

[music]

**SID:** My guest moves in every miracle you read about in the Bible, and thousands of those who learn his secrets do it, too.

*Is there a supernatural dimension, a world beyond the one we know? Is there life after death? Do angels exist? Can our dreams contain messages from Heaven? Can we tap into ancient secrets of the supernatural? Are healing miracles real? Sid Roth has spent over 35 years researching the strange world of the supernatural. Join Sid for this edition of **It's Supernatural**.*

**SID:** Hello. Sid Roth here. Welcome to my world where it's naturally supernatural. My guest, Dr. Guillermo Maldonado, says that 80 percent of people that have illnesses, based on his experience, are set free when demons are cast out of them. And as a matter of fact, a Jewish rabbi by the name of Jesus, a third of his ministry was casting demons out of people. Dr. Maldonado, the question that a lot of people ask is, how could a believer in Jesus that has Jesus living inside of them, their sins are forgiven, how could they possibly have a demon?

**GUILLERMO:** Believers can have anything they want. But if you give the theological answer behind it, the Bible says, "Do not give place to the enemy." Knowing that we can open the door for the enemy, legal right, that's what I call the legal right. And Sid, there's something important about deliverance, and I want people to know this. Jesus said he was preaching, teaching, healing and casting out demons. So if you saw those four, we see that 25 percent of this ministry was dedicated to deliverance ministry. So today we preach and teach, but we don't cast out demons. So did you know the Kingdom of God, that's what the Bible calls the Gospel of the Kingdom, if you remove the kingdom you remove deliverance out of it. You remove the supernatural out of it. So what we have now is a gospel of [unintelligible], not a gospel of the Kingdom. So why? Because we have replaced, counseling has replaced deliverance. And I do believe in counseling. I do it as pastor of 15,000 people in Miami. I do it. But do you want to deal with the roots or you want to do it with the branches? If you want to deal with the branches you would never be able to free the people. So answering the question, 80 percent of the sickness, I've been in ministry deliverance and healing. As a matter of fact, the church is a result of it. There was a moment the church, 200 people, I reached to 200 people and the church never grew. And the Lord said, the reason it's not growing is because you need to cleanse the leadership first. So I didn't understand what the Lord was saying. And answering the question, He said, there's a difference between demonized and being possessed. Possession has to do with ownership. Demonize means that there's an area in your life that is influenced by the enemy. It can be a generational curse. It can be something that for some reason you have given the devil a legal right to attack your body.

**SID:** And you may not even know the reason. I like to say to people that say a Christian can't have a demon, I'll say, can a Christian be sick? Of course. So it's not a matter of possession. It's a matter of oppression, and you can get rid of it. That's the good news. But there have been two of the greatest revivals in modern day history. Both happened in Latin America. And the thing that I find fascinating is they both understood deliverance. As a matter of fact, in one city they actually started out by praying for drunk people. Tell me about that.

**GUILLERMO:** This is a place called Almolonga, Guatemala, and that's exactly what happened. There's a pastor who went and prayed against the spiritual ruler of the city. And from that point, the Lord lead him to do that. After he prayed the whole city became Christians. Four hundred drunkards, alcoholics became Christian. They closed bars. They closed prisons because they understood deliverance. And today, we have removed from the churches. And that's the reason, Sid, we can have people counseling people for hours and hours. If you don't know it, you're counseling demons because the medicine that you are applying is not the right medicine. That's what I'm trying to say.

**SID:** Speaking of medicine, have you read and seen, well you're a pastor. You know how many young kids are being drugged because of depression, and it's getting younger and younger. And then you watch television and you see deviant lifestyles are acceptable. There's something rotten in this country that is literally causing people to be demonically possessed. It's almost as if the devil is throwing his toughest and it's time for God His strongest and let the real God win.

**GUILLERMO:** Amen. I believe it. I agree completely with it. I believe the part of what had happened with the deliverance ministry in this country. What had happened? Again, the replacement. But there's a solution for it. We can start. Most of the time, Sid, we have replaced motivational preaching for the cross and the Kingdom. Whenever you preach the Kingdom from the right point of view of the scriptures, you will see demons manifested. I've been in 50 countries, and every country I've been, I've seen people delivered from depression. And what you're saying about depression, did you know that before this fall of the economy, 10 percent of the population of America was in depression. Now, it's 20 percent. It's doubled. People are depressed because they're me watching now.

