitting the first and second levels of these buildings. And when I saw the Trade Center, the first thing when I woke up, I said, oh Lord, or came out of this vision, I call it a dream vision, because it's very real, very precise. The first thing I thought about was, okay, was the bridge in a terrorist attack? Did they get underneath the bridge and blow the bridge up? That was my first thought—because I saw towers—was a terrorist attack. So I'm not sure if the bridge is connected to the terrorist attack, but the tsunami was natural. But I'm telling you, it is absolutely, Sid, in one and a half [weeks], in ten days, I had three dreams of the tsunami, but they were three-dimensional, full color. You know the difference between just a dream and what I call a night dream.

**SID:** But you know, the fact you keep having these dreams—

**PERRY:** It's the same.

**SID:** This tells me that's it's going to happen in a short period of time.

**PERRY:** Yeah. And in one of them, I never will forget this, there was a solid white rock, a solid white rock. When the 9/11 attack happened and I had the vision of the towers shrouded in black, I'm running down saying, "We have to get in the rock, we have to get in the rock." The rock is Christ. And I was saying when I had the 9/11 vision in 1996. And some of the folks that follow the ministry will know that. We had pictures. I had pictures drawn of it in 1999. And you know about that. And I remember saying, twice, we have to get to the cleft of the rock, we have to hide

in the rock, which is Christ. Just a few weeks ago when I had the one tsunami dream, I was climbing into...you know what the guarded tomb looks like in Israel.

**SID:** Of course.

**PERRY:** It was this was solid rock with an opening and the water was not coming into this opening that I was into. It was passing me. But it was water everywhere. And the Lord just showed me, he said, "This is the cleft of the rock. I am the rock. I'm the foundation and all people need to understand is be hidden in me. Be hidden in my presence. Know my presence. Know how to pray. Know how to walk with me." And I would say this to anybody watching me right now, that is, the greatest thing I could say to you with the last day is what Jesus said: "Do not be afraid." Believers don't have to be afraid. The world has to be afraid. Sinners should be terrified. Okay, if I'm a sinner I would be terrified, but not the believer that knows the end of the story. But we have to be informed. We have to be informed to inform our loved ones who are not saved. I want people to know, have knowledge, be informed, not to be in darkness [unintelligible], but be aware. But you've got to fill yourself with knowledge so that you can sit down when things happen and say, look here, this was predicted. This was, God is real. God gives us prophecy to prove he's real because he foretells thousands of years in advance and then He does it, and we get to see it.

**SID:** I have to ask you this.

**PERRY:** Yeah.

**SID:** It seems as though everything is happening so quickly, the bad, the good, the ugly, everything in the Bible is, why, you call it a prophetic crunch time. Explain that.

**PERRY:** Okay. God counts time by sabbatical cycles. God counts times by covenant. And God, in fact, there's different ways God counts time. Okay. Now one of the things that begins to happen, there's a verse in Matthew 24, where Jesus says, "There will be wars, famines, pestilence and earthquakes."

**SID:** Right.

**PERRY:** The skeptic says to me, that's always been happening. Why do you get so caught up on that? It's been going on since the beginning of time almost. But in one other, same, Luke 21, Mark 13, Matthew 24, one of the writers says this: "When all these things begin to come to pass, all these things combined," now there's your clue, "never has there been a time." I was reading the other day how many wars and rumors of wars there are. More than any in history, right now, whether it's Africa, whether it's Middle East, more than any time in history as far as the whole world is concerned, the number of earthquakes have increased in intensity. And even in the United States, we're having, Connecticut is having earthquakes. Are you kidding me? Oklahoma has so many a day. Are you kidding me? These are places that you never hear, they just found out there's a two-mile fault line that runs through Irvine, California, Irvine, Texas, right there. These are places you never hear of. Okay. So in other words, when all these things begin to come

to pass at once, that's how Jesus said, "You're in the last days. That's when you need to start looking up and lifting up your head, For your redemption is drawing nigh."

**SID:** I have to tell you, when we come back after this break, Perry has uncovered information in reference to, the whole secular media is going crazy over these blood moons, feast days, and they don't even know what it means or what the significance of that is. But Perry has uncovered information that I've not heard anywhere. When we come back we're going to talk about it.

**SID:** Sid Roth here with Perry Stone. And Perry and I were discussing, could Hitler's horrible deeds that he did be ready to be repeated? Could that be? Could it be?

