**SID:** My guest prayed for a man who was dead, dead, dead. I mean, in a morgue, 23 hours, frozen in a freezer, and he came back life.

*Is there a supernatural dimension, a world beyond the one we know? Is there life after death? Do angels exist? Can our dreams contain messages from Heaven? Can we tap into ancient secrets of the supernatural? Are healing miracles real? Sid Roth has spent over 35 years researching the strange world of the supernatural. Join Sid for this edition of **It's Supernatural**.*

**SID:** Hello. Sid Roth here. Welcome to my world where it's naturally supernatural. I'm so excited about my guest mentoring you because he is going to take you to a whole new level, a whole new realm. And the reason he is going to do that is he has been called by the audible voice of God to do this. Guillermo Maldonado, tell me about that day that you heard the audible voice of God.

**GUILLERMO:** Well I was called into the ministry, Sid. And one day I was praying my praying time with God, and suddenly the presence of God came upon my room and I heard the audible voice of God in my room saying, "I have called you to bring my supernatural power to this generation." And I stayed there for two hours laying down on the floor. And then suddenly I heard the voice inside of me, and the words said, "The voice you heard, audible voice, was my angel proclaiming your call, and inside of you I spoke to you directly." So since that moment, Sid, I have taught, trained and equipped thousands of people around 50 countries. And the Lord called me to pastor in Miami 15 years ago. Our church now has become the largest Hispanic church in America. And two years ago, the Lord called me to be a multicultural church. As a result we have 56 nations represented from all over the places, and also they've been trained to do miracle signs and wonders. Just to give you an example, one of my pastors in 30 countries, we got churches in 30 countries, one of my pastors from Mexico, he had 300 people, and because of the miracles, signs and wonders, now seven years later, the church has 9000 people. So it has been that way. Miracles, whatever I do, I train them to do.

**SID:** And that's what I love about him. You see, anyone can read a book on faith or healing and teach it. But it's another thing to teach based on the call with God. I can tell you that when I sit under his teaching I literally almost tremble with the presence of the Holy Spirit. What about young people? Tell me what's going on with the young people?

**GUILLERMO:** Young people, the word that I use, and I will use this word very carefully, is "revolution". I can tell you they go to bars, they go to malls, they're there for two, three hours, people waiting on land, in the malls of Miami, waiting to pray or prophesy over them. Bones are growing. I mean, you're talking about something crazy. Not only in Miami, but also outside. I just came back from Venezuela, for example. This person, this mother heard my teaching on the supernatural and her daughter died in the hospital. And she said, "I'm going to apply what you taught." The doctor said, "Woman, your daughter is dead, so don't come to the hospital." She

said, "Please wait for me." The doctor said, "We're not going to wait. They disconnected her from the instruments. And then she went, and they put her in the morgue, in that cold place. And she prayed for an hour. An hour later, she came back with her daughter who came back to life. She testified as a result of this.

**SID:** This happens a lot to people that you train. Get this, he trains people and they started doing the same thing, praying for the dead. I mean, you read this in the Bible. But how in the world when you're going to read someone from another religion or an atheist, unless you do the same works that Jesus did, and he says you'll even do greater works than these. Now when I hear the term "replacement theology", I immediately think in terms of the replacement of Israel in any way, shape or fashion, such as the church might say, "We're the new Israel and the Jewish people have the curses, and the church has the blessings." And that is, I'm going to use a Yiddish word, "mashuga". That is crazy. Have you ever read Romans 11? "The gifts and calling of God are without repentance." Which means God doesn't change His mind, which means if God doesn't change His mind with the Jewish people and the nation of Israel for, let's say, disobedience, that means he's not going to change His mind with Christians for, let's say, disobedience. I'm so glad we can rely on the love of God, the goodness of God. But that's what I hear when someone says "replacement theology". But as I have studied some of the teaching of Dr. Guillermo Maldonado, I have found that there is a lot of other areas that have been replaced. Tell me a few areas.

