

Hello. It's Sid Roth, here. Welcome to my world, where it's naturally supernatural. My guest says that the devil is in the business of hijacking our minds. As a result, Satan has an open door to keep us sick, fearful, and broken. No more! Get ready for your new normal, your heavenly normal, next.

*Sid Roth has spent over 40 years researching the strange world of the supernatural. Join Sid for this edition of **It's Supernatural!***

SID: The presence of God, the Holy Spirit is so strong here. Holy Spirit, we give you permission to take control. Take control of this show. Take control of the people viewing it at home. Take control of the studio audience. We expect miracles, genuine biblical miracles to occur. We expect your presence to overwhelm everyone viewing us right now.

SID: Now, Chad Gonzalez has operated in miracles for years, but it's dramatically increased. Chad says most believers are living in a cursed reality. Explain the difference between the cursed reality and the alternate reality.

CHAD: Well, the cursed reality is what is normal for the sinner. Unfortunately, that curse reality is very normal for the believer, even though we've been redeemed from that. Jesus makes this powerful statement in John chapter 17 in his prayer. And he said, "Father, I pray you would sanctify them or set them apart by your truth, for your Word is truth." Well, the Greek word for truth there is literally the word reality.

CHAD: So essentially, Jesus said, "Father set them apart by your reality." Well, that right there shows us there's an alternate reality in which we can live from. And then that same word is where Jesus said in John 14:6, "I am the way, I am the truth, I am reality." So if you want to see what's truly real, look at Jesus. The problem is that most of us as Christians, we preach this great faith message and we preach these wonderful messages of victory and are more than a conqueror in Christ, but when it comes to our perspective, we very much still have a sinner's perspective, a cursed perspective. And yet we're trying to operate from heaven, and it doesn't work that way.

SID: It's almost like as the church gets more and more seeker-friendly, it gets less and less from the heavenly reality and more and more in the cursed reality. There's got to be a change.

CHAD: There's got to be a difference, but we're accepting what's normal for the world. And yet we preach and talk about how all things are possible with God. But then we look at it from a sinner's perspective as to how can this possibly happen in this natural realm. And we identify with those things.

CHAD: Even when it comes to the area of healing, we'll preach. And we talk about, "By the stripes of Jesus, I'm already healed." You were healed. And yet we still see ourselves as the woman with the issue of blood trying to get to Jesus to get healed. So it's like we preach, "You're healed," for 45 minutes in the service. And then we say, "Now come up here and get healed." Well, which one is it? I mean, you just told me I'm healed. Now you're telling me to come get it. It's because we still identify with the sinner and we don't identify as the one who's united with Christ.

CHAD: See, I'm no longer that woman trying to get to Jesus. I'm no longer the leper trying to get to Jesus. When I got born again, the healer got on the inside of me. But we still see ourselves as separated and it doesn't work like that. I can't manifest heaven if I'm more aware of this cursed reality that's normal for the sinner. And that's where there's been this real disconnect between our message of faith and yet then actually seeing results. And that's why a lot of people are frustrated and it's just not working.

SID: The message of faith is correct.

CHAD: Right.

SID: But because we have so much of the world in us, if you will, rather than living out of the truth reality.

CHAD: Right.

SID: It's not working in our lives. That's what I hear you say.

CHAD: It's not working. That's why the apostle Paul spends so much time telling us what to do with our mind. Romans chapter 12, verse two, "Do not be conformed to this world; be transformed by the renewing of your mind." Even makes this powerful statement, Ephesians chapter four, verses 16 and 17. He said, "Don't be like the Gentiles who walk in the vainness of their thinking. And then he makes this statement. He says, "And they have their understanding darkened and they're alienated from the life of God." That word, understanding, it literally means imagination. So what he is letting us know is that the Gentiles allow their imaginations to run wild. And because of that, they're alienated from the life of God. This great, precious, exceedingly abundant power that's on the inside of us, that raised Jesus from the dead. That's there not only for our physical bodies, but also to be manifest in our world. He's letting us know it's our imagination that's almost like the dam that allows either the life of God to flow out of us or allows the curse to flow into us.

SID: Briefly, you're talking about renewing the mind. How do we break free of this cursed reality?

