

Hello, Sid Roth here, welcome to my world where it's naturally supernatural. We hear about the glory. We see demonstrations by others on television, but somehow it hasn't hit us. My guest says in many cases, it has to do with the dead places in our heart from disappointments, sorrows, betrayal, or trauma. To protect ourselves we just bury these hurts so deep that we don't even remember them, but my guest knows how to awaken your heart again. Are you ready to have those dead places in your heart awakened?

*Is there a supernatural dimension? A world beyond the one we know? Can we tap into ancient secrets of the supernatural? Can our dreams contain messages from heaven? Is God ready to bring a tsunami wave of healing onto planet earth today? Sid Roth has spent over 40 years researching the strange world of the supernatural. Join Sid for this edition of **It's Supernatural**.*

SID: Hello. You know, I've been talking from the last several years now about the glory of God and how to be a carrier of the glory of God and my guest, Jennifer Eivaz is a carrier of the glory of God. But for starters, Jennifer, what is the glory to you?

JENNIFER: To me, it's the manifest presence of God. It's something you would see, something you would experience and that's the glory of God. It's not invisible and hidden. You experience it, you will witness it and it transforms you.

SID: Tell me about the first time you experienced the glory of God?

JENNIFER: Without even knowing to define it as the glory. I was at a women's conference and what happened is it's like the heavens parted, you know, and it's like the air parted over me and I could feel the fire of the Holy Spirit just pouring out upon us. And, and that was such a tremendous life changing experience for me. I never forgot it.

SID: One of the main ingredients to be a carrier of the glory is relationship, friendship, you teach with the Holy Spirit.

JENNIFER: Yes, you know, and I really didn't know that for a lot of years. I took note however, of men and women of God who carried the glory consistently. They all said the same thing. They said, he's my friend. And I began to realize that maybe the Holy Spirit wants me to be his friend and I began to take that journey with him. Holy Spirit, can I be your friend? Will you show me how?

SID: And is that exactly the way you were praying?

JENNIFER: Yeah, very simply. And I just asked him, I said, will you show me how to be your friend? Can we be in a relationship? Can I experience you and encounter you continuously?

SID: So how many times a day might you have said that?

JENNIFER: I would say it was a continual prayer and until I had an encounter where I said, now we've connected.

SID: Tell me about that.

JENNIFER: I was in our prayer chapel and again, I'd been really seeking out to the Holy Spirit for friendship. I was looking for connection. I was looking for something I could feel continuously 'cause I couldn't quite feel him the way I thought I should. And I began to pray that prayer again and again and again. And then in the prayer chapel at our church, all of a sudden it's like he walked into the room. Not only did he walk into the room, I felt his presence come upon me.

SID: You know, as you're sharing that I can feel his presence.

JENNIFER: I can feel his presence, yeah, and so I completely felt his presence upon me and then I started noticing as I continue to pray that prayer, he would come in and he would do the same thing. I just started noticing again and again when I invited him, he came.

SID: What does it, if you can put it in words, what does it feel like when your friend comes to you? What do you feel like?

JENNIFER: I feel different things because he's a person, you know, he's God, but he is a person and it's not the same all the time. Sometimes it's like I feel his hands on my back, you know, like a friend, very comforting. Other times it's like I can feel his face is joyful face in front of me. Sometimes he will stand peacefully beside me. And sometimes he gets very fierce when he's about ready to minister and he wants me to do something in partnership with him, I'll feel his fierceness cause he's going after something in somebody that he wants them delivered from.

SID: Now you talk about a friendship, do you really mean that? Really as like a best friend?

JENNIFER: I do. He wants closeness with us. He wants nearness with us. He's always wanted newness with us, on our end we failed it many times, but nevertheless he doesn't stop trying. And so when we invite him into that nearness, he will respond to that invitation and then he will teach you his presence and how to flow with him.

SID: You know, the glory of God comes in different forms. All of your senses are activated to see, hear, smell. But the thing that intrigues me the most is what is known is the glory cloud. People have seen over me, a cloud of glory. People have seen over you a cloud of glory, but it's one thing for people to see it and it's another for you to see it.

JENNIFER: Yeah.

SID: You just saw the glory cloud. Tell me about it.

JENNIFER: I know many people have seen the glory cloud much like you have spoken of, and I celebrate it, but I never saw it myself until just recently at a conference at our church. First Time I ever saw it, I saw it with my physical eyes, actually right in front of me and it was like a cloud, a mist, and I saw it moving over the heads of the people, and it was like moving and I'm like, that's the cloud of glory. I knew what happened when that cloud appeared?