**GUILLERMO:** Yes. You touched on such an essential point. I believe some of the reasons why the church has lost the power is because you cannot change the church for Israel thinking that you're going to move in the supernatural, because it's about the former glory and the latter glory. In other words, to move in the latter glory you need to recognize that Israel, God has not forgotten Israel. And there's so many replacements, I called substitutes, of the supernatural. Sid, we have replaced entertainment for worship. Let me put it this way. Entertainment has replaced worship. Theology has replaced revelation. What do you mean by that? Do I believe in theology? Do you believe in the doctrine? Of course we do. But the thing is those theologies take you to remove the supernatural. The supernatural has become an event in churches. Somebody from outside has to come instead of training people like Jesus said. In the Book of Acts, you see 28 chapters. In each chapter you see one supernatural event. So because of that theology replaced revelation, because entertainment has replaced worship. And there are so many replacements. For examples, the apostles and prophets have been replaced by Jezebel, good administrators. You got good administrators in church. But in reality, we need the two ministers that bring the supernatural. And when I'm saying "bring," not the only one that can do it. They can train, teach others to do exactly the same.

**SID:** You know, the devil can pick off a superstar, say, that has their own television show. But what if there really isn't a lot of superstars? What if there's only one superstar, the Jew, Jesus, and we start, everyone in the congregation starts doing what Jesus would do, and you'd see how the devil would go. I already taught you this word previously. It's a Hebrew word. It's "mashuga". It's crazy. I mean, the devil will go mashuga. Don't go away. I want you to hear about the creative miracles are happening when Dr. Maldonado prays for people and the people under him pray based on his teaching. Don't go away.

*We now return to **It's Supernatural**.*

**SID:** Hello. Sid Roth here with Dr. Guillermo Maldonado. And I love miracles. I love creative miracles. For instance, what if someone perhaps has cancer and to get rid of the cancer, a woman, they would take a breast off, remove the breast. What if that woman believed God, that she would get a new breast? Can I stretch your faith a little bit right now? Guillermo, tell me.

**GUILLERMO:** It was in Mexico. I went and I remember when I was praying in my room, the Lord spoke to me and He said, "My creative power will be there tonight." He said, "There's someone without breasts that I will create a new breast." So this woman came into the meeting. I called out the woman. She never came in to testify, to say anything. So I came back to Miami. And then I said, I know I heard God. Well, my spiritual son, one of my pastors in Mexico, called me on Monday. It was on the weekend. And then he said, "Pastor, I just want to tell you this woman came in to testify. When she went to the room, she felt something was growing. And when she was removing her bra, she saw the breasts coming back, brand new breasts."

**SID:** Out of curiosity, is there anything that you feel God cannot do? Is there any problem that you say, oh no, my God is not so big to do?

**GUILLERMO:** There's nothing impossible for God. But Sid, there's the biggest problem in the western countries.

**SID:** What's that?

**GUILLERMO:** Intellectualism. In other words, our reality...

**SID:** Tell me. I am a logical, methodical type of person, and my greatest asset is my greatest liability in the spirit. I know that.

**GUILLERMO:** Okay. Did you know, Sid, that your reality, most of the people, their reality is based on education and based on reason and logic. I've never seen in the scripture logic, common sense, reason produce a miracle. Never. There has to be faith involved. The question, is anything impossible for God? Nothing. God can do anything. This pastor in L.A., I'm ministering and the presence of God, came, like now I'm feeling the presence of God.

**SID:** Me, too.

**GUILLERMO:** The presence of God came upon the meeting. And this man, he used to fight against miracles, the supernatural. He said, "Those people, they're inventing things and they're lying. They fall on the floor." There's so many things. In other words, he came to attack the service, 21 years attacking the supernatural, miracles, signs and wonders. And suddenly the presence came, and for some reason, the polio ate one of his legs, and he didn't have flesh, tissues. He only had skin and bone. And this is what he said to me. "Pastor," he said, "my leg was this thick, three fingers of my hand, only skin and bones." And then he said, "When the presence of God came, I feel the presence now," he said, "I felt something was filling my pants. And I felt something was growing in my right leg." And then he said, "Suddenly up to the knee I saw and I had all my leg full of flesh and tissue." And then he said, "Lord, please finish it," because it was the whole leg. Because the polio, when he was eight years old, at the whole thing. So suddenly, God filled with flesh and bones, and tissues a new leg.