CHAD: Well again, Jesus, he set us free. You could say that he translated us from the kingdom of darkness into the kingdom of light. He unplugged us from the curse. And yet with our soul, we plugged back into the curse when we began to think that being sick is normal, that as I get older cancer, that's just a part of life, or losing my mind, or all of these things that the world accepts as normal. We still have that in the church. And as long as we still see like the sinner, we can be saved in our spirit, but as long as we have cursed thinking, we're still going to have cursed results.

CHAD: That's why a lot of people they die on their deathbed confessing healing scriptures, because they don't see themselves from that alternate reality, the heavenly reality, heaven's perspective, because we think we don't have it. We're seeing it from a sinner's perspective that, "I don't have it." But the heavenly perspective is, "I already have it. I just need to manifest it."

SID: Now, Chad received... I'll call it what it was: a shocking revelation in Kenya from a former high level witch doctor that catapulted him, once he got this revelation and others that received this revelation, into a new realm of faith for miracles.

*We'll be right back to **It's Supernatural**.*

*We now return to **It's Supernatural**.*

SID: Chad, these former witch doctors that you met in Kenya that are now strong believers in the Messiah, tell me some of the things you learned that I can tell you as a fact, and you'll find out in a little while, are causing... When Chad speaks in front of groups and he teaches them some of these principles, they're getting healings like popcorn. Tell me what you learned from him.

CHAD: Well, I wanted to talk to these different guys because it was from the standpoint I knew that, in one sense, they were having greater spiritual experiences than most Christians. Now albeit it was demonic, but operating in a very real power. And this was a former witch doctor. And so I told him, I said, "Talk to me about like meditation and the power of our words and healing." And he said, "Well, number one, when it comes to healing, you have to understand that all sickness and diseases of the devil." I said, "Well, yeah, I understand that."

SID: It's pretty cool for a witch doctor to be saying that, a former witch doctor, but go ahead.

CHAD: And he said, "Number two, all disease, sickness and disease, it's a spiritual thing. Most people look at it as a physical thing." He said, "Spiritual. It's a spiritual thing." Well, most Christians still think it's a physical thing. He said, "Spiritual. That's why when people would come to us, we couldn't take away the disease because Satan isn't a creator. We couldn't take it away, but we would manipulate it. We would change it." Like if they came to us with cancer, we would just change it to diabetes.

SID: How would you like to go to a doctor like that?

CHAD: He said, "We would just manipulate it. But the third thing is, Satan cannot make a Christian sick unless a Christian gives him the authority that God gave them."

SID: Why would a Christian do that?

CHAD: Well, so no Christian would purposely say, "Hey, devil, make me sick." Nobody's going to do that. But the way Satan operates is, he brings these thoughts, these ideas and these suggestions. See, he's a deceiver. He's a liar. And so we have dominion over him. So the only way he can have authority is if we give it to him. He's been doing this since the garden of Eden. This is what he did to Eve, it is a great deception. And it has been going on for all these years.

SID: So he only can operate as a counterfeit artist.

CHAD: That's it. That's it. He went to Eve and said, "If you'll eat of this fruit, you'll become like God." But it was the great deception because she was already made in the image and likeness of God. She didn't know it, but the Bible says this. It's an interesting statement and I think a lot of people pass over it. It says, "As she was looking at that tree and she saw that that fruit would do that for her..." Well, she'd been seeing the tree all the time, but in this moment, her gaze is on that tree. These thoughts and ideas and suggestions are there that if you'll do this... And she saw what happened was there was a change in her perception. There was a change in her imagination. And the thing is that faith, it's going to create what is conceived in your imagination. So where your imagination goes, that's where your faith is going to go.

SID: It starts as a thought. Then you imagine a lot about it.

CHAD: Mm-hmm.

SID: And if the devil has planted that thought, it'll come into being. If God has planted that thought, as you imagine it, it'll come into being, is that what you're saying?

CHAD: Yeah. Essentially, we're the prophet of our own life in one sense. And God's given us this creative ability and power. And so even Jesus says, "Out of the abundance of the heart, the mouth speaks." Well, this is a soul thing. A lot of times we think it's a faith problem. But in reality, it's an imagination problem. Because even when the pain, the ache, the symptom, the hurt comes, what does that turn into? It's a thought. "Oh, all of a sudden, I was having heart pains. Well my dad, he had heart disease. And my grandpa had heart... Well, maybe that's what's going on." And maybe there's a bump or a lump. Well, I automatically think it's cancer. Or I've got the sniffles. Used to, we thought it was just a little cold.

