

Shalom! Sid Roth, here. Welcome to my world where it's naturally supernatural. My guest, a Jewish archeologist working in Israel, got over her head in demonic Jewish mysticism, the Kabbalah, and no rabbi, no psychiatrist or counselor could help her. Then she found the only rabbi that could set her free. You want to know his name, of course? Rabbi Yeshua, next.

*Sid Roth has spent over 40 years researching the strange world of the supernatural. Join Sid for this edition of **It's Supernatural!***

SID: Now Jennifer Guetta was raised in Holland. Her parents were divorced and when she was nine her mom remarried, moved to the United States. When Jennifer was 11, they all became believers in the Messiah. But at 17, she moved back to Holland. Then things really changed. What happened?

JENNIFER: Oh, well, I went searching for truth for myself. I wanted to find out what was the truth behind the Bible. So I started studying at the university in Holland, like most people do. I went to study biblical archeology so I could really find out the truth about what's going on in the Israeli dirt. I ended up excavating for many years in one of the most amazing sites in Israel, which is Armageddon, Megiddo. I worked there for many seasons as the top supervisor.

JENNIFER: During that time at the university, I slowly got involved with biblical criticism and actually lost my faith completely because of biblical criticism and theology and all the things we were learning. Afterwards, later, I did become Jewish. I converted to Judaism and I met an Israeli husband in Holland. Yeah, ended up also, I did a lot of excavation with Tel Aviv University and Lining University throughout Israel.

SID: So let's fast forward now to the year 2012. You and your husband are fine, you're in Israel, you're happy, you're Jewish. And all of a sudden, a woman by the name of Lilly is invited into your home.

JENNIFER: Yes.

SID: Who's this Lilly?

JENNIFER: We actually invited her on September 11th, 2012.

SID: Oh, very monumental date.

JENNIFER: Yes.

SID: 9/11.

JENNIFER: Yeah. On 9/11, we had met the great granddaughter of one of the biggest kabbalists in Israel for one day. We invited her for one day into our house. It was amazing, we thought, to meet somebody like that. And the-

SID: Excuse me, define Kabbalah. What is that?

JENNIFER: Kabbalah, actually, it's not a religion. It's more like an intellectual teaching about the spirit realm, but then it was originally based on the Torah and the Bible, but it came out of Babylon, really. That's where it was formed. Then it was in the second and the fourth and the 14th century, it was all transformed by rabbis. Later, in these times, it has combined with Hinduism and Buddhism. There's actually like three kinds. There's Orthodox kind and there is very New Age kind, which is all over America right now, everywhere.

SID: It's not Jewish people.

JENNIFER: No.

SID: It's everywhere. It's porn...

JENNIFER: It's everywhere. Exactly, yeah.

SID: All these things. And what is the word actually in Hebrew mean, kabbalah?

JENNIFER: In Hebrew it means "to receive" because they do believe that you receive, actually, and that you're a vessel, but it depends on where you receive from. So it's receiving secrets of the spirit realm, because actually we were taught by the great grand-daughter of one of the biggest kabbalists ever in Israel. The secret is you give permission and then you learn from the wrong side.

SID: Okay. Tell me what happened through this Lilly who's now in your home.

JENNIFER: Yeah. The first thing she said at my doorway was something really surprising, was, "Do I have permission to be here?"

SID: And you thought she was just being polite?

JENNIFER: I thought, "Wow, they're nice people." We're scientists. Scientists are very naive. They don't believe in the spirit realm. And we didn't believe in all that. We thought evil didn't exist or was just relative, those good and bad side to everything. We didn't believe in that evil had its own conscious at all. She came teaching really the secrets of kabbalah so we were like, "Wow, this is amazing."

JENNIFER: So when she entered the house, we asked her about her secrets that she was selling, that she was talking about. And then instead of secrets, she started putting cards out on the table and connecting people to their cards. Then she went through my house and started asking permission for everything, for every little thing: for the washing machine, the telephone, for this room, every doorway, every... It was like an out loud permission.

