

SID: Hello. Sid Roth here. Welcome to my world, where it's naturally supernatural. The United States appears to be racing from a Judeo-Christian nation, back to paganism and it's happening so fast. Rabbi Jonathan Cahn, New York Times bestselling author has the first reasonable explanation and supernatural solution I have heard. Its explosive. Hang onto your seat belts. Next.

*Sid Roth has spent over 40 years researching the strange world of the supernatural. Join Sid for this edition of **It's Supernatural!***

SID: Jonathan, this is your very first interview on your brand new book Return of the gods with a small G. This is the most intense, fiery and explosive book in my opinion, you've ever written. Tell us about it.

JONATHAN: So imagine if there was a mystery behind everything that's happening in America, in the world, our culture, the transformation that goes back to the ancient tablets of ancient Mesopotamia. Imagine if the gods, we heard about these things called the gods and their as fiction, but that there actually is reality to them. Imagine what would happen if the gods returned. And they came back to America. What if they were the unseen movers of these transformations? Who are the gods? What are the gods? What does the Bible say about them? And what if we could identify them? And is it possible that they actually have manifested for instance, one in the streets of New York City, if they have actually determined what the Supreme Court does and when it does it?

JONATHAN: This is really what's happening all over. It's affecting everyone who's watching right now. And what's the future? What is their mission? What is the plan? And what are we to know to do about it? The Return of the gods is this is exposing or taking the veil away from what is affecting all of us. And also what do we need to know and what do we need to do?

SID: And the thing that is so fascinating in my opinion about this book is he shows what these gods with a small G caused to happen in Israel, which cost Israel their nation, and the relationship with God. Horrible, horrible, what happened to Israel and they have personalities and they do certain things. How does this tie in with what's going on in America?

JONATHAN: Yeah, yeah. To understand the mystery, you have to put it together. Gods were all over, I mean, all over the ancient world. And the Bible says that behind the gods in the Hebrew scripture says, well, something called the shedim. Shedim are spirits. In the New Testament, Paul says behind the gods are these beings called the daemania. We get the word "demon" from it. So these are spirits. These are not just figments of people's imagination. And so the thing is that back then, if all these cultures were given to the gods, it means they were given to the spirits. It means they were possessed. It means Western civilization was possessed by that. But now what happens is Messiah happens. He comes into the world and he has the power over, of course, over the spirits.

JONATHAN: And so when he sends his gospel into the Roman Empire and Western civilization, it starts, it starts ending the gods. The God's flee from the temples, they're emptied out. That means the spirits were cast out. This is the greatest exorcism in world history, what the

gospel did. And so our civilization is unique. It's been a exorcized civilization. However, there was a warning. And remember when Messiah spoke about the man who had the demons come out of him? And it says, they goes in the wilderness and it says, "I will return to my house," comes back, finds it, swept and clean and says, "Okay, you know what? I'm going to bring back my friends," comes back with seven others. So now he's more possessed. They're repossessed. People here that and they think he's talking about a man. He uses a man, but he says, "No." He says this. "So will it be with this generation." He's talking about something much massive.

JONATHAN: If you take that principle, apply it in the biggest way, here's the warning. Our culture has been exorcized of when God came in, they went out. Okay, but here's the warning. If the house, or if our culture, if America ever turns away from God, then the doors are going to be open for the spirits to return, to repossess the culture. That the door will be open for the gods, the ancient gods who are behind the spirits or the spirits are behind them to come back and to repossessed our culture. And so when you look at what's happened, the craziness what's been happening in the last 50 years in America, it's because the gods have come back.

SID: And one of the things I noticed in your book that I am fascinated with, and I never thought this was possible, is when school prayer was removed,

JONATHAN: Yes.

SID: You say that gave them legal access?

JONATHAN: Well that when you look at where, as America was beginning to turn from God, when they started removing this, this is what happened with Israel, started removing prayer, early '60s, the word. These are all these things that cast the gods out. So if you remove them, then what's going to happen, you're opening the door for the repossession. You're opening the door. So the house is not going to stay empty. Something else is coming in. If you take this out of school, well, something else is coming into the school. Something else is coming to the children. That's what we have been witnessing. And now the first god or the first principality, the one who always begins it, his name actually means the possessor. In the book. I call him the possessor.

SID: In the Bible, it says, "Ba'al."

