

SID: I tell you what, I have such an expectation for God to show up big on this show. Not only do I, you can see our audience is already lined up. I'm Sid Roth. Welcome to my world, where it's naturally supernatural. My guest, not only is she positive there'll be miracles on this show, she literally made a sign. Look at this. "Expect a miracle." I'll tell you one other thing. If you have your expectation up, God is not going to disappoint.

*Is there a supernatural dimension? A world beyond the one we know? Can we tap into ancient secrets of the supernatural? Can our dreams contain messages from Heaven? Is God ready to bring a tsunami wave of healing onto planet Earth today? Sid Roth has spent over 40 years researching the strange world of the supernatural. Join Sid for this edition of **It's Supernatural!***

SID: Do you notice I still have my sign? That is not just a nice phrase, that's for you. "Expect a miracle." Aliss, you do workshops all over. You go in the street, you have miracles. You have miracles all over the place, but you maintain it's totally caught and transferable to every believer. Explain.

ALISS: That's right. Well, I believe that the anointing for doing miracles is transferable. I love doing miracles, but I also love helping other people get activated to do miracles, too. What I tend to do is when I meet somebody, as soon as I meet them, if I'm teaching at a workshop, one of our parties, whatever it might be, I like to release a miracle up front.

SID: Go for it.

ALISS: I'm going to do it.

SID: Right now.

ALISS: I'm going to release some miracles for you that are watching.

SID: By the way, studio audience, that's you. Get ready, and you at home.

ALISS: If you need a miracle, then I release that for you in the name of Jesus. Right now I invite the presence of Jesus to come right where you are. I don't need to be in the room physically with you. You have Jesus with you wherever you are in the whole world, and you just call out to Jesus. I release that tangible anointing for healing right now, or not even healing, but any kind of miracle. Receive it into your body. Receive it into your life whether you need some kind of breakthrough financially, in your marriage, whatever it might be. Receive that. In fact, you're actually going to start feeling something happening in the room right now 'cause this is what happens. But you're going to sense that tangible anointing of the Holy Spirit. Whoa, right where you are.

SID: I can tell you, I'm feeling it now, guys.

ALISS: I'm releasing that for you wherever you are. You'll start to see lights in the room. Some of you are going to see lights right now. There's lights appearing. There are angels around you. Some of you, you've actually got bones that are broken in your body and they're moving. I just

told those bones to move around to get into the right place, that everything come into alignment with Heaven now in the name of Jesus. Wow.

SID: Well, I'll tell you, the presence is here and it's going to do nothing but get stronger. Tell me about the woman with Parkinson's disease.

ALISS: Wow. Just telling a story of something that's happened, it means it releases miracles. What happened was I was the after-dinner speaker in a hotel. It was a nice hotel room, all these round tables, and I was talking about the Kingdom of Heaven and releasing miracles. This lady comes out and she's actually pushing her friend who has Parkinson's disease who is sitting in a wheelchair. She is just this tiny woman in this wheelchair and I can hardly hear what she's saying but she's trying to speak to me. I put my ear next to her mouth and she says, "I want to be healed." I said, "Okay, we're going to pray." We released the power of Jesus and then she's trying to beckon me.

I could hardly hear her. "I want to stand up. I want to walk." I said, "Okay." She hangs onto her, she pulls herself up and we're saying, "In the name of Jesus, be healed, walk." She stands up. She pushes me, she pushes her friend out of the way, and she gets up and she just starts to walk around the room. She does a whole lap. She does a whole lap around the room. She grabs the wheelchair, she pushes her wheelchair all the way around the room, all the way out the building, and she jumps into the car completely healed by Jesus. I love Jesus.

SID: You know, I sense that same power's here now.

ALISS: Oh, yes.

SID: What about you?

ALISS: Yes.

SID: I sense that as we continue talking, it's going to get stronger and stronger. Now, I would like Aliss to release. She knows so many revelations about healing, but I would like her to release the strongest revelation about healing when we come back.

*We'll be right back to **It's Supernatural**.*

*We now return to **It's Supernatural**.*

SID: Aliss, you have been praying for the sick for years, seeing amazing results, especially in the street when you see someone sick. Why'd you wait 'til now to release your book on healing?