JENNIFER: And I kept thinking, "This is weird. What's going on?" And throughout that time that she was in my house, actually she stayed in my house in the end three months. And it was really a hard time because we found out later that this was very demonic, but we didn't believe in it.

JENNIFER: Strange things started to happen at that time. In the beginning it was all about love, but then at a certain point she started manifesting and she started reacting very strangely. That was-

SID: What do you mean by "manifesting"?

JENNIFER: Well, one time I mentioned to her the name of Jesus, just as an archeologist. I was just curious what he had had to do with the Tree of Life because I saw him as a historical person. And then she said... And the moment I mentioned her name, something erupted inside her and just freaked out and her eyes started bulging out. Of course I know now it was a demon manifesting, but I didn't know that at the time. And for a scientist who didn't believe, that was very scary.

SID: I'm sure.

JENNIFER: Then all of a sudden, my sister in America, she had a dream and she called us and she knew the name of the people. She said, "They're not who they say they are, get them out of your house." I'm like, "How do you know? How do you know who she is?" And she says, "But don't worry, you're going to write a book and you're going to make Jesus name famous in the future, because that's what I dreamt." And I said, "You've got to be kidding." I couldn't believe that. I thought, "No way."

JENNIFER: Anyway, after that, a lot of very scary things happened and the Lord really opened my vision into the spirit realm where I had dreams and could see what was going on. And I could see, he showed me in a dream that she was really possessed by a principality, a very dark..

SID: [inaudible]

JENNIFER: Yeah. It was like a big stork-like creature, and it was ruling over all the other demons. And my husband, he started seeing in the spirit realm and he saw this dark figure all the time around her. We didn't know how to get rid of her. We didn't know what to do.

JENNIFER: And finally, because of those dreams that the Lord gave us, I had the courage to get her out of the house and we found her another place to go. That was on the 5th of January 2013.

SID: How did you find out that when you thought she was being polite, she was getting permission to have authority over you in every area of your life. How'd you find that out?

JENNIFER: That was much later, actually, because after she left, that is actually when the real problem started. We thought we got rid of it all, but then she attacked us spiritually and we went through hell because she had permission over everything. As scientists, we had given that. She had put all her cards throughout our house, completely covered it with all her stuff in house.

SID: And each one was a magnet for different demons.

JENNIFER: Yes. That week after she left, we were attacked by a supernatural force, literally fighting principalities and we didn't know anything about Jesus. We literally saw her coming back and we felt her, but we didn't see her. Really, it's like you're awake immediately. As a scientist, you all of a sudden see the spirit realm and it's terrifying. That first few weeks was really scary. We didn't know what to do and she attacked us from all sides and brought all her demons with her, yeah.

SID: So how'd you get rid of all the demons?

JENNIFER: The first thing we did was we went of course to the rabbis and we tried to get help. We did all the New Age things. We tried many things. And somebody told us, "You've got to cast these demons out in the name of Jesus." And we were like, "You've got to be kidding." We just thought, "No way." But we were desperate. We were so desperate because we were not sleeping at night, every night being attacked. We couldn't barely walk anymore from the tiredness. And finally, we realized we needed to break those permissions because they had been so clear. We wrote out a contract and we just thought, "We're just going to break the permissions." And we put the name of the people. We wrote out the contract and we said, "We break the permission to her here. We break the permission for that."

JENNIFER: And we covered everything that she had said, pretty much anything we could think of: the cards, our house, our car, my daughter, the dog, everything. And we wrote it out and at 12 o'clock at night, we read it out loud and we signed it in the name of the God of Israel and in the name of Jesus, because we didn't even know it was called Yeshua at the time. And we thought, "In the name of Jesus," just in case. The moment we mentioned his name, everything changed. We called upon him. And the demons were stopped. They couldn't attack us like that anymore from the inside. We were in awe going, "How come demons listen to Jesus? What's going on? Who is he? What happened? Is he alive?"

JENNIFER: And then the next day, because all we knew is we had that contract and there was a lot of other people that were involved. So we went with that same contract and we went to different kind of people and we had them all pray that same contract to break all the permissions she had given with that.

SID: Did it work for them?

JENNIFER: It worked for everybody, of course. If you do that in the name of Jesus.