**PERRY:** I have had three Jewish women in their late 80s, all of them were Holocaust survivors, one was five years old when she personally met Hitler. He came out of the truck, out of his security vehicle, walked up to her, put his hand on her and said, "What a beautiful, blond-haired, blue-eyed Aryan girl." She was Jewish. She accepted the Lord. These three women said to me, on three different occasions, this has happened, Sid, the past three years, "It's 1933 all over again and America can't see it." The Nazi party took over the banking system. They took over all regulations. They regulated what you could eat. They regulated the type of table you had to have in a restaurant. They took over the healthcare system. Germany had great healthcare until Hitler socialized it. And they went through 15 things, and I can't go through all of those, of course. But they went through 15, these are women who survived the Holocaust. They went through 15 things that, Sid, it would blow your mind. All 15 are happening right now in the United States.

**SID:** And simultaneous to this, blood moons all over the map.

**PERRY:** Yeah.

**SID:** What is the area that most are not speaking about?

**PERRY:** I'm going to give you two. In the same setting of the blood moon cycle, there's going to be signs of blood, fire and pillars of smoke. I did a lot of research and found out this is volcanic eruptions. When the first blood moon happened in April 15, 2014, that day, a volcano was erupting. For the next couple months, volcanoes started erupting all over the earth. When you see the volcanic eruptions come in line with the blood moons, then we know this is not just some, another cycle of blood moons, but it actually is a sign of the end. The thing, Sid, that thrilled me, I got to get into this, that I never saw anybody tap into was the three recent blood moon cycles in 70 years. And watch how they're connected. Here we go. One was in 1949 and '50. That was after Israel was restored as a nation. One was in 1967 and '68. That was after Jerusalem was

reunited as the capital of Israel. And the next series is 2014, of course, 2015. Now watch what happens. In 1949 and '50, was the great healing revival, where most of the young men under 30 years of age, they were young men heading up this healing revival. Oral Roberts started preaching at age 30 in 1948. [name] was 17 years of age. Okay. They were young men.

**SID:** You don't think about that.

**PERRY:** Think about that right now. They were all young, all under 30, practically. Now watch this. I love it. The second wave of blood moons, '67 and '68, was the charismatic renewal. The official date of the charismatic renewal was June 19, 1967. This is what absolutely, you know, my hair is standing up right now. You have to just bear with me a minute. I feel this quickening of the spirit. What's happening in 2014-2015 in this cycle that we're in with these series of blood moons that fall on Passover and Tabernacles back to back, is the last day outpouring of the spirit on sons and daughters. Sid, we're in it right now. Just like there was a healing revival in the first cycle of blood moon, there was a charismatic renewal, this is the sons and daughters outpouring.

**SID:** What's going on with young people and you?

**PERRY:** Listen to this. I'm going to be 56 years of age. Okay. But God told me I was going to father a generation. I didn't even know what that meant. Last year, we had 4,100 young people show up at a conference. Over 500 were saved and 500 baptized in the Holy Spirit. This year, 6000, we had to cut off registration. We had to cut off—

**SID:** You mean young people are so hungry for God, just as it was prophesied.

**PERRY:** Just like that.

**SID:** They would be the sons and the daughters, that they can't fit all of them in the building.

**PERRY:** It's incredible. And it's just not with us, it's, I can name other ministries. But there's other youth ministries that are having five, six, ten, 15, 16, 20,000, 30,000 kids show up. And Sid, the great thing about is they want the move of the Holy Spirit. That's what they're craving. It's incredible.

**SID:** I'm going to tell you something, Perry. We're coming to a time these young people are going to get radically saved.

**PERRY:** Oh absolutely.

**SID:** They're going to be, for lack of better words, they're going to be normal, normal as defined by the Bible.

**PERRY:** Yes, yes. Hallelujah.

**SID:** And they're not going to tolerate lukewarm, seeker sensitive religion.

**PERRY:** No.

**SID:** They want reality.

**PERRY:** Absolutely.

**SID:** And I'll tell you what. It's not just the young people that want reality. We all want reality.

**PERRY:** Yes, yes. Amen. And you know, I saw this with my own eyes. I saw a group of young people, hundreds of them, literally rejoice and dance before the Lord, three hours without stopping, not to take a bathroom break.

**SID:** Wait. You need a one-hour service to get anyone in a congregation. Give me a break. Let the world be normal, normal according to the words of the Living God. If you don't know Jesus, get normal. Repent of your sins. Ask him to come and live inside of you and become of your life.

**PERRY:** Yes.

**SID:** May the whole world become normal.

**SID:** Next week on *It's Supernatural*. I'm going to teach tonight, revelation about the End Times from the book in the Bible that explains what is going on and what is about ready to happen in the last days. And I'm going to give you hint. It's not the Book of Revelation.