**SID:** Okay. But this man came as a skeptic. What did he say?

**GUILLERMO:** He repented. He was crying. He said, "I was preaching against miracles," and then he said, "and now I'm going to pray for people for miracles." And this is what happens when revelation comes, when knowledge comes, and when I say revelation, from the Holy Spirit, it will activate the people to do what we do. And this was the problem in the past. In the '40s and the '50s we got great men of God that came to this nation, the great healing movement, and they did not have the respect that I have for them. And I still love them and I admire them. They didn't have the revelation that what they had, they needed to be transferred to the new generation stronger and to move in the power of God. So they thought what they had, it was only for them to do. No. That's not what the scripture said. The scripture said that what we have we can impart it to others, and other people can do exactly what we do. For example, this guy in Uruguay, he got one of my teachings and he saw the miracles. And he goes, "I can do those miracles, too." And his uncle died in the hospital. So he went to the hospital, told the doctors, "I'm going to pray for my uncle." And the doctor said, "Man, you're crazy." But he said, "No, let me apply what I saw in the teaching." He prayed for the uncle. His uncle came back to life. That's what I'm saying. When there's revelation in the teaching, and not only teaching, it just is an impartation from the Holy Spirit, something will happen.

**SID:** Okay. You have told us about a woman growing a breast that had none. That is outrageous. What about someone that grows, that is short and grows. Tell me one case.

**GUILLERMO:** I was ministering in Argentina. The presence of God came into the place. When I say the presence of God, many people don't understand the glory of God is the manifest of presence of God. And I was there, and suddenly that atmosphere of Heaven came to Earth. There's many people watching and saying, is the Kingdom of God, is the presence of God, is the glory of God, is the power of God only a theological concept or something that we can demonstrate or receive here, or experience here and now? And I can answer to you, more than 20 years ministering miracles, signs and wonders is something that we can experience it here and now. This man, the presence came upon the place and suddenly this little guy, boy came into the stage crying because he was kind of crippled in his arms. And then he said, "I've been healed." But I saw him short and I saw there was something weird in him in his height. And the Lord said to me, "Declare over him that he will grow the next three days." And to me, logic was crazy. I

said, "What am I doing? Growing?" I had never seen that before. But I learned something, Sid, that you don't move in the supernatural with your reason. You have to remove your head out of the way. You have to move your reason out of the way and let the Holy Spirit take control of you and minister the power of God. So I said, "I declare that in the next three days you will grow." Well, he left. He said, "I have no feeling in my arms." I didn't know what happened. Three days later, his pastor called me. I spoke to him. His pastor is a doctor. And then he said, "You're not going to know about Mathia." And I said, "What happened?" He goes, "He grew, the first day he grew two inches, three inches. At the end of six days, three days, something, he was like six inches." And then this is what he said, Sid. And I spoke to him two months ago. He said, "He keeps growing." And he said, "It was a sickness that people receive one in a million." Then he said, "I am a doctor and I can tell you," he said, "he had to change all his clothes."

**SID:** Speaking of changing all of his clothes, how about supernatural weight loss? How about Jesus gave Guillermo a revelation of how to get rid of cancer? God hates cancer. Cancer does not come from God. And I'm going to ask him to share that with you. Don't go away.

*We now return to **It's Supernatural**.*

**SID:** Hello. Sid Roth here with Dr. Guillermo Maldonado. And I don't about you, but I am overwhelmed with the presence of God. Supernatural weight loss. Tell me one case.

**GUILLERMO:** I was ministering in Boca Raton, in Florida, and I was ministering to pastors. This pastor weighed 250 pounds. Suddenly the presence of God came. I left. I didn't pray for people. Just the presence came. And then two months later he came back to testify to my church. He said, "Remember when you were ministering?" I said, "What happened." He goes, "When was taking a shower I felt something had happened and I checked, and I was size 48 pants." And then he said, "I remember I used to have pants 38. So I went back and tried the 38." He lost 10 sizes in three days.

**SID:** That is so phenomenal. But even more phenomenal is what about there is someone in the morgue, according to my notes, 23 hours, frozen in a morgue. What happened to that person?

**GUILLERMO:** Well the Lord had spoken to me before I went to this country, and He said, "I want you to release the power of the resurrection." So when I was in the church, in that particular moment, I heard the Lord say, "This is the power you release the resurrection." I released it and then in the same moment, that person that was in the morgue came back to life. It was a moment when I was declaring and it was the right time. And the moment that I said it, that's what happened.