JENNIFER: Then I really had a moment as an archeologist that I started wondering, who is he? How come... Because I had seen the spirits leave, the demons leave and we realized at that point what had happened, that he really rose from the dead. And that Colossians 2:14 where he blotted out the handwriting that was against us, the sin and the permissions. He paid for it with his blood and nailed it to the cross. And because of that, the permissions were broken, and that was 2000 years ago. And I was, "He's still alive!" And the moment that we called upon him, the difference was we were also no longer alone. We were fighting this huge battle because it took a long time for us to get out of this whole thing. It wasn't an immediate thing, but we were no longer alone.

JENNIFER: And he came with his host of angels and started protecting us, helping us, teaching us what to do. One of the first things was I remember that my husband had a dream at that time where he saw a host of fallen angels attack us from outside. And we would literally also feel that the temperature in the air would change, cold. I mean, this was real bad witchcraft. And he saw it in dreams. Everything happened in dreams.

JENNIFER: And all of a sudden God's glory just came over the house and broke all their wings. And Jesus just came in the room and we felt his presence and he was protecting us at that time. It was just incredible.

SID: You had no choice but to make Jesus your Messiah and Lord.

JENNIFER: Yes.

SID: Now when we return, Jennifer will break all agreements that you have made with the demonic, known or unknown. You're about ready to know the truth and the truth will set you free. And it's so good to be free!

JENNIFER: Amen.

SID: Be right back.

*We now return to **It's Supernatural**.*

SID: Okay. How did you process having these dreams from God, all of a sudden, as a scientist? And even more important, what did he teach you? But how'd you even process that God would speak to you and your husband through dreams?

JENNIFER: It went through a lot. It was really a very intense time when we had so many dreams and sometimes it was the enemy that attacked us through the dreams. We would feel it from the outside and the inside. And sometimes, we would feel God's glory in the dreams and we would have dreams about Yeshua or other things. So we really had to learn to make a distinction very quickly.

SID: Discernment.

JENNIFER: To discern, yeah. So one of things... The first thing, actually, was that we called upon the Lord, but one of the first things he taught me was to take authority over those demons. And I remember I had this old Bible from 25 years ago and I haven't studied it at all, unless it was for science, for archeology and it was laying there.

JENNIFER: All of a sudden, I knew he was there, but I couldn't see him. And I was like, "Who?" I reach out and I stood up and I said, "Who are you?" And I opened the Bible for the first time, all that time. And it says, "I am the one who has given you authority over snakes and scorpions and over all the power of the enemy. Nothing shall by any means hurt you. Don't be glad that you have that authority, be glad your name is already written in heaven." From that moment on, he was teaching us the authority that we had.

JENNIFER: Another very important thing he taught me as an archeologist was that the Bible is the word of God, which is an incredible thing for archeologists because I spent many years unearthing the Bible, working for archeologists that unearth the Bible, that unearth it.

JENNIFER: And so the Lord really started speaking to me from the Bible itself and it started coming alive. And one time, for example, I was sitting outside and all of a sudden the wind took the pages of the Bible and it jumped up and I could only read two words because of all the witchcraft. And it said, "Follow me." And I was like, "Who says that?" I didn't remember. And the next day it happened again: "Follow me." And everywhere I went, the Lord started speaking and saying, "Follow me." It was just amazing. So he was showing me through his word from one side to another, that it was his word.

JENNIFER: And then when the demons came, the Lord showed me that we had to read the word out loud. And when we read them out loud, the demons started fleeing. They just completely... One time we had a major attack and the room was cold and I didn't know what to do. And I called out to Jesus for help and nothing happened. I was like, "Lord, what's going on?" And all of a sudden I picked up that same Bible and I opened the last page and it said, "What to do if demons attack you." Written by my stepfather 30 years ago. It said, "Read Psalm 91." And I went to Psalm 91 and I started proclaiming it through my room. Sid, the atmosphere changed completely. Every demon left. And it was like proclaiming his word. They just flee. Then we became warm and God's glory came into our room and into our house.

SID: The presence of God is on your full story.