CHAD: Now people get the sniffles or something, they think they're going to die and be in the ICU. It's fear based and it all comes with that thought, that idea and that suggestion, and that's what Satan is doing. He's planning that. And he's working to deceive us to get us to grab a hold of that. And then with our faith, whether good or bad, you will get what you speak. You will get what you believe.

CHAD: So we think it's a faith problem. It's really an imagination problem. We're allowing our imagination to run wild and it's alienating us from the life of God. And in sense, our imagination, like we said, your soul is going to determine what flows through you, whether it's the life of God or whether it's the curse. We're the ones that are in control of the flow in our life. And that's where a lot of Christians, they think, "Well, God's holding out on me when it comes to my healing." Or, "God's holding out on this and that." But this is where this alternate reality comes into play. I already have it, but Satan's trying to tell me I don't. And that's what happened with Eve. She started working to try to get what she already had and she lost it. And that's where Christians are today.

SID: You were telling me when that former witch doctor was a witch doctor, what he would do and the price he would pay to put his curses on people. Explain that.

CHAD: He said before he would put a curse on someone, he said, "I would get up early in the morning before the sun would rise. I had a chair I would take outside of my house, told everyone to leave me alone. I would go to that chair and I would sit in that chair. I would not leave that chair until I knew that the curse I was going to pronounce that day was going to come to pass." So he would go out there and he would meditate and use his imagination, see himself pronouncing that curse, see that curse coming to pass. Whether it was on a village, a town, a person, a pastor, a church. He said, "I would not leave my chair until I knew it. Then when the sun would come up, I'd make a covenant with the sun."

CHAD: And it was a powerful thing that he said, "I would look at the sun rising. I'd say to the sun, 'If nothing in this world can keep you from rising, nothing in this world will keep my words from coming to pass.'" And at that moment I realized these which doctors have more faith, in a sense, than most of the Christians that I know because he would leave that place and he would go out and pronounce the curse. And he wasn't going around and confessing and confessing and confessing it. And, "I believe I received, and I believe I received, and I believe..." It was one time because he already saw it here. It was conceived here. And then through his words, he birthed it that one time.

SID: Chad, I've wondered. What happens. If a witch doctor puts a curse on a spirit-filled Christian.

CHAD: He told me, he said, "I could only do something to a Christian if they didn't know who they were." We're, in a sense, dead men walking. We're dead to sin, dead to sickness, dead to disease. But this is why the apostle Paul said in Romans chapter six and verse 11, "But now you need to consider yourself to be dead to sin." See, it shows the redemptive reality is I'm dead to sin. And if I'm dead to sin, I'm dead to all of the results of sin. Sin is the root and sickness and disease, it's the fruits. Sin is the source; sickness, disease, poverty, lack, those are the byproducts. If I'm dead to the source, I'm dead to the byproducts as well.

CHAD: But Paul said, "Even though this is a spiritual reality, you need to consider it to be true." Otherwise, again, you can be saved in spirit, but if you have cursed thinking, you're still going to get cursed results, even though Jesus set you free.

SID: When we return, I want Chad to be your PT, your personal trainer, and mentor you on using your godly imagination to operate in your heavenly reality. Be right back.

*We now return to **It's Supernatural**.*

SID: Chad. Now that you are mentoring believers in what you've been doing personally. You're seeing so many wonderful realities because of your sanctified, heavenly reality, your heavenly imagination. Tell me a few things that have happened to you and others.

CHAD: This is one situation. I don't get sick. I'm not saying that just to sound spiritual. I don't get sick, but there was a moment a few years ago I got into fear about finances. We were dealing with a massive building project and we needed a lot of money. So I'm usually faith man, but for a few days, I let my mind run wild. And so one night I got into the shower and it was about 11 o'clock at night. I get into the shower and I go to put soap in my arm and I look down and I just broke out in hives. Now I didn't know what it was, but I was like, is it leprosy? What's going on? I've got bumps and a rash all in my body. And then my throat started to swell up and I was having a hard time breathing and swallowing.