JONATHAN: Ba'al means the possessor. Yeah. You know him as Ba'al. Ba'al, he is the possessor. So the first thing, his job, what he did with ancient Israel is he calls them to forget their god. And he calls them to start driving God out. The spirit of Ba'al in America, in the west has been driving God out. So he said, the schools we have from culture. Literally, the Bible says he calls them to turn away from the Commandments. Literally in America, we have actually cast down the 10 Commandments, same thing. So what we are watching, it's the re-paganization of America. His job, or his mission of this principality is to take a quote, Christian nation or Judeo-Christian nation, and turn it into a pagan nation. And that is exactly what has been happening.

JONATHAN: And he is the first spirit. It says the spirit comes and says, "Let me get my friends." So from there, and by the way, Sid we're just touching on it. Of course there's so much

to this, of course, but it's affected everything. In fact, there's one thing. Ba'al actually, I won't go into it, actually manifested in New York City, the son of Ba'al, massively. We won't go into it. But the thing is that he is the first spirit. And so he's the one who says now the other gods are going to come in through that. And that's exactly what has happened.

SID: I'll tell you what the possessor, Ba'al, paved the way for two more ancient sinister spirits, the enchantress and the destroyer. What would happen in America if those ancient false gods return? Be right back,

*We now return to **It's Supernatural**.*

SID: You have another false God in your book. This God is called the Enchantress. What is the name in the Bible?

JONATHAN: In the Bible, she's called Ashtoreth. In Mesopotamia, she's called Ishtar. When she went into the Greek land, she was called Aphrodite and then Venus. She is all over. And she's mentioned specifically there. Now in the Canaanite mythology, she's actually the wife of Ba'al. So, Ba'al has a wife. Okay. And so when Ba'al comes, the next one to come, it says in the Bible, says Ba'al, then it says Ashtoreth. Then she's coming in. So what this means is once the door is open, she is the goddess of sexuality, of sexual immorality. She's the goddess. She's actually called a prostitute. She's the goddess, who her temples were filled with sexuality. It made it public. So if she returns, what would happen if she comes out, it means that America is going to undergo a sexual revolution. That is the sign of the possession of Ishtar or this goddess. And the thing is, so sex comes ...

JONATHAN: What she did. What a prostitute is, is she actually damages marriage. She actually weakens marriage. That's what happens. Brings sexuality into the culture. In ancient times in Israel, in the Middle East, she put her images of naked people all over the culture. So-

SID: So, we're not dealing with a brilliant strategy of man that has concocted a plan that things are moving so fast into paganism. We are dealing with something stronger than man. Principalities and powers of darkness. Have you ever wondered why things are turning dark so fast? It's because too many people have yielded to these principalities.

JONATHAN: Yeah. Yeah. To quote on it is truly supernatural and that's what's happening. And so not only she was ... In her Greek form, she gave birth to a child named Eros. We get the word "erotica". So erotica starts flooding America. The word for prostitute, which is what she was in her Greek incarnation, is the word porni. We get the word "porn" from it. So there's an explosion of pornography all over the culture. So what Ba'al does in one sense, she's re-paganized, she's overturning biblical standards of sexuality and marriage. And she is paganize-ing our culture through sexuality and through possessing it. And she's also the goddess of spells and witchcraft. So she casts her spell on America and we are still in it to this day.

SID: And that's what we're seeing. We are seeing people that should know better. That should not be making decisions like they're making. They're going against, for lack of better words, they're going against science. Of course, they're going against the Bible, but they even going against science. It's because there's a witchcraft maze, haze if you will-

JONATHAN: It's irrational.

SID: ... over them. Fog. It makes no sense to someone that doesn't have that fog.

JONATHAN: Yeah. It's irrational. It's not natural at all. Yeah. And it goes further, Sid, because something's strange about the goddess and that is, that has to do with gender because what she also did, let me tell you. In her ancient descriptions, I'm looking at these ancient scriptures, she says, "I am a woman. I am a man." In her hymns it says, she has the power to transform a man into a woman and a woman into a man. So what's going to happen-

SID: Wow.

JONATHAN: What's going to happen, if she comes into the culture, you're going to start seeing, what she's going to do is she's going to start masculinizing women, de-feminizing women, and feminizing men. That touches everything. I mean, touches our culture, touches the roles, touches radical feminism and sexuality. And so all this stuff that we're having, saying, "How could this happen?" This is all the goddess. It's all there.

SID: How in the world did you figure all of this out?

