

*Through the ancient writings of the prophet Obadiah, **John McTernan** states that an earthshaking war is about to erupt resulting in the destruction of specific countries. Find out on *It's Supernatural*.*

*Can ancient secrets of the supernatural be rediscovered? Do angels exist? Is there life after death? Are healing miracles real? Can you get supernatural help from another dimension? Has the future been written in advance? Sid Roth has spent 30 years researching the strange world of the supernatural. **Join Sid on this edition of *It's Supernatural*.***

SID: Hello. **Sid Roth here.** Welcome to my world where it's naturally supernatural. I wouldn't want it any other way. Do you know if you go to your computer and look at the FEMA web page, you'll find out that the ten worst economic disasters since they've been keeping their records of FEMA, nine of the ten occurred when the United States went against Israel. Is there a correlation? Obviously there is. **My guest, John McTernan,** has been studying the Book of Obadiah, the shortest book in the Old Testament. And he says the key to End Time events is found in the Book of Obadiah. John, there was a certain day, a number of years ago you were watching TV, minding your own business, and you saw something. Tell me about it. Actually, it changed your whole destiny, your whole life.

JOHN: It did, Sid. It did. It was October of 1987, and it had to do about there was a homosexual rally in Washington. At that time, it was the largest homosexual gathering maybe in world history. And immediately after that, Sid, the week immediately following, the stock market went into convulsions. Then the following Monday was the big crash. Do you remember the crash in 1987?

SID: Right. At that time, it was one of the biggest.

JOHN: Yes. And it was six business days after that rally. And while I was watching the TV, the announcer's lip was actually quivering in fear that this would be the start of another great depression. The Lord took me back the week before to that rally, and put what was happening in front of the TV and the rally together in my mind, and I heard His voice saying that I do not fear Him, and that if I feared Him I would have humbled myself when I saw this rally and cried to Him for mercy. And He said that the Church does not fear him in America, and the country was naked and open before Him in judgment. I heard Him vividly say that. And I fell down on the floor right in front of the TV and I repented to the Lord that I did not fear Him, I did not walk in the fear of Him. And from that day to this, I've been in this ministry, Sid, of showing these correlations where God is trying to warn America we're on a collision course within.

SID: And you have found there are three areas when these occur. There are judgments that occur, such as hurricanes, such as stock market crash, things of that nature. And the three things are abortion, homosexuality, and coming against Israel. But why is it that coming against Israel, nine of ten on FEMA of the worst things to ever happen to us, connected with the worst economic things?

JOHN: Well Sid, in God's word, God specifically talks about, through the prophets, about bringing the Jewish people back in to the land because of that covenant, Sid, that God made with Abraham, Isaac and Jacob. It's a living, real covenant that's still in effect today, and that God warns in His word, He warns the nations not to interfere with that covenant, Sid. And the United States, maybe with good intentions, 'cause it started with President Bush, Sr., it continued with President Clinton, President Bush, Jr., now President Obama, we are directly interfering with the covenant and God's prophetic plan. And there are warnings in the scriptures are coming upon America now exactly according to God's word.

SID: Let's give an example. There was what was called the Madrid Peace Conference in Madrid, Spain, and when that meeting convened, and that was a meeting to divide the Land of Israel.

JOHN: Yes.

SID: When that meeting convened, what happened?

JOHN: Well Sid, I guess I'm going to show you right here. Here's proof from the New York Times. While President Bush, I'll say President Bush, Sr., not to confuse your listeners here, viewers, while he was standing up initiating the Madrid peace process, while he was speaking what's called the Perfect Storm, and you may remember the Perfect Storm, Sid. There was a movie made about it. There was a best selling book.

SID: Yes. Of course.

JOHN: And it was bizarre weather patterns that only occur once every couple hundred years, came together in the North Atlantic and sent a hurricane the wrong way. And the hurricane, whoever hears of a hurricane in the North Atlantic in late October forming? Instead of coming from the southwest to northeast, this came from the northeast to the southwest, and came all the ways down the coast of the United States. But while the President was speaking, the storm sent 30-foot waves against his home in Kennebunkport, Maine. And what I just gave you is the New York Times article showing his home was destroyed. Now what it doesn't say is that it was destroyed while he was in Madrid speaking, but the date is the same date. And you can see.