**SID:** You know, it starts out in the natural, but then it becomes demonic because it's like opening a door. You know, I talked to someone recently that said to me, "My husband is involved in pornography and they will never be free. They'll have that problem their life." Untrue. Don't go away. We'll show you exactly why.

[music]

*We now return to **It's Supernatural**.*

**SID:** Hello. Sid Roth here with Dr. Maldonado. And you know people that are addicted to pornography. What happens if someone that is addicted to pornography for 20 years? And you know what concerns me? That concerns me. But even worse this leads to other things. Tell me about someone that was addicted to pornography and what happened to them.

**GUILLERMO:** That's exactly what happened, Sid, what I was telling you. Before I entered, had the revelation of the ministry of deliverance, I had graduated. I have a doctorate in one of the

universities, Vision University, and they told me about many things about counseling and things. The thing is when I have this person in front of me crying out and saying, "Pastor, will you pray for me." They said, "I speak in tongues. I'm bound to Jesus, but I love pornography. Can you help me?" And I'll try to analyze things and suddenly they start manifesting in front of me. So in that particular moment the Holy Spirit came up on me. We lift the spirit of pornography, remember what Jesus said about the woman with the back condition? Jesus didn't call it like today, call it like it is.

**SID:** Yeah. He said, "bound by Satan 18 years."

**GUILLERMO:** The spirit of sickness. He called it like it is. Like we call sin issues. No, we have to call it like it is. So I said, "The spirit of pornography come out." In that particular moment, 20 years of pornography, bound in pornography, he was completely set free in one second with the power of the Holy Spirit and the power of the Word.

**SID:** There seems to be an increase in schizophrenia. Are you seeing this among the people you know?

**GUILLERMO:** I have seen hundreds of people being delivered. I'll give you a case.

**SID:** A schizophrenia person being delivered?

**GUILLERMO:** Schizophrenia, yes. Schizophrenia is a demon. Now. If you go from the psychiatrist's point of view they will tell you it's an unbalance in the brain.

**SID:** You need chemicals.

**GUILLERMO:** Right. So you need chemicals to balance, whatever. So in my case, when I've dealt with that as a spiritual, you cannot deal with spiritual things with emotional mental things. You have to work with the right medicine. So this girl, 14 years old, came into the church, they disabled her because somehow they said, you're crazy. You're never going to drive. You're not going to school and you're going to be admitted to a hospital. She came, she was set free, she went back to college, normal, drive. Everything was free in the moment.

**SID:** Tell me about the Cuban witch.

**GUILLERMO:** The Cuban witch got one of my teachings got into his hands, and somehow he started reading, hearing the teaching. And the moment he's hearing the teaching something happened to him. He started being delivered. And after being delivered of witchcraft and Santeria and witchcraft, and all that, he was set free. He called all the witches, 50 witches and prayed for them, and they were free.

**SID:** Dr. Maldonado, you teach on breaking curses and the most wonderful things happen to people. Would you teach our people right now. I want you to mentor them so that they can be free like the people in your congregation.

**GUILLERMO:** First of all, they need to understand what is a curse. A curse is like a shadow, like something that you are ready to do something, but there's like an invisible hand that removed the blessing that God asked for you. So it's transferable from one generation to another generation.

**SID:** Give me some examples of curses.

**GUILLERMO:** For example, it can be someone that if I got cases in our church where all the women in the family became single women. For somehow they got divorced and the mother, and the grandmother. I have seen, for example, men that three generations of alcoholism, examples like that. How do you break it? First of all, you need to understand this is the basic theology, the doctrine, the knowledge behind it is that Jesus Christ took our curses for us to receive his blessings, Galatians 3:13. In other words, we need to have a foundation. There is a scripture where Jesus said he took the curse for you to receive the blessing. So second, you need to renounce it. I want to teach you how to do it, verbally, you got to renounce specifically about that curse. And number three, you cast it out. You command the spirit behind the curse to come out from you, and you will see that taking place. If you do it with faith, I have seen hundreds of people doing it and being free.