JONATHAN: Well, I don't take any credit for figuring it. It's just something, God shows me one thing. And then the next thing, I'm the first one to be blown away by it. And Sid, it even goes further. She had a priesthood. Her priests, listen to this, in her temples, they were men who dressed up as women. And they acted as women, dressed up. So what's going to happen? If she comes back, what's going to happen is as she possesses a culture is that men will start dressing ... We'll start seeing that in our culture, which we do. These are her ancient priesthood. Also, they were involved in same-sex sexuality. We see that explosion as well. Also, it says ... Remember she says, she turns men into women, transitions them, and women into men. Many of her priests were actually surgically altered. She calls them-

SID: Really?

JONATHAN: ... to be surgically altered.

SID: I never knew that. I thought that was just something of our gen-

JONATHAN: Well, we do it more sophisticated, but this is why I wrote this book. This is to reveal and arm believers and to know what's happening. And she, especially all the gods, but they go after the children, because if you have the children, you have the future. And so that happened in ancient times, happening now. And so you think, "What would possess an adult to do this to children?" Well, what would possess it? The spirit, the spirit of the goddess. And I'm

going to go even farther, because this is mind-boggling. And that is that the goddess was in charge ... She was the goddess of parades. She had parades happening all over. And when I looked at the ancient inscriptions of the parades, it describes them. And it says in the parades, the men would dress up as women in the parades, the women would dress as men. It would be a parade of gender bending. And that's exactly what ...

JONATHAN: When you see this happening now, that's the sign of the goddess. And Sid, it's even like more mind boggling because I'm looking at this and I look at the ancient observers. And they said, "When did this thing happen?" They said it happened, even Saint Jerome. It happened in the month. They called it in Latin, Juneom. June was the month of the goddess. She claimed a month, June. And she's the goddess of pride. So we have now a pride month. It's all come back. Through these things through these festivals, she possesses a culture and that's the sign that she has come back.

SID: Now, you say the gods are even influencing the rulings of the Supreme Court and they've determined the exact timing of those rulings?

JONATHAN: Yeah. This blew me away. Yes. Yeah. Since these things happened, there has been three landmark case that have to do with gender and all these things, same-sex and marriage. The first one was in 2003, had to do with legalizing. It happened in the ancient month of Tammuz, that's the lover of Ishtar. That's her month. That's her month. It happened at the exact time, happened in exact date of the goddess. The next one happened in 2013, struck down the Defense of Marriage Act that happened same month, same exact day, month of the goddess, time of the summer solstice. All these pagan things. The last one which struck down marriage, we all remember. That happened month of the goddess, days of the goddess. Same time, same date, June 26th.

JONATHAN: And Sid, remember when marriage was changed. Remember when that happened. We all remember it that night, all of America rainbows appear. And one of them appears on the White House. Remember that?

SID: Yes.

JONATHAN: Well, that night on the ancient calendar, I looked this up, was the night that is appointed, the 10th of Tammuz, appointed to cast a spell, to cause a man to love a man on that day,

JONATHAN: It all was determined by The Mystery of the Gods.

SID: No wonder you got blown away when God shows you these revelations. These patterns is what Israel went through when they legally gave access to these demons. And the US has legally given access to these demons. When we return, Jonathan will reveal the third spirit of the dark trinity, the destroyer. Be right back.

SID: Jonathan, you say The Mystery of the Gods with a small g is behind everything.

JONATHAN: Everything. I can't even begin to tell you in this time of how much it's behind of. I mean, everything.

SID: I know. I've read it. I mean, why is America so important?

JONATHAN: Well, America is the head of nations right now. Whatever happens to America is going to touch the world. And America, think about it, America, Sid, was founded after the pattern of ancient Israel from the beginning, from the Puritans. So it's been blessed as Israel was, but the warning, even goes back to John Winthrop, the Puritan. He said if you ever turn away, if we turn away and go after the gods, then the curses that came on Israel are coming on us. The great people of God, they always dealt with, they dealt with God. Moses, Elijah, we're in the same boat right now. The apostles. Now, let me give you an example. I'll just give you of how it's begun everything. What we just spoke about in the last part about how this whole thing about gender and so crazy what's happening in our world, well, it all began in a ... There was an event in New York City in the summer, which is called the Stonewall Riots. We've heard of it. That's where all this came from that.

SID: This is the destroyer.

JONATHAN: Well, before we go into destroyer-

SID: Okay.