JENNIFER: Yeah. Everything, the Lord did.

SID: It is such a freedom book.

JENNIFER: It's amazing. It's amazing.

SID: But I have to ask you this because many people feel they have to observe the biblical Jewish feasts, but you feel a little different. You feel that it is the greatest way to have special encounters with God. Tell me just briefly.

JENNIFER: It is a love song for Yeshua. It's part of who he is. That's one of the things he first showed us that when we start... We had to celebrate Passover for him and he called us to celebrate Passover and the other feasts. And everything that happened to us, now this is incredible because I'm a scientist. I wrote everything down. Everything is journaled. The Lord gave us all the dreams on the biblical feasts. And they were times of open heaven. This was the

time we had the visitations and it became more and more. Sid, even on Passover 2015, two years after we were delivered, I know two Jewish men in our area, including my husband, who saw Yeshua sitting at their bed. And he came to them in all his glory. And every time the feast came around, that's when we had the dreams and Jesus would start speaking to us.

SID: Well, you why?

JENNIFER: It was just amazing. So we were waiting for it.

SID: You know what? We're doing this show way in advance. And today just happens to be a feast day: Purim. I want to pray a prayer with you right now because there's an open heaven on the feast. And I want you to repeat this out loud and believe it to the best of your ability.

SID: Say, repeat after me, "Dear God...

Audience: Dear God...

SID: I'm a sinner.

Audience: I'm a sinner.

SID: I'm so sorry.

Audience: I'm so sorry.

SID: I believe...

Audience: I believe...

SID: ... the blood of Jesus...

Audience: ... the blood of Jesus...

SID: ... washes away all my sins.

Audience: ... washes away all my sins.

SID: And I am clean.

Audience: And I'm clean.

SID: And now that I'm clean...

Audience: And now that I'm clean...

SID: ... I ask Messiah Jesus...

Audience: ... I ask Messiah Jesus...

SID: ... to come and live inside of me.

Audience: ... to come and live inside of me.

SID: Thank you for saving me from my sins.

Audience: Thank you for saving me from my sins.

SID: I make you my Lord.

Audience: I make you my Lord.

SID: Amen.

Audience: Amen.

SID: Pray right now to break all agreements.

JENNIFER: Yes. If you are also living under some kind of oppression or some kind of curse, or maybe you've made agreement that you don't even know about, then right now, pray this prayer with me.

JENNIFER: Heavenly Father, Lord God of Israel...

SID: Heavenly Father, Lord God of Israel. Repeat after her.

JENNIFER: ... I ask you to forgive me...

SID: ... I ask you to forgive me...

JENNIFER: ... for making that permission.

SID: ... for making that permission.

JENNIFER: And right now...

SID: And right now...

JENNIFER: ... in the name of Jesus and the authority you've given me...

SID: ... in the name of Jesus and the authority you've given me...

JENNIFER: ... I break that permission...

SID: ... I break that permission...

JENNIFER: ... by the blood of Jesus.

SID: ... by the blood of Jesus

JENNIFER: And I command every demon to flee right now.

SID: And I command every demon to flee right now.

JENNIFER: You are not allowed anymore...

SID: You're not allowed anymore...

JENNIFER: ... to oppress me.

SID: ... to oppress me.

JENNIFER: I will live in freedom.

SID: I will live in freedom.

JENNIFER: And I claim the blood of Jesus.

SID: And I claim the blood of Jesus.

JENNIFER: And I just decree right now, in Yeshua's name, I decree freedom over you: freedom, freedom from all demonic oppression, from all occult, from Kabbalah curses, and freedom from the spirit of Jezebel right now, in Yeshua's name. I decree victory of Jesus over the spirit of Jezebel and over all those people living in captivity in Yeshua's name. I declare freedom. And for God's glory right now, for Yeshua's glory. On Purim right now I release the glory. I release the glory of the Lord over here, over America, over Israel and over the world. Thank you Lord for who you are and for the great things you are doing. Yeshua's name.

SID: And you have heard the truth. And the truth has set you free.

Audience: Yes! Yes!

JENNIFER: Amen.