**SID:** Why is it then when people go to other countries that speak and proclaim the Gospel, hundreds of manifestations occur of people that have demons inside of them. But in the United States there's not a discussion. You don't see demons being cast out. You don't even see manifest in most congregations. Why is that?

**GUILLERMO:** There are so many reasons, Sid. And one of the reasons is that we as Americans, we have so many options. God is the third or fourth place. In other words, I have the doctor and I have the hospitals.

**SID:** The psychologists, drugs.

**GUILLERMO:** Psychologists. We have so many options. Whenever you have only one option, death or life, you're going to believe God. And I think this is the moment that many people that are watching now, that they don't have many options. There's only God or they die. I have seen people. And number two, I believe is the kind of preaching that we're preaching. Because with the preaching of the Gospel of the Kingdom there has come healing, there has to come deliverance, there has to come deliverance from generations of curses. But we've been preaching something else. We've been preaching another kind of gospel that doesn't bring that manifestation.

**SID:** I pray that you would become normal, normal as defined by the Bible. I'm going to have Pastor Maldonado break curses over your life and pray by the spirit over you, and I promise you many of you that are bound to addictions, bound to pornography, bound to alcohol, bound to drugs, bound to sex outside of marriage, bound to deviant lifestyles, you're going to be free. You know why? You've just heard the truth and the truth will set you free. Don't go away. We're going to be right back.

[music]

*We'll be right back to **It's Supernatural**.*

[pause]

[music]

*We now return to **It's Supernatural**.*

**SID:** Hello. Sid Roth here with Dr. Maldonado. Any many of you have had curses on your life. Some of you don't even know where it came from. It could have come from four generations back. I mean, there are people that every time it looks like you're going to get ahead, the car breaks down, bills pile up. There are people that are depressed all the time. There are so many types of curses. I mean, it doesn't have to just be alcoholism or drugs, or pornography. There are many areas in the health area, in the marriage. It seems people, they get divorced and they get married, and then they get divorced again. This is not the way God created it. It's not the way it's supposed to be.

**GUILLERMO:** Yeah. I believe also rejection. There are so many people trying to, rejection is the deepest wound, emotional wound in people. And I have seen people always like someone looking from outside, but not belonging, feeling that they don't belong.

**SID:** You know, some people, because they didn't want a pregnancy, even in the womb, that spirit of rejection.

**GUILLERMO:** Yes. So I believe there is a moment that Jesus Christ, the solution, Jesus Christ, it doesn't matter, like Sid, you were saying about many people thinking, well I have to, they're accustomed to it. They conform to it.

**SID:** It's become their friend.

**GUILLERMO:** Yeah. And I tell you now, Jesus Christ set you free. He took your curses, your sickness, your rejection. He was rejected for you to be accepted in the beloved. And right now I'm going to pray for you, if you're watching me, that you can receive that deliverance. It doesn't matter what you're going through. It doesn't matter how oppressed on your mind, if you're depressed, if you're full of fear, some people are trying to go ahead and they're afraid. They're afraid to failure. They're afraid to many things.

**SID:** You dealt with rejection yourself.

**GUILLERMO:** I did. And I dealt with the fear. I was the most fearful person in the world, Sid. And the Lord set me free. I was afraid of my own shadow. And now when the Lord set me free, Sid, I can tell you now I am the boldest person in the world. When the Holy Spirit comes upon me, I've gone into funeral homes and prayed for a dead person.

**SID:** Did you ever think that you would be able to speak in front of large groups?

**GUILLERMO:** Never. I was so timid. I was so afraid. Timid is one of the ways of fear. And I was so afraid, but the Lord set me free. I can speak to you with authority, not only just the theology behind it. But a spirit is being free of rejection and free of fear. So the same thing that happened to me, I can pray that happened to me.