JONATHAN: But this goes to that, but this is all the gender and the goddess. And the thing is that night, all these signs of the goddess appear in New York City. They converge even from her mythology. I'll just touch on it. One of the signs, when she goes to battle is a sign of a lion's head. A lion's head is there that night in New York City, one of the signs is called the dance of Ishtar. During that whole riot, they start dancing and they start singing words that go back to the tablets of Mesopotamia, with the goddess. The words "Stonewall" is in the writings of the goddess. It says she breaks the Stonewall. It's all there. And there was one woman who actually triggered this whole thing that what we see today, one woman, she triggered the whole thing, and that woman was embodying the goddess.

JONATHAN: And actually in the ancient tablets, the goddess is called Storm. They call her, "You're the storm." The woman's name was Storm or Storm Ace, started the whole storm. And so we see right now and I'll give you just a little taste without going into what it is. We see the sign of the rainbow all over place. That goes back to the goddess. There's a mystery there. If anybody had an idea of what this really meant, it doesn't mean what people think it means, they would never raise that.

SID: Well, a lot of people that are viewing right now don't even know these particular issues. But what Jonathan is saying, not only do many people not know what he's saying, that were actual news events in the newspapers, they don't know what's behind this from the ancient records.

JONATHAN: Yeah. Yeah. And even most believers don't realize the full extent of what we're dealing with. That's why we need to know. And I'll give you example of the destroyer. The other one, the god who comes in there at the end of this, I call the destroyer. We know him as Moloch. And that is, he causes Israel to actually lift up their own children on the altars of his altars and kill them. Well, that's a pagan thing. Never in America. But the warning is if America turns away from God, the Moloch's coming in and we're going to start offering up our children. So that's exactly what happens starting in the late '60s, early ... Just when this one god leads to the next. And I'm going to say something about it now, even when I looked at the ancient things of the ancient tablets of Moloch is that they also particularly lift up ... They sacrificed the poor children. And that's exactly what's happening in America, too. The poor-

SID: Why do you say that?

JONATHAN: What was it?

SID: Why do you say they....

JONATHAN: Well, because it actually says, the historian said that the poor children, they're actually sold to be sacrificed. So to this day, it's the minorities and the poor who are actually Moloch's focus. So now I was going to say something, they're hearing encouragement here, that there's something about the book I knew I had to write it. You're asking. The day it was finished was June 24th, just a little while. The day it was finished was the day the Supreme Court overturned Roe versus Wade.

SID: Oh, so-

JONATHAN: The day.

SID: So, we see the opening, we see the opening for these false gods. He's saying there has just been an opening for the God of Abraham, Isaac and Jacob.

JONATHAN: Yes. Yes. And Sid, if you look in the Bible, look in the Bible, when there was revival, the righteous kings would be ... They would break down the alters. Remember they would break down-

SID: Yes.

JONATHAN: They'd break down the ... Well, what's the alternative, it's the altar of Moloch. God just began breaking it. So there's an opening now. There's an opening,

SID: And it's just like the opening that caused these demons to come in, just a little one, when school prayer was taken out. This may look little, but no, no, no. It's big, big, big.

JONATHAN: Yeah. Yeah. And this is why believers have to rise, have to be strong. And this is why have to be aware of this. There is something at the end, I speak about the war of the gods. One of the things Sid, of these principalities, they've come back, that every knee would bow to them and they've actually-

SID: End game.

JONATHAN: Yeah. That's the endgame. And they've come back with vengeance. Remember, who was it who cast them out? Believers. They have their eyes on believers too, but here's the thing. I won't go into it. But here's the thing. We are living in the incredible days, because these are the days of the apostles. They were dealing with the gods. Again, Elijah, Moses, the Maccabees, all that, but we have the power, we have the other God. And so there's a whole thing about this, about how to stand. And this can be our greatest hour, but we have to know we're dealing with the gods.

SID: Well, let me ask you something. Is there hope?

JONATHAN: Yes. I've never written a book without hope. Yes. There's hope and the hope ... Our God is so much more powerful, and we have him, but if we don't rise in that power, then we won't see it. And often when the revivals come and when glory comes, it's when the gods are broken, when they are cast out. And we have to make sure in our own lives, we are casting out anything that has to do with these things that we can rise in the ... The spirit of God casts out the spirit of the gods. And so we have that power, but we have to rise to it. Yes.

SID: Well, it looks kind of bleak, but I tell you, it is God's greatest hour for America to be called once again, America the beautiful. The God of Abraham, Issac and Jacob is not finished with America. The best is yet to come.
