

*On "It's Supernatural," a man with a severely injured back is struck with healing in a thrift store, another man had a tumor that completely covered one of his lungs and it supernaturally disappeared. Nothing, absolutely nothing is impossible in the invisible realm of the supernatural.*

*Do angels exist?*

*Are healing miracles real?*

*Is there life after death?*

*Can people get supernatural help from another dimension?*

*Has the future been written in advance?*

*Sid Roth had spent twenty-five years researching the strange world of the supernatural.*

*Join Sid on this edition of "It's Supernatural."*

Sid: Hello, Sid Roth here with Marc Lawson, welcome to my world where it is naturally supernatural. My guest has got the chutzpah, that's the Jewish word for nerve, to say this is the end of the church as we know it. Now Marc Lawson, there was a day that you loved drugs, and you had a cousin coming over to sell drugs, tell me about that day.

Marc: Well that is when I gave my life to the Lord, came over to do a drug deal, and he prayed for us, and he left our house about midnight and my wife and I went into our bedroom to go to sleep and we just felt so cleansed, so different and we remember laying on the bed there and holding hands and praying and we invited, we actually said Holy Spirit reveal yourself to us, we knew nothing about what that meant, except the person that shared faith with us explained some of that, and as we prayed that and held each others hands, really the power of God was just, flooded the room, the glory of God, we started shaking, we felt like the bed was shaking, we felt like a train was going right next to our window.

Sid: Now you may not be able to answer this, but I have had experiences like this, I have seen a lot of people, what is God doing to the person, any idea?

Marc: Well we felt like, the best way to describe is we were changed from the inside out, we felt like somebody took a toothbrush with Comet and just scrubbed us all inside and we felt the glory of God, the light of God, the acceptance of God.

And so the power, that whole experience was like our foundation and so the power of God and the miraculous and the supernatural has drawn us and that has been part of our life ever since.

Sid: That's been normal for you, really.

Marc: Been normal for us from the get go.

Sid: I mean when you read the Bible, that's normal. When you have experiences in most churches in the world, that's abnormal, I have had abnormal, I've had normal, I like normal a lot better.

Now you had a series of dreams and visions, what was God showing you from this series?

Marc: This was a few years back, but I had three dreams

in a row, I had a vision and three dreams to confirm it. And during these episodes the Lord was showing me that the church was about to go through a major shakedown, meltdown, and then a rebuilding.

And the first vision was like a skyline, a skyscape, but the series of dreams were, they kept saying the same thing, the church, nobody was taking responsibility in the church, everybody's responsibility to win the lost and things like this were nobody's.

And there had to be a major shift from a top down pastor-centric model to more of a biblical model where we had the apostles and the saints doing all that stuff.

Sid: So in other words rather than being just a spectator which is what most people do, they look in their synagogue or church or the mosque, they look at the back of someone's head, they become participants, of course you can't become a participant unless you are a member of the family, the family of God, and there is no other name given unto men in which we must be saved but the name of Jesus.

Marc, you have had so many amazing experiences but tell me what God has shown you, you feel the church is going to look like in the future.

Marc: I think it is going to be glorious, I think this is the greatest time to be alive, honestly, and I have been in ministry now for thirty years but I feel like I am just getting started, cause I feel like we are about to enter an age of great glory for the church, where the church will be in, the nations will be in awe of her and it is a wonderful time to be here.

Sid: Well at your church you have some unusual décor on the walls, explain that.

Marc: Well as you walk in our church to the left we have an entire wall dedicated to wheelchairs, braces, neck braces, casts. Those strap on casts, we have two hearing aids, we have diabetic equipment, syringes, the whole diabetic pack, people getting healed of diabetics and things like this, and we display it so people can see that God is alive and we have got proof.

Sid: And what I love about you is he doesn't wait for people to come in to his church, he goes out, explain.

Marc: Well a few years ago we realized if we are going, this vision I had about the church being, looking different, we realized all through the Bible Jesus was on his way to things, he was going somewhere, and most of his miracles happened it says, "and on the way, this or that happened." And so we realized that we had to be "on the way" and go out to them, they are not going to come to us, you don't catch fish on land, you have to go into the deep, you have to step out.

And so we started intentionally doing that.

Sid: And you go to football games, you go to department stores, you go into some of the worst areas in your city.

Marc: Yeah we go into the hood, we go into these trailer parks, we go into old neighborhoods, we go into where the poor are and needy are, and we also have what we call, we have these times where people go out and they just

go into malls and spread out into twos and look for people that are sick, wheelchairs, crutches, etc, to pray for them and heal the, get them healed.

Sid: Now you have an aggressiveness, you have a faith that you believe when you pray for people they are going to be healed, and it is contagious.

Marc: Yes.