ALISS: Wow. The Holy Spirit told me to wait. He said that, you know where Jesus, when He performed His first miracle, the Bible says, "He thus revealed His glory?" I really sensed the

Holy Spirit say to me that when I release this teaching, there's going to be such anointing on it that actually miracles will just start to burst out and explode all over the place and it will release the glory of the Lord. Now I believe that the Lord has said, "It is time."

SID: Aliss, tell me the most important revelation for us to understand about healing.

ALISS: I believe the most important revelation is that God wants you well. There's a Scripture that I love. It's Psalm 103. "Praise the Lord, O my soul, and forget not. Don't forget all His benefits. He forgives all our sins and He heals all of our diseases." So important. When we look at Jesus when He was walking the earth, there was a guy who had leprosy and he went to Jesus and he said, "If you will." What did Jesus say? He said, "I will." Jesus healed all who came to Him.

SID: Now, you kind of coach us to walk into what is already ours. Would you do that right now?

ALISS: I release miracles right now, healing particularly I'm releasing in the name of Jesus. What I do is, I don't say, "God, will you please do this? Will you heal this person" because Jesus did it 2000 years ago. We can be healed instantly. I release instant miracles right now. Just tell that thing to go. If you've got a problem in your body, you just speak it out and you say, "Go in the name of Jesus" and receive that healing from Jesus right now. Just receive it in Jesus' name.

SID: Tell me about that pub. You might think a pub is a bar, but in England, a pub is a nice family restaurant. Tell me about that pub.

ALISS: I was staying in a bed and breakfast which happened to be a pub. I was actually doing a radio show that day and the radio host came to the pub and he was recording me talking about miracles. I said, "I want to do some right now." We went outside and we started praying for people and miracles started happening. The landlord of the pub gets healed, somebody outside gets healed. These miracles start breaking out. I go up to my room to prepare and just to pray for that evening's meeting, and the Holy Spirit speaks to me. He says, "Go downstairs now and go and sit at a table outside the back of the pub." I'm like, "Okay." I went downstairs and I found the back door.

I sat at this table outside the pub and I waited there just for a few moments and then two workmen came outside with their pints of beer and their cigarettes. They wanted to have a smoke. They sat at the table next to me and I could overhear their conversation. They started talking about the miracles that have broken out. One of them says, "Oh, yeah, but it's all in your head." I thought, "Hmm. We'll see about that." I got up and I went over to them and I said, "Oh, so it's all in your head, is it? Miracles?" They said, "Oh, yeah, just all in your head." I said, "Well, I'm going to prove to you right now that God is real, that He is powerful, and that He loves you, and it's not just in your head." They're like, "Yeah, go on, then."

One of them, I said, "What's wrong with you? Anything wrong with you? Workmen always seem to have a problem with all the stuff they're doing." He had a problem with his back but his main thing was he said, "The bone in my hand, the scaphoid bone," I'd never heard of that before, he said, "Three years ago, I damaged my hand. Look at my hand." The bone was sticking up under

the skin in his hand and he said, "It should be there and it's here." It moved a few inches. I said, "Okay, I'm going to demonstrate the power of God." I put my finger on it and I said, "In the name of Jesus, I tell that bone to move." We watched as the bone moves along. It was amazing.

What I did was I actually got my phone out and started videoing. We've got this on YouTube. You can watch it. He's going, "I'm not kidding, I'm not joking, I'm not joking. It's moving, it's moved." His friend sitting next to him says, "Well, I've broken my ankle twice and I need some healing in my ankle." I prayed for his ankle and he goes, "Oh, I'm feeling all tingly." He gets completely healed by Jesus, too.

SID: What you don't understand, this isn't something that happens every five years to her. This happens, I would have to say, every time you go out intentionally to pray for the sick.

ALISS: Well, not even intentionally.

SID: It just happens.

ALISS: I just mind my own business and it just happens every day.

SID: Now, tell me about someone that's watching us right now that is discouraged and you've kind of given up on healing. You don't even want to talk about it. Hope isn't even in your vocabulary. Tell me someone like that that you prayed for.