CHAD: So I screamed up for my wife. I said, "Lacy, Lacy, Lacy!" She runs in there and she's getting panicked. Long story short, I fought it but we decided to go to the emergency room. So we're driving to the emergency room. Now I'm mad at myself because I realized what had taken place. I brought this on myself. I got into fear about this. So we pull into the parking lot. Lacy's unbuckling, ready to go in. I said, "Stop. Look, give me 10 minutes to practice what I preach."

CHAD: I was feeling condemned, really. I said, "Give me 10 minutes." And so she sets the timer on the phone. She's ready to get me inside. But I grabbed my phone, opened up YouTube, put on some instrumental piano music. So I closed my eyes and I just began to imagine myself standing there. I began to sit there and just imagine myself being in the throne there...

SID: What's going on right now with you? Something spiritual's going on.

CHAD: That is just strong.

SID: I know that. The presence of God is strong. There's nothing more important than what's going on right now, is the presence of God is strong. What he says is going to happen and the presence of God is getting stronger and stronger and stronger.

CHAD: So I'm sitting there in the chair and I'm just imagining, I'm seeing myself before the throne, taking John chapter 15 and verses four, five and six, "I'm the vine and you are the branch." And just beginning to see his power and his life flowing out of him and flowing into me. I'm not trying to get healed. I'm trying to get my soul connected back to him.

CHAD: And I didn't hit that 10 minute mark because within a few minutes, all of a sudden I felt my throat just, "Aah..." I felt my throat open up. I was able to breathe clearly for the first time in probably about 30 minutes. I looked down, all of that mess was gone. All of it was gone. So I looked at Lacy, said, "Take me home." So we went home and yet I didn't realize at the time that if you get hives, that doesn't just disappear immediately. Sometimes it's there weeks, months. But even in that moment, I wasn't trying to work something. I was coming back to this place of abiding and dwelling. And so with that happened and then the things that I learned there with that former witch doctor, I started using this in some services and healing congresses recently and doing this with people.

SID: What are you seeing?

CHAD: We're seeing wonderful, wonderful results. There was one woman, this was recently in Kenosha, Wisconsin. She came in a wheelchair. She was in such pain. Now, she wasn't paralyzed or anything like that, but just chronic pain. Such pain she couldn't walk. And when I came up to her, I could see she was in a lot of pain. She's telling me about all the issues. So this wasn't preconceived, it just came to me. I said, "Look, let's use our imagination. I want you to close your eyes. And I want you to see Jesus right there with you. I want you to see yourself in the throne room of God. And I want you to just take your seat at the right hand in Christ. And I want you to turn your head to the left."

CHAD: She's got her eyes closed. Said, "Turn your head to the left. And I want you to put your hand on God's hand and I want you to begin to feel his power flowing out of him and flowing into you." And then eventually she stood up all on her own. She began to walk all around the church auditorium on her own. She walked out without the wheelchair.

SID: Look, God is not a respecter of persons. We just have less than a minute left. Look in the camera and pray. Pray for healing. You're so filled with the Spirit right now. Right now.

CHAD: Ephesians chapter one verse 18 says, "I pray that the light of God will illuminate the eyes of your imagination, flooding you with light till you experience the full revelation of the hope to which he's calling you. The wealth of God's glorious inheritance that he finds in you, his holy one."

CHAD: I pray that you will continue to experience the immeasurable greatness of God's power made available to you through faith, that your life would be an advertisement of this immense power as it works through you. Right now just close your eyes and imagine him standing before you and as you can see his exceeding great power, the same power that raised up Jesus from the dead, literally flowing out of your spirit and flowing into your body and causing creative things to take place.

CHAD: I'll say this prophetically. Right now, there's all this madness going on in this world where people, they don't know who they are. There's gender identity issues. There's sex change operations. I'm telling you, this is one of the creative things that's about to take place. When these people that's had these operations, they receive Jesus as their Lord and savior, they come to find out who they are, supernaturally creative miracles are going to take place. And those parts that were removed are going to supernaturally come back.

SID: God is saying you ain't seen nothing yet.

[music]

SID: Next week on *It's Supernatural*.

Brian Guerin: I'd never moved in the realm of seeing into the invisible world until I had a very unusual visitation, then the seer and prophetic realms opened up to me.

I'm Brian Guerin inviting you to join me on the next *It's Supernatural* with Sid Roth, because God showed me that now that I've received, I can impart to you.

[music]