Sid: Well listen it is so highly contagious I believe that you hare going to pick up this disease, it is called being normal, get ready to be normal, don't go away, we will be right back after this word.

*We'll be right back to, "It's Supernatural."*

*Are you tired of sitting in church as a spectator?  
Do you long to operate in the supernatural of God  
where miracles are commonplace?  
Are you ready to see the crippled walk, the blind see,  
limbs grow back, tumors disappear, the dead rise?  
Get ready, your time has come.  
Call now to get your copy of Marc Lawson's book,  
"It's the End of the Church as We Know It."  
and his anointed audio CD teaching,  
"Activating the Miraculous in Your Life."*

book, "It's the End of the Church as We Know It."  
and his anointed audio CD teaching,  
"Activating the Miraculous in Your Life."*

*We now return to, "It's Supernatural."*

Sid: Hello, Sid Roth here with Marc Lawson, and Marc has such bold faith that I believe that in this faith for the miraculous I believe as you listen to us it is going to be contagious.

I also believe many of you are going to be, in fact right now someone's spine was just healed, a back was just healed, are you hearing anything Marc?

Marc: There are some people with some cancer, and they feel like it is inoperable, pancreatic cancer, I think it is, and I just want them to know that the Lord is healing them right now.

The Lord wants to heal cancer, he is good, and part of the reason we do this is to prove or display the goodness of God.

Sid: Can you tell me one person you have prayed for that had cancer that God healed?

Marc: It was a Friday, I got a call from a developer friend of mine, he said, my, a man I have known for twenty years his name is Joe, his brother in law has, his entire one of his lungs is completely covered with tumor, they discovered it right before Christmas and this was around January/February, I don't know if it was this year or last year, he calls me and says it's a tragic situation, can you get somebody, one of your teams to go pray for him?

And so I prayed about it, I went and looked on their life pages on the web and on the internet, and I just looked at this man, 45 years old, five daughters, beautiful wife, his own business, been healthy every day of his life and now has got stricken with stage four cancer, and he had even gone to the Houston , done all the stuff he could do in Atlanta, he had done all the stuff he could do in Columbia, and then they sent him to Houston and they just said go home and spend time with your family.

Because they couldn't operate it was so aggressive.

I felt so burdened by that, like Jesus, he felt that compassion, I think that is a big key and I was talking to my wife about it and she said, "Why don't you go?"

This was a Saturday, like noon, she said you should go right now.

And I go it's a four-hour drive and so I got through all of that and decided to go, called Joe, and said Joe do you want to go right now and pray for your brother-in-law?

And he said yes.

In two hours we were on the road, we got there; we prayed for him for an hour, we spoke healing, and declared that he was healed in Jesus Name, just like in the Book of Acts, just like the disciples did, they didn't pray for the sick, they healed the sick, so we did that for about an hour, they're crying, they're weeping, they are so glad we just, a total stranger, I had never met this man in my life, in fact I had never met the man that drove me till we went over there and we had prayer time in the car.

That was on Saturday, by Wednesday the man felt so good he started eating immediately, but he felt so good Wednesday he woke up and said I want to go back to work, he hadn't been to work in six weeks I think.

And he hadn't eaten he was loosing three to five pounds a week, and he was just thin, he went and played nine holes of golf, he went back to work that day, Friday he went in and that Friday, which is six days after we prayed, and that Friday they said all your vital signs are perfect, they haven't been this way for six weeks, and you have gained eight pounds.

I didn't hear anything else Sid, and then two and a half weeks later, I was just thinking about it, I thought what happened to that guy?

And I get an email, and I get a phone call, they said Marc you are not going to believe this, I said I do believe it, is this the guy that we went to pray for and they go yes.

He went into the doctor, did his MRI, did all the scans, did all the x-rays, they can't find anything, they can't find a tumor, they can't find anything, it is gone.

Sid: You know something, I have got to know Marc a little bit, something that gets him even more excited than that.

He is equipping people to do the same thing he can do and what I love is, tell me about that person that goes into areas of poverty, need, knocks on doors, and starts congregations in the homes.

Marc: Well we started doing this about a year or two ago, we realized we need to go to where they are and do what

Jesus did when he went into a village, he sent people in twos into a village, said if there is a man of peace there you stay, so we would go to a home and I remember we have got a young man named Nathan in our church, he went to this new neighborhood in Marietta, very poor, very needy, a lot of gangs, a lot of drugs, went in there got this woman and her son and her daughter all healed, the woman had diabetes I believe, had a lot of drugs, had a lot of problems, they got healed in one visit, they came back the next week, the son got healed, the daughter got saved, the whole family comes back to the Lord.

Now we started meeting, we started going back and meeting and have a house church, within a few weeks they have eighteen people coming to this house church in the ladies home in the hood, and now there's two house churches in that neighborhood in less than a year.