SID: Now how many of these events have you found where the United States goes against Israel and then there's a horrible economic catastrophe?

JOHN: Sid, rough number, 50 to 60 now. But they're the major ones.

SID: I mean, within 24 hours, this judgment occurs. Okay. There was a second Madrid Peace Conference that was in the United States. What happened?

JOHN: Well what happened, Sid, was a year later, the Madrid peace process was transferred from Madrid, Spain to the United States to meet on American soil. And what I have here, Sid, is a picture of-- This is not a picture, Sid. This is the actual newspaper article where I was sort of alerted that America was under judgment. Now Sid, this is the USA Today. Notice the headlines.

SID: "One Million Flee Andrew." I mean, that was some hurricane.

JOHN: Right. Right. That was a Category 5. There's only been three Category 5's hit the United States. This was a Category 5. And notice that the whole page is full about the disaster of Hurricane Andrew.

SID: Right.

JOHN: But now look over here, Sid.

SID: "Mideast Peace Talks to Resume on Positive Note."

JOHN: Yeah.

SID: And again, these were talks to divide the Land of Israel.

JOHN: The Land of Israel, Sid.

SID: And in Joel, Chapter 3, it says, “In the last days the nations will be judged for one sin.” You know what that one sin is? I quote, “Dividing the Land of Israel.” Be right back after this word.
We’ll be right back to It’s Supernatural.

We now return to It’s Supernatural.

SID: Hello. **Sid Roth here with John McTernan.** And John has been entrusted with a key to the End Times. He has found revelations like I have never heard before, in the Book of Obadiah. But there is one verse in Obadiah, John, that is key to End Times, Obadiah 1:15.

JOHN: Obadiah 1:15, Sid, is very important. It says, “The day of the Lord has come upon all the heathen. And as thou has done to Israel,” and I’m adding Israel, but it says, “As thou has done shall be done unto thee. Thy reward shall be upon thine own head.” So it makes it crystal clear, Sid, as God’s prophetic plan is unfolding, Israel is the key. And if you bless Israel, now this is individuals and nations, if you bless Israel and the Jewish people and line up with God’s prophetic plan, God will bless you. If you don’t, Sid, there a severe curse on you.

SID: And I find it so amazing that a number of times you have documented that this curse comes every time the United States goes against Israel. For instance, President Clinton, when he had the affair with Lewinsky, tell me about that.

JOHN: Well Sid, this is real interesting, because when President, excuse me, Prime Minister Netanyahu was coming, President Clinton was putting enormous pressure on him to divide the land, and there was talk in Israel about Netanyahu’s government falling if he went along with Clinton’s plan. So Netanyahu comes here. He meets with President Clinton. The president didn’t even go to lunch with him, nor did the Secretary of State.

SID: I remember they really snubbed him.

JOHN: They really snubbed him. The next meeting was with Yasser Arafat. Clinton was supposed to meet with Yasser Arafat. Yasser Arafat was literally waiting to meet with Clinton when the Lewinsky scandal broke. And the president’s government, his term in office was in danger. And we know that he eventually was impeached, although the Senate did not remove him. So exactly what was going to happen to Netanyahu and the Israeli government happened to Clinton and his government at the exact time. Side: Now a number of these, of course we have this information from FEMA, the worse economic disasters occurred when the United States went against Israel. But kind of bring it up to date. Give me something that happened recently.

JOHN: Well Sid, I want you to think back when President Obama began to initiate diplomatic relations with Israel after he was inaugurated. What was one of the things he did? But he made a linkage between Israel creating a Palestinian state and dealing with Iran’s nuclear weapons. Do you remember that, Sid?

SID: Yes.

JOHN: He drew this direct linkage. Now Sid, I’m gonna jog your memory here. Do you remember North Korea shooting underground nuclear weapons off?

SID: Of course.

JOHN: And shooting weapons, and shooting missiles, and threatening nuclear war with the United States. Sid, this was happening at the exact time President Obama was making this linkage with Israel with creating a Palestinian state or the United States wasn't going to deal with Iran's nuclear weapons, which would put Israel under danger of a nuclear war with Iran. Correct?

SID: Yes.

JOHN: At the very same time, North Korea is shooting off nuclear bombs and threatening nuclear war with us, Sid, so happening simultaneously.

SID: Now the last few administrations have been pushing towards a two-state solution in Israel. President Obama appears to be pushing for it, too. Is there any difference between the way he's pushing for it and the previous ones?