ALISS: One time I was speaking at a seminar on healing, and right at the beginning a woman puts her hand up and she said, "Oh, excuse me, Aliss, I just want you to know that me and my friend prayed for her son as a teenager. He was very ill and he died. We are right off healing. We are so discouraged and disappointed in God that I'm off healing." I thought, "Well, that's great. Thanks for that encouragement." Anyhow, I didn't say anything, but I thought, "I'm just going to go through all my teaching."

I was sharing the teaching on healing and at the end of it, this young lady, she was 30 years old, and she broke her back, she said, 10 years previously. She'd actually had surgery in her back and her spine had vertebrae all fused together with metal pins and rods. She couldn't bend to pick up her son, even. She was in constant pain, on liquid morphine, to try and ease the pain for 10 years, but she was still in pain. I thought, "I know what I'm going to do." The woman that's discouraged and disappointed, I'm going to get her to do the miracle.

I always like other people doing the miracles so they know it's not me, it's Jesus. I said, "You're going to do the miracle." She puts her hand on the woman with a broken back. She starts feeling the power of God coming from her, the Holy Spirit in her, coming down her arm, releases the power of God into this woman's back, and this woman, we've got it on video 'cause I got my phone out again. It's on YouTube. She's jumping up and down, screaming with joy, not pain, 'cause the pain leaves her and she gets completely healed. The woman that prayed says, "Wow, that has so boosted me." It was amazing.

SID: Now, there are people, and they don't even realize it, they're in low-level counterfeit things. What about people that are into counterfeit miracles?

ALISS: Well, they're usually people that really want to see the sick get well.

SID: I believe that.

ALISS: It's from a good heart, but what they don't realize is that Jesus is the legal access point into the spirit realm. Jesus is the only way. He's the door and He's the safe way in. One day I was in our shop that we had at the time and a lady comes in and she had two walking canes. Saw a sign outside, you know, "Expect a miracle," so she comes in and she could hardly walk. Her husband was with her and he said, "I'm her carer. I've had to give up my job to be her carer." He said, "She's in so much pain. Can you help? Can she have a miracle?" She starts to tell me what the problem was. She had fibromyalgia, which is like pain all over her body. They don't know why. Well, I knew why. She had ME and chronic fatigue. She had arthritis and some problem with her abdomen she'd had surgery on.

As she's saying all this, I'm thinking, "I think these things are caused by evil spirits in my experience, in my opinion." Just a little thought popped in my head. I said, "Have you ever been involved with reiki healing?" She said, "Oh, I'm a reiki master." I said, "Well, when did your trouble start?" She thought about it a moment and she thought, "Exactly the same time I started practicing reiki." She said, "That's when the trouble started." I said, "Well, I believe that the problems you've got are caused by evil spirits." I said, "We can help you get free from those things. What I'm going to recommend is that if you want to get free from these evil spirits and all the pain associated with them, then you need to know Jesus. You need to invite Jesus to come into your life so that if these evil spirits try and come back, you can stop them through the power and the blood of Jesus."

She said, "That's what I want to do. I want to give my life to Jesus." She prays out and she says, "Father God, forgive me for coming into agreement with these evil spirits. Forgive me for doing reiki and all those other things and for all the sin in my life." She tells those evil spirits to leave. She invites Jesus to come into her life. She gets completely healed and full of the Holy Spirit, and she's jumping around the shop. Amazing.

SID: Aliss, many people have been involved in New Age activities and frankly they're looking for love. I want you right now to renounce any New Age thing that you've ever been involved in. If you know the name, you can renounce it. I want you to say, repeat after me, and even if you haven't been in the New Age, your ancestors could have been. I want you to renounce that New Age involvement and then I want you to say a prayer out loud with me to receive Jesus. Say out loud, "I want no part of the New Age."

Audience: I want no part of the New Age.

SID: "Or any other New Age type of course."

Audience: Or any other New Age type of course.

SID: "I believe the blood of Jesus."

Audience: I believe the blood of Jesus.