Sid: But you have had so many creative miracles like a, tell me about the person without an eardrum.

Marc: We trained some people in Winston-Salem, and we took them out with us one afternoon, and they went out with us Sid, and we just showed them how to do it, we didn't say, it wasn't tell you it was show you, we showed them and they kept running with it, kept going back to the neighborhood we went to that first Saturday. They go to this neighborhood, we got them started a few months ago, many even six months ago, I just got an email and a phone call the other day that this man had no eardrum, they prayed for him he immediately got his hearing back, they did all kid of hearing tests, you know snapping the fingers and all that stuff, and he had not been able to hear anything, he had bad hearing in one ear, no hearing in that ear because he had no eardrum. And by the time they had left he was hearing perfectly in that ear.

They went back a week later, it's even better.

And again, these people aren't going to the doctor all the time, we are not sure if he got it verified with the test, a hearing test, but I believe he did get a hearing test.

Sid: You can tell when someone is deaf and then they can hear.

You don't have to be a rocket -

Marc: The deaf hear the blind see.

Sid: Okay, in the next segment when we come back, there are - I am hearing the word head, anything you need in the head area from the neck up you are going to be healed in Yeshua, that's Hebrew for Jesus, in Yeshua's name.

We will be right back after this word and Marc and I are going to listen to God and be obedient and you are going to have an action, in other words if I say your neck is healed, move your head you will see the pain is gone.

That's what I mean by an action; don't go away

I will be right back after these words.

*We'll be right back to, "It's Supernatural."*

*When Jesus prayed that they all may be one there were only two people groups, Jews and Gentiles.*

*God's purpose from the beginning was for all nations to become one in Yeshua, Messiah Jesus.  
To break down the middle wall of separation dividing Jew and Gentile so that the world may believe that Yeshua is the Messiah and Lord over all.  
When Jewish spiritual DNA merges with the New Covenant Christian DNA there will be what Paul called:*

*That's why Sid Roth's website is loaded with cutting edge articles and teaching about the one new man.  
Log on to [sidroth.org](http://sidroth.org) today.*

*We now return to, "It's Supernatural."*

Sid: Hello, Sid Roth here with Marc Lawson and Marc told me something during our break, we had a visitor, we had a whole slew of visitors, what did you tell me Marc?  
Marc: When you were just praying for that person and said you felt something about the head I saw an angel in my spirit, not in the natural, but I saw this angel and I felt like that angel is going to that house of that person with the problem in their head, and whoever that is, I don't know who it is, but the Lord wants to heal that. It may be brain cancer, or some kind of disease, or it could have something to do with your hearing. I am not really sure, you saw it.

Sid: What I absolutely believe is what I heard, I heard head, that means from neck up, that means anything that is wrong with you, hearing, eyesight, headaches, migraines, allergies, colds, anything, anything that is going on from the neck up it is yours in Jesus Name, and that was a healing angel that was released.

Marc, tell me about the time that you and your team went to Goodwill.

Marc: Actually, this was just my day off, I was going there with my wife to, she wanted to shop stuff for our grandkids, we have seven grandkids, and she wanted to get some stuff at this particularly, really nice Goodwill that has a lot of nice merchandise.

And it was pretty empty, and there was a man that walked in with a neck brace from here all the way down to here and it had these long things that went down his back and he was very stiff and he couldn't move his neck because like in this position he was waddling almost like a robot.

And he walks in, he walks in with this couple, I imagine they were his parents, and I was standing with my wife, I watched him walk by, and I felt like the Holy Spirit said do you want to have some fun.

Marc do you want to have some fun, check this out.

And I looked and I thought oh boy, okay.

Because I know that God is in me and he wants to, he wants to break out of all of us Sid, and heal the lost, and he wants to heal people and bless them and break that depression or remove that.

So I kind of thought it, I talked to my wife about it, she said oh by, okay well just do what you do,