SID: What?

JENNIFER: And I could physically see it. Miracles started breaking out in that meeting that we've never experienced before as a church.

SID: There is a key that you're about ready to hear, and when we come back, I want you to tell me about the revolutionary change that occurred in your life in the city of Perth, Australia was at a church called Paradox. Be right back.

*We now return to **It's Supernatural**.*

SID: You know, if we can just have this friendship with God, with the Holy Spirit, and that would've been enough, but there's another fringe benefit Jennifer, of this friendship with the Holy Spirit. What is it?

JENNIFER: That fringe benefit is signs and wonders. You have a friendship with a supernatural friend, and so what's on him gets on you.

SID: Well, some of the things that are going on with your friend and the glory as a result of this friendship with the Holy Spirit has to do with lights. Explain, because remember, I said the glory affects all of your senses that you have in the natural, in the supernatural. You can see the glory. You can hear the glory. You can smell the glory. You can taste the glory, you can even touch the glory. So what's been going on with the light?

JENNIFER: Every once in awhile, the light and radiance of God, the glory of God. I'll actually glow like a light bulb and I've had that happen three times specifically. And ...

SID: So when the glory is on you, you're saying you glow?

JENNIFER: I glow, and we've caught a few of those on camera. You know, it's not always at a place where we're going to take a picture of it, but right there you're seeing that it's one time they caught on camera where I glowed from head to toe.

SID: That is amazing.

JENNIFER: Yeah.

SID: That is so amazing. When that happened, what happened with the supernatural level in that congregation?

JENNIFER: I just know that there was angelic activity in the room. You could feel the presence of God in the atmosphere. The ministry reflected the glory ...

SID: I'm sorry, I'm seeing your next picture and I got a little distracted.

JENNIFER: There's another one.

SID: You have to understand.

JENNIFER: Yeah. Again, you know, it's this glory, this radiance that happens on occasion and people have actually caught those pictures on camera and it just says that I've been with the Holy Spirit.

SID: And others see fire in your eyes.

JENNIFER: Yes, yes. I've had that testimony as well. Or people will notice fire begin to appear in my eyes. One time in particular, it was right before the glory of God came on the crowd of people that I was about ready to pray for. And so it was very tangible.

SID: There was one time when someone tried to disrupt your meeting. What happened?

JENNIFER: I got a word of knowledge about it. I knew something was going to happen. I didn't know what. And then right as the disrupting person began to do what he was about to do ...

Man: I've got something to say, I've got something to tell you.

JENNIFER: All of a sudden lights started swarming around me, they were visible. People were pointing at them saying, "You're lighting up. There's angels." They didn't know what to call it. It was the glory of God. He was protecting me.

SID: Now you went to Perth, Australia at a church called Paradox and as wonderful as the relationship, Jennifer has, something happened that she knows will happen to you as she teaches you that opened her up to the glory and the relationship with God beyond anything she's thought possible. Tell me about that experience.

JENNIFER: Well, I base it on, we are going from glory to glory. Experiences are going to continue to unfold that we didn't even know existed. That's what happened to me. I went to do a prayer conference and the very last night of the conference, and it was a wonderful conference, but in the middle of the night I'm sound asleep, I'm satisfied. It went well. The Lord, the Holy Spirit, he visited me in the night in the strangest but most tender way he picked me up out of the bed, picked me up, brought me to his chest, almost like a quick embrace. When he did that, something from him dropped into my heart. I'm not talking about my physical heart, I'm talking about my emotions, the very core of me. Something from him dropped into that place and I was undone. Like I have never been undone before.

SID: What was he really doing? What was being accomplished?

JENNIFER: What he was doing was he was healing the dead places of my heart. I did not know, I would describe it as half of my heart, I'm talking about emotions, I'm talking about the core of me had died and I didn't know it. It died from grief, life, pain, betrayal, all those things ...

SID: Part of being human.

JENNIFER: Human. But my heart had died and I had lost feeling in those places. I no longer cared. There was no compassion. But what's deceptive is you don't feel that you don't feel.

SID: It's called deception.

JENNIFER: And so he was waking that back up. Of course, I needed to be healed after, I had to work through work through it. There was process, but he was waking that back up because I could not experience his glory because I couldn't be led by the spirit of God in places I can't feel where he's leading me. It revolutionized my life.

SID: But you realize there are many people that can say, "You know, I believe that's me." Can this be reproduced? Meaning, can you help people get this from God the same way you did?