SID: "Cuts that authority."

Audience: Cuts that authority.

SID: "And I am free."

Audience: And I am free.

SID: "And now that I am free."

Audience: And now that I am free.

SID: "I ask you, Lord."

Audience: I ask you, Lord.

SID: "To forgive me."

Audience: To forgive me.

SID: "For every sin I've ever committed."

Audience: For every sin I've ever committed.

SID: "I believe that your blood."

Audience: I believe that your blood.

SID: "Washes my sins away."

Audience: Washes my sins away.

SID: "And I am clean."

Audience: And I am clean.

SID: "It's so good to be clean."

Audience: It's so good to be clean.

SID: "And now that I'm clean."

Audience: And now that I'm clean.

SID: "Jesus, come inside of me."

Audience: Jesus, come inside of me.

SID: "Take over my life."

Audience: Take over my life.

SID: "I make you Lord of my life."

Audience: I make you Lord of my life.

SID: "Amen."

Audience: Amen.

SID: Now, when we come back, Aliss says that most of the time when she prays, she doesn't pray a little mickey, mousy type prayer. She demands the people to be healed. She demands if there are any evil spirits on them to leave. I'm going to have her pray for you when we come back.

*We'll be right back to **It's Supernatural**.*

[music]

*We now return to **It's Supernatural**.*

SID: Now, Aliss, you pray differently than most believers pray, but you literally command. You'll command a demon to leave. You'll command bones to go into place. Tell me one story about that.

ALISS: Yeah, following on from the story we told earlier about the woman that came into our shop, but what I was saying to her was, "Just tell that thing to go." As she's telling the demons to leave, she can feel them. She starts making a noise as they're coming out. Then she starts feeling all this pain in her neck. I said to her, "Well, just tell that demon to go but don't cause any pain." It's important you just speak to those demons 'cause they've got to do as you told." At this point, she knew Jesus 'cause she just asked Him into her life. I said, "You just tell that thing, 'Don't cause any pain, just come out.'" She did that and the pain stopped, but the demon came out.

SID: It's nice that you pray for people to be healed. But what happens when you get sick or your husband?

ALISS: Well, that's a good question. Now, I don't really get sick very often, but sometimes things will come out of all of us and we've got to fight those things. We've got to contend for them, not come into agreement. I believe like with an evil spirit, it can only have any power in your life if you come into agreement with it. You've got to break that agreement straight away. One time I found a lump in my breast, basically, and I straight away, if you find anything like that, you just got to tell it to go in the name of Jesus. You know I said don't come into agreement with it? Basically I thought, "I'm not going to get it checked out or anything." You got to be careful, be led by the Holy Spirit. But what was interesting to me was just later that same day, I didn't tell anybody else, later that same day I get a letter come through my letterbox.

I open it up and it's from the hospital. I was in my 40s at the time. It says, "We are just offering random mammograms to women in their 40s and we'd like to invite you for a mammogram." I thought, "That is interesting. Maybe the devil is just overplaying his hand here because this is the same day I've just found a lump." I knew it was the enemy anyway. I just tore it up, threw it away, and I said, "No, I'm not coming into agreement with that thing. I tell that lump to leave in the name of Jesus." I had to speak to it a few times, but one time I put my finger on it and it just disappeared completely because of the power of Jesus.

SID: Okay. You have heard the testimony. You've had some terrific teaching. You've had the presence of God come at you. I want you to operate in commanding faith right now to pray for the sick right this moment.

ALISS: I release the presence of Jesus right where you are and I command, I tell you what. Just put your hand on the part of your body that needs a miracle right now. Just place your hand on that part of your body and I'm going to speak to those things. I just command everything that is in your body that should not be there has got to leave now in the name of Jesus. Just disappear. Everything that should not be there, go. Any lumps, any tumors, disappear. Any sickness in your body, any pain that should not be there, you go now in the name of Jesus. Be completely healed. You agree with me. You just speak to that thing and you tell it to go in Jesus' name and receive the miracle from Jesus right where you are.

SID: May this sweet glory of God that is in this studio come right out of your television or computer or cell phone and touch you and be whole.