**SID:** Would you do that?

**GUILLERMO:** Yes. I want you to stretch your hands wherever you are now. It doesn't matter what you're going through. It doesn't matter if it's in your mind. Jesus Christ came and he forgave you for you to receive his forgiveness. Father, in the name of Jesus, I give you praise and I give you honor. Thank you for those people that are watching. I want you to stretch your faith. It doesn't matter what you're going through. Maybe it's just a poverty thing. It may be just a marriage, broken marriage is in your family. It doesn't matter what it is. Right now, Lord Jesus, I break every curse. And right now, every curse and the emotional, and the rejection, sickness, diseases, poverty, right now, sin, I command every sickness and disease, I command every curse go in Jesus' name. If you're watching me now and if you're confronting things like pornography, if you're saying, Pastor, I feel like something has happened to me, I'm bound, Father, in Jesus' name I command every spirit of pornography come out, come out, come out of those people. Come out of their mind. Come out now! Any bondages be free in Jesus' name. Amen. Depression, people with depression, right now, the Lord is something lifted from you. Depression, go in Jesus' name. Rejection, go in Jesus' name. Any curse, I break it and I release the blessing of God in Jesus' name. Amen and amen.

**SID:** What are some of the open doors to the demonic?

**GUILLERMO:** When people practice the occult, any kind of occult to, I would say, continue sin, you know when you sin one time and you repent, that demon will not come and attack you. But if you continue to practice the sin it will open the door for that. And number three, I would say unforgiveness. When you have unforgiveness in your heart you're giving the devil a legal right to attack your body or your spirit.

**SID:** How dangerous is it watching X-rated things on television or in the movies?

**GUILLERMO:** Again, it is an open door. There are so many open doors that we can talk about, and that is one of them, is X-rated movies. I have seen, for example, a girl was watching X-rated movies, and suddenly she was oppressed by a demon and we have to deliver her, because she opened the door willingly into that thing, and that is very dangerous.

**SID:** There are so many movies of witchcraft and magic, and voodoo. All of these things are treated as normal today. Is that dangerous?

**GUILLERMO:** Yes. It's very dangerous. And Sid, the thing is people are looking for an experience with the supernatural. Unfortunately, they can't find it in churches.

**SID:** Why is it that most churches in America or in the world, for that matter, don't even talk about this subject? Why?

**GUILLERMO:** I can tell you many reasons also. But I think one of them is the kind of preaching that we are preaching. The Bible talks very clearly about the Gospel of the Kingdom. And this is what happened, Sid. Every time you saw Jesus preaching the Gospel of the Kingdom, you saw four things that could not stand in the presence of the Kingdom. Number one, sin, number two, sickness, number three, demons, and number four, death. Those four things could not stand when Jesus preached on the Kingdom. Matthew 4:23, he preached the Gospel of the Kingdom and then he cast out demons, and then he healed the sick. And then we're not preaching the Gospel of the Kingdom, because everywhere I've been, I've been in 50 countries of the world, and every place I've been even in the States, I've seen tremendous deliverance in the States. One of the reason our church has grown so fast is because the ministry of deliverance. People come and have deliverance. People are trying many things, many cures, but their dealing with the branches. If I tell you I'm of presence of mind, I want to commit suicide, I got schizophrenia, they will give you a bunch of pills. You become addicted, but you're dealing with the root. The root is the blood, the root is the power, the root is the anointing of the Holy Ghost.

**SID:** And you know the most wonderful thing is when people finally get free in these areas. Sickness can't even come near them. They get set free of sick they've been dealing with their whole life when these curses are broken, when these open doors are closed. What are you seeing in your church? Are you seeing many people are healed when they get set free?

**GUILLERMO:** Yes because, like when we started from the beginning. Eighty percent of the sickness in people is caused directly or indirectly by a demon. And when we remove the root of the problem you will see people come free. And there's something happens, Sid, I have seen even my own leadership in the beginning, I saw that something happen to my leadership when I delivered them became so alive in God, because demons will oppress your mind, will bring fears. It won't let you go ahead in life.

**SID:** Well it's time for you to go ahead in life. This is your moment. Some of you say, I'm born again, but this is what the Bible says. This is eternal life that you might know him. Now you have to come to know him. You know him by repenting of your sins. Grace without repentance isn't even grace. But grace with repentance, belief that Jesus died for your sins and belief that he is the Lord of your life and lives inside of you, that is coming to know Jesus.

[music]  
[pause]  
[music]

**SID:** Next week on *It's Supernatural*. My guest received the most incredible impartation from Heaven on how you can have a blessing attack. I didn't say a heart attack. I said blessing attack.

[music]