JENNIFER: I found that after this experience, I began to share the story and pray for everybody everywhere and it's completely transferable. It's an anointing that resuscitates your heart. It brings you back to life and you can experience the glory on levels you've never experienced it.

SID: Okay, when we come back, would you like Jennifer to pray for you? We'll be right back.

SID: So Jennifer had the dead places in her heart awakened and that allowed her to feel again all that God wanted her to feel, to have the compassion for all the people, to host the glory of God, easily. And there's so many people that the world, the flesh and the devil has just gotten you. It's almost like Lazarus, you know, when he came back alive, but he was all wrapped up. And I believe Jennifer's going to get you unwrapped. Teach a little bit about this?

JENNIFER: Absolutely. Preceding that event that happened to me, the Holy Spirit began to lead me into a prayer. Psalm 51 verse 10, created me a clean heart. I wasn't a bad person. I didn't have a double life, but he was preparing me in prayer that my heart needed to be changed. And so I was praying that prayer, created me a clean heart. And I began to realize I can't change my own heart. He has to change it. And so out of this experience, I began to focus on the heart and all about it because Jesus concerns himself with the condition of the heart. And I began to learn that out of the heart flow the issues of life, that our whole life is determined by what's inside of our heart.

JENNIFER: I began to read the scriptures where the prayer, Psalm 1:19, where the prayer is, "Enlarge my heart so I can obey your commandments." And so what happens is we have a small heart, a fearful heart, a cold heart, a hard heart. We can't obey the Lord, it's not that we don't want to, we just don't have the heart for it. And so I have to surrender my heart to the Holy Spirit so that he can architect what he wants to architect. And in a journey together he begins to re-craft my heart so that I can obey him and love him and feel what he is feeling and do what he is doing.

SID: Well, you've talked about the major changes that have occurred in your life as a result, you're just more sensitive toddlers and more importantly sensitive to God.

JENNIFER: Yeah.

SID: And have you prayed for people where this has happened to them just like it happened to you?

JENNIFER: Absolutely. And I've had many testimonies where people say, the Lord is healing my heart. They'll literally grasp their heart in front of me, they'll hold it, because they can feel it coming alive. And then afterwards they'll say things like this, "I can care again. I can cry again. I can feel again." One man, a respectable man, when his heart was healed from a father wound, all of a sudden ministry awoke in him. He wanted to go to the nations and be a father to children in the nations.

SID: Would you look in the camera and pray this prayer?

JENNIFER: Absolutely.

SID: And I don't know about you that are watching me on TV, but I'm going in on this prayer myself.

JENNIFER: Absolutely. I just want you to go ahead and lift your hands right now as just an act of faith and an act of surrender. And I'm going to pray for you. Heavenly father, I just thank you that you are the resuscitator of dead hearts. Holy Spirit, begin to invade every person's life. Every person that is receiving this prayer right now. I command your hearts to wake up in Jesus' name, every dead place of your heart to come, alive for your stony heart to be turned to flesh, for a resuscitation, for every feeling that has died to come back to life, you are going to feel again. You're going to care again. You're going to have compassion again. Most importantly, you're going to flow with the glory of the spirit of God because you can feel where he's going and know what he's doing from the inside out in Jesus' mighty name.

SID: And you know Jennifer, there are people watching us right now that say, "I don't know if I really know God. I don't know if I'll be in heaven. I don't know this experience they call born from above." I promise you, if you want to know God, God wants to know you better. Repeat this prayer out loud with me and mean it to the best of your ability out loud, at home I'm talking to you, as well as studio audience.

SID: Dear God, I'm a sinner. I'm so sorry. The one that I've hurt the most is you and you're too good. I believe the blood of Jesus has washed away all of my sins. Thank you lord that I'm clean. Thank you Lord, that I can be close to you. There's nothing separating me from your love. And now that I'm clean, Jesus come inside of me. Take over my life. I make you lord of my life. Amen.

SID: Now, while I was praying that, someone's back was healed, if you'll stand up and bend over, you will see you have no pain, whether your studio audience at home now, you do this unless you want to keep that pain in the back. I didn't call you a pain in the neck. I called you a pain in the back. Jennifer, five seconds. Look in the camera and prayed the glory of God come on everyone.

JENNIFER: I just released the glory of the Lord upon you. Wherever you're at right now, there is fire coming on you. Some of you are feeling the fire of the Lord upon you in you're shaking right there. That's the glory of God. More Lord, more fire on you.