and I went over to him and there were just a few little Hispanic ladies shopping for stuff next to them, and it was a mess because I walked over to him and I said sir how are you doing, my name is Marc and you don't know me but I felt like the Lord, do you mind me asking you what is going on with your neck. He said I don't mind I had an auto accident, I trashed three of my vertebrae, the discs, I have had surgery; I am in great pain right now. I said what degree of pain from zero to ten, ten being the worst, I think he said eight or nine, it was bad. Maybe eleven, it was really bad, he was in a lot of pain and I said would you mind if I pray for you. I said we have seen a number of people healed. And he said its fine, and then his parents kind of came over and they wanted to chime in, and so I said well let me pray and I said "Be healed in Jesus Name." That's all I said, and I said I release the power of God on you, and immediately his face got flush, red, and I said do you feel Sir, do you feel anything different than when we started and when we prayed? I said do you feel that pain, is that pain still there and he said no, actually I don't feel any pain, I feel really, really hot, I am on fire. And I said okay, well can I pray again? And so I said fire of God finish the healing, heal him completely and no pain in Jesus Name. And I said now what do you feel? And he said I'm just hot. And I said well you have got this brace on there; that could be it. He said I have got to take it off so he took the brace off Sid, right in front of me, dropped it to the floor in Goodwill, I said what do you feel. He said I feel incredible heat in his neck, all his head was like beet red and I said so could you do something you couldn't do before like you were just saying. And he says well I couldn't do this before, I couldn't do that before, he started moving his head like that and then he started moving his head around like this and he goes, I couldn't do that before either. I said so are you healed? Is there any pain? He goes I have no pain and I am healed. And he is moving his head around. I said could you walk? He said not without pain. I said walk, and he just took off running, walking all over the store. Then his mother the minute he walked away she walked up to me and she goes do me next. Sid: Were other people watching? Marc: Well there was this group of Hispanic ladies who got in line after this lady. Sid: Got in line? Marc: Got in line, this lady I prayed for said do me next. I said what is your deal? She said lupus. And I said be healed in Jesus Name. She fell down to the floor and then these Hispanic ladies came up and I didn't know how to speak to them so I said,

mucho fraguo, which I think means more fire,  
and they all were swooning and you could see the  
fire of God come on them and touch them.

Sid: Well you know as you are talking about  
the fire of God my face is feeling fire.

Marc: Yes, I see it, right now, I feel it.

Sid: And I believe if you start praying  
for the fire of God's healing to come on people,  
you start and I will finish.

Marc: Okay.

Well I pray if you are watching this broadcast and you  
need a touch from God and you need to experience of God  
through His healing, Lord I just release the fire of God to  
the people of God and to those that don't even know,  
maybe you are just watching this wherever you are.

You are just watching this sitting at home, the Lord wants  
to reveal his goodness to you and so I just release the fire  
of God to you right now to bring healing and light and life  
and to break depression, there are people fighting  
depression, they are sitting there addicted to drugs and  
alcohol and trying to cover the pain and the Lord is healing  
them right now, he is healing your broken heart, in fact Sid  
I especially feel there are those that have a broken heart,  
a wounded spirit, the Bible says a wounded spirit,  
who can bear, and many times we found this wounded  
spirit opens the door for all kind of sickness, so in Jesus  
Name I release healing for the wounded spirit and there  
are some of you that are going to feel immediate change.

In Jesus Name, right now, you are going to feel it.

Sid: I am telling you I am feeling the fire of God,  
Marc do you feel that?

Marc: Me too, me too.

Sid: Well I believe you can feel that too, and I believe  
when you feel the fire of God his presence is there because  
he is so close, that is why you feel that fire, he is close and  
there are angels coming from the throne of God right now  
and they keep telling me that someone's back has just been  
healed so just do as Marc has said, do exactly what that  
man did with the neck brace, just stand up and bend over.  
And then there is someone whose arm, if you will just  
bend your arm like this you will see the pain is all gone,  
there is someone whose neck is healed,  
are you hearing anything more Marc?

Marc: Yeah, that cancer.

There is somebody fighting cancer and you feel like  
cancer is a death sentence, I want to tell you cancer  
is not a death sentence because it is not over until the  
Lord says it is over and cancer is not a death sentence.  
We have seen so many healed of cancer, we prayed for  
three people in the last week that have been touched, and  
we got verification on one of them that they have been  
healed of cancer, but we are hitting this and the more you  
hit it and pray for that we have seen more success.  
Whoever has got some leukemia and you just think you  
are facing you know, a bone marrow transplant and all  
that, in Jesus Name let the fire of God come over you  
and I just pray that they will actually be able to go in

and see when you get these test is your T count will be,  
your T cell count will be perfect in Jesus Name.

Sid: And I am going to release more of that fire,  
is that okay, is that what you want?

I am going to join hands with Marc right now and say,  
"Fire, fire, fire, fire, healing."

Oh someone's eye is being healed right now, in fact I tell  
you it is your left eye is being healed and remember any  
type of migraine, any type of headache, it is gone,  
in Jesus Name, and there are so many people  
whose backs are being healed, more fire,  
more fire, more fire, more, more, more.

Marc, pray fire!

Marc: Yeah I really feel like there is also somebody with  
a spine problem, you have got degenerative discs, and the  
Lord is like touching those discs right now in Jesus Name,  
we release healing for degenerative discs, in fact  
I see somebody in one of those motorized wheelchairs and you  
have become even dependent on the wheelchair,  
in fact you thought it is a testimony of God that you could  
get that and the Lord is healing you, he wants to get you  
out of that in Jesus Name.

Sid: Make Jesus your Lord, I mean come on,  
it's fun, it really is.