JOHN: Yes. President Bush was more, shall we say, soft-gloved about it. He was more, we want this, but there was no like direct arm-twisting of Israel. President Obama has come out with an iron fist and is treating Israel more as an adversary than an ally. It's extremely dangerous, Sid. It's extremely dangerous.

SID: Now if he continues this course, what is the spirit of God telling you about America?

JOHN: Obadiah says that if you try and divide the Land of Israel, if you try and divide Jerusalem, Sid, exactly what you're doing to Israel is going to come upon us. And Sid, there could be a political division here or a literal, physical division through natural disasters and things. But it will happen. If President Obama continues this course, what he's doing with Israel, the integrity of the United States is at stake, Sid.

SID: Now there are many Bible believers that get confused on Armageddon and the war that's before Armageddon. They've merged them all together. Obadiah makes this very clear about a war.

JOHN: It does, Sid. Obadiah is 21 verses of actual power-packed information. And when you look at Obadiah, and again, I go into great detail.

SID: I know. You literally, he literally will show you what nations will be around, what nations are going to be nuked, where these ancient--Most people read these words and they don't know who these nations are and who the people are. And Obadiah makes it clear.

JOHN: It does, Sid. It does. And Obadiah makes it clear that when Israel is a nation again. So the context is the Day of the Lord, and the Day of the Lord is when Israel is a nation again, and just before the Second Coming of the Lord Jesus Christ, which I believe we're heading towards, that Israel is going to be a nation. And it said that there are going to be a "flame of fires," Sid. In other words, "and devour roundabout." And there's an all out war coming between the House of Joseph and Jacob, and the House of Esau, which are the Palestinians. And none of the Palestinians are going to survive, Sid. None. And that's because they violated Obadiah 1:15. They have tried to destroy Israel. They've tried to wipe Israel off the map. They've tried to destroy all the Jews off the land. At some point, Sid, that's what going to happen to the Palestinians.

SID: Why in the world were you so interested in Obadiah? Most people skip that book. And all of the keys to the End Times are there.

JOHN: It is, Sid. Those words, "The Day of the Lord," that's what drew me to Obadiah.

SID: Okay. For those that don't know, what is the Day of the Lord?

JOHN: The Day of the Lord, Sid, is the time before the Second Coming of the Lord Jesus Christ, when God recalls the nation of Israel back into existence, which we have now, and then all the world is going to come. And the classic we think of is Armageddon against Israel.

SID: I'll tell you what, I want to find out some of the nations that are going to be nuked. I know you're not going away. We'll be right back.

We'll be right back to It's Supernatural.

We now return to It's Supernatural.

SID: Hello. **Sid Roth here with John McTernan.** Fascinating. The shortest book in the Old Testament, Obadiah, has the key to End Times. By looking at Obadiah and then looking at Ezekiel 38-39, you can tell what's going to happen to certain nations. Explain.

JOHN: Sid, Obadiah is the key. I call it "Obadiah's War." And I also tie it in with like Psalm 83. But in Obadiah, it talks about an all out war coming, which we previously mentioned, between Israel and the Palestinians. Obadiah describes Israel as a flame of fire and the Palestinians as kindle wood, and they're going to burn in them. And it says, "None are going to be left on the land." But it doesn't end there, Sid. It talks about the Plain of the Philistines being under Israel's control. That's Gaza, Sid. And you know what's going on in Gaza right now. It talks about Gilead. Now these names, when you read the Plain of the Philistines, most people, well what's what? But modern times, that's Gaza. And you read Gilead. Well what's Gilead? Gilead is the east bank of the Jordan. It's Jordan, Sid. That is, Obadiah clearly says that Gilead is going to become a part of greater Israel. Then it talks about Ephraim and Samaria. That is the West Bank, Sid, the mountains of Israel. That is all a part of greater Israel, as it approaches the Day of the Lord.

SID: What's going to happen to the West Bank, according to Obadiah?

JOHN: It's going to be united in one country with Israel. It's not going to be a Palestinian state.

SID: Now you said to me that if the United States divides Israel, God will divide the United States. Explain

JOHN: Well Sid, that's that principle under Obadiah that what you do to Israel will be done to you. So if the United States, through President Obama, starts to, because there's a danger that he may unilaterally recognize a Palestinian state and force the issue. That could very well literally happen here, Sid. In the center of the United States, there's a massive fault called the New Madrid fault, and it ruptured in 1811 and 1812. It was the greatest prophet earthquake.