**SID:** Cancer. Some of you have cancer. Many of you have relatives that have cancer. Jesus gave a revelation for Dr. Maldonado of what cancer is and what to do about it. Would you explain?

**GUILLERMO:** I was praying one day, Sid, and this is what the Lord said to me. He said, "I am angry against the spirit of cancer." So I know what the Lord was saying.

**SID:** So it's a spirit.

**GUILLERMO:** It's a spirit. In other words, when I have trained people and when I've done it myself, I have found, Sid, two things. Sometimes I have prayed for those people before and two years later the cancer came back. So the Lord said, "I want you to curse the seed and the root of it and command the spirit of death to come out from people." In other words, I have seen hundreds and hundreds, and hundreds of people being healed of cancer. And right now I feel there are people watching me with family members with cancer. I will release that anointing, and I don't know where you're watching me now. You're not watching me by chance. I know the Holy Spirit will touch your life. So let me pray for you. Father, I thank you. I give you praise and I give you honor. Thank you. If you're watching now I want you to lay hands on your chest, on your body, wherever you feel the pain. Let me release the power of that. Father, I rebuke the spirit of death. I rebuke the spirit of cancer. I curse it from the seed and from the root right now. Come out in Jesus' name. There is a woman. Your name is Isabelle. Isabelle, something has happened. I think you got cancer in your breast. Something is happening now. And I pray for those women that you lost your breast because of cancer, and I pray for creative miracles now for that breast to come back like Jesus created from the beginning. Now, receive it now in Jesus' name. There is people right now, I feel, Sid, there's people that have been paralysis, with paralysis. I can see someone in Israel watching. You've been in paralysis for three years. You're a man and something is happening to you. I command the spirit of sickness go. Blindness, go. Deafness, go in Jesus' name. My God, I feel the presence of God all over and I see those people that now have chest problems, back conditions, this back condition being healed now in Jesus' name.

**SID:** I want you to see the presence of God and the revelation of Pastor Maldonado's teaching. Would you give us a few nuggets about walking in the supernatural.

**GUILLERMO:** Okay. Any demonstration, any manifestation without the knowledge behind it will not stay in your spirit. So it is important for people to receive it. Number one, you need to disconnect your reason. I think reason has its place. But in the supernatural you need to walk with the mind of the Holy Spirit. Disconnect the reason. Don't analyze it. Faith is to believe God beyond reason. Number two, I think you need to take a risk. When you get into the supernatural you need to take a risk. When I say take a risk, go beyond what your mind is telling you, your reason, and act on it. And number three, I would say revelation. Without revelation, in Hebrew, it's someone that is Hebrew, they know and understand, they expect a prophet to move in the supernatural because of the revelation they have behind it. In other words, the revelation of God is what will produce the manifestation in us. And for that you need to be open and ready to receive it from the Holy Spirit.

**SID:** One of the keys that you've taught me is worship. How important is worship in your life? How important is that?

**GUILLERMO:** Okay. For example, worship is a transfer of presence. The presence of God cannot be stirred up, cannot be manipulated, cannot be controlled. It has to be attracted. And worship attracts the presence. So in my own life, if I pray two hours, one hour will be just for worship.

**SID:** And when you worship do you usually have music. Do you pray?

**GUILLERMO:** I have music. But most of the time is when I worship in the spirit.

**SID:** But how do you do it for that length of time?

**GUILLERMO:** Worship is defined as this. You only worship and truly worship in God when you're not conscious of yourself any more.

**SID:** How do you get to that point?

**GUILLERMO:** That's the Holy Spirit. That's the help of the Holy Spirit. You invite the Holy Spirit to get into it. In other words, if you're still conscious of thinking of food, and this and this, it will be very hard for you to get into that. In other words, you have to transcend yourself to get into the worship. And it's the Holy Spirit. When you invite the Holy Spirit to tell you, help me to worship the Father and that particular moment is like you get lost.

**SID:** Are you ready to get lost in worship? Before you get lost make sure Jesus is your Messiah and Lord. I mean, he's coming back soon. Your sins will be forgiven if you repent. Repent means tell God you're sorry. Believe those sins went on Jesus when he was crucified for you, and by his blood they're all washed away. Make Jesus your Lord right now.