SID: Well isn't it interesting that you're the one that first pointed it out to me. That it was the Madrid Peace Conference--

JOHN: Right.

SID: --which was to divide the land of Israel.

JOHN: Yes, Sid.

SID: And we showed you the pictures of first President Bush's home being just devastated by those waves, and now today, we have this new, it's called, it's spelled the same, as a matter of fact.

JOHN: It's spelled the same, Sid.

SID: New Madrid fault. And so what does FEMA say about this?

JOHN: Well Sid, it has the potential of literally like ripping right through the center of the country. It will be the greatest disaster ever to hit America. It would ruin everything. It would level from Memphis all the ways up to St. Louis and over to Cincinnati. It's a massive fault. It ruptured in 1811. Actually, there were three massive earthquakes that occurred over a two-month period of time. It sent the Mississippi running backwards, Sid. It rang church bells in Pennsylvania, and it was felt in New Orleans and in Charleston, and in central Pennsylvania. That's how massive this fault is.

SID: How many square miles did this originally affect?

JOHN: I don't know. But it affected like, you know, east, from Arkansas, Tennessee, northern Alabama, Mississippi, Missouri, Southern Illinois it would affect, up into Ohio, Kentucky. Sid, it's just an awesome, and it sits right in the middle of the United States, and it's the New Madrid, you know.

SID: Will it happen soon?

JOHN: Sid, there is speculation that it could happen, you know, very soon, because this ruptures periodically and it's overdue.

SID: And you know, John told me something else that is so fascinating. That the blessings on the United States really come from our forefathers' love for Israel. Tell me about, was it George Washington?

JOHN: George Washington. Sid, George Washington, in his writings, literally linked the creation of the United States with the God of Israel who delivered the children of Israel from Egypt. He made a direct link. And then he said, "Blessed is that people whose God is the Lord." And George Washington, in his writings, specifically said that the God of Israel was the God of the United States, and He is the one that created the United States, just as He created Israel and took the children of Israel through the Red Sea and created them from Egypt.

SID: And how soon do you see this war that Obadiah speaks of occurring?

JOHN: Sid, it's right on top of us. Because you look at what's going on in Iran, with Iran on this rush to build nuclear weapons. They are forcing Israel's hands, Sid. Israel cannot wait until Iran develops nuclear weapons. So with Hamas in the Plain of the Philistines, with his block to the north, with Syria, who is a vicious enemy of Israel, and Iran building nuclear weapons, Sid, Israel's hand is forced. And I believe once Israel attacks Iran, it's going to set off a chain of events that will lead to what Obadiah has written about.

SID: Obadiah 1-15, "As you have done unto Israel, God will do unto you." And when is that really going to come into play? It's been the whole history since Israel. But the significant point is just before the Day of the Lord there will be devastation if we divide the Land of Israel. I believe what FEMA is talking about, of this Madrid fault, it's about ready to happen. But here's the good news. As you have done to Israel, God will do to you. You could be in the midst of judgment. I mean, this fault, John, has going

through so many states. When the earthquake finally hits you could be living right in the center of that fault, and no weapon formed against you can prosper. I believe that Obadiah 1:15, coupled with Genesis 12:3, John--

JOHN: Yes, Sid, very good combination.

SID: God says, "I, God, will bless those who bless the Jewish people, and I, God, will curse those who curse them." It's the same verse, really, Genesis 12:3 and Obadiah 1:15. So you can be in perfect peace as you are a blessing to the Jewish people, as you are a blessing to the Land of Israel. And I want you to know that I believe in helping Jewish people get to Israel. I believe in humanitarian efforts. And God will bless you for those things. But there's a blessing that's so far beyond that. It says, "He who wins souls is wise." What is the greatest blessing you can give anyone, Jewish person or gentile person? Not religion. We're Jewish people. We have a corner in the market on religion. Intimacy with God. God is saying, "I am your friend." You know, John, you know if there's ever been a time, if there's ever been a time for you to pour your heart out to God and tell Him you're sorry for your sins and you want to know Him through Jesus, it's now. There's only one name that you can know God, through Jesus the Messiah, the King of the Jews.
