

Hello, Sid Roth there. Welcome to my world where it's naturally supernatural. My guest says, "An ancient spirit most of you have never heard of is silencing your voice and the power of God in your life, your marriage, your children, your finances, your spiritual gifting. Find out the identity of this spirit and it's time to obliterate it."

*Sid Roth has spent over 40 years researching the strange world of the supernatural. Join Sid for this edition of **It's Supernatural!***

SID: Welcome, Holy Spirit. I am so glad you're here. I plead the blood, I surrender this platform to you. Have your way. God show us your glory. Tony Suarez is a third-generation spirit filled preacher. I want to take you back to 1952. His grandparents received the Messiah in such a supernatural fashion. Tony, what happened?

TONY: My grandfather was coming home from work and had stopped in the local market to buy bread. And a missionary happened to be there and he gave my grandfather a New Testament. He took it home and began reading. Mind you, my grandfather and grandmother had 11 children. And so they would read the Bible to their children and they get to the book of Acts and they don't understand what the promise of the father is. They don't have anyone to explain it to them. So my grandfather told the group, "We're going to do what they did and if we do what they did, perhaps will get what they got."

While they were praying and fasting, my uncle Raphael, who at that time would've been eight years old, had a vision. The angel of the Lord appeared to my eight-year old uncle and said, "Go to the city of Bucaramanga to this street and this street number, my servant is waiting for you."

It took faith to hear this and to obey it, but they made the journey, and they went to the city of Bucaramanga. And when they got there, they found that street, they found that street number. And when they knocked on the door, a missionary from England named William Thompson, answered and said, "God told me you were coming." And he preached the gospel. And that day they received the Lord, he took them to what we call the Rio Magdalena, the Magdalena River. And they were water baptized for the remission of their sins, and just like in the Book of Acts, they were baptized with the Holy Ghost and with fire.

SID: There's something that you taught that I frankly haven't heard before. It's an ancient unknown spirit that few, few have ever even heard of, but its effects are in the news. Tell me about that.

TONY: I'd never heard of it until I heard it from the lips of God when he spoke to me and he said, "This spirit that is pestering the world is the spirit of hyena. It's a spirit of mockery, thievery and distraction." And so I began studying hyenas and watching. They pester lions, they distract lions, they antagonize lions. And it's a lazy spirit because they let the lions do all the hunting, all the killing, all the work. And then after the lions have a harvest, they come in and distract the lion to steal what belongs to the lions.

And so this spirit is alive and well right now, the spirit of mockery that anything that's holy, anything that's righteous, anything that's godly, it's the joke. And sadly, not just in the secular

world, but even amongst the church, things that are holy and righteous, things that are sacred have become jokes and become the source and the point of our mockery.

SID: And some of the other things are really something. Tell me about what the females do with their babies.

TONY: First off, for thousands of years they thought they were gender neutral. They couldn't tell the difference between a male and a female hyena. Tell me if that's not the spirit of the age. It took some scientists that really studied to say, "Oh wait, there are male hyenas and female hyenas." Well, we as a human society are going in reverse. We knew that God created male and female, but this spirit has overtaken us. The spirit of hyena is an alpha female spirit. It's the spirit of feminism where every male is an idiot, every male is dumb, every male is worthless.

So in a pack of hyenas, the male is only good for procreation and then he'll be kicked out of the herd. They never want to see him again. And it's a spirit of infanticide because these females maintain their power by killing their young in the most violent way. They crush the skulls of their young. It is the spirit of abortion. It is the spirit of infanticide, this feminist baby-killing, male-rejecting, mocking spirit is the spirit of the age, which is trying to distract lions from what we are supposed to rule and reign in through Jesus.

SID: How do we break free?

TONY: So the hyena in the natural, the only way it can kill a lion is to distract the lion and isolate the lion. When it can break the lion away and get it isolated, then a pack of hyenas will come and they'll attack that. That's what's happened. We don't love each other. We can't hang out with each other the way we used to because we fight about absolutely everything. And the only thing that can scare a hyena away is the roar of a lion. And I don't know if anyone else hears what I hear, but I hear the roar of the Lion of the tribe of Judah because he's seen the afflictions-

SID: I'm almost falling off my chair...

TONY: He has seen the afflictions of the righteous, He has seen what's happening on our earth. And I hear Him saying, with the roar of a lion, "Enough is enough." And I have news for that spirit, you should have left us alone because the Lion of the tribe of Judah is about to pounce on you and take you out.

SID: Two witches, walked into Tony's service to place a curse on him and the church. You won't believe what God does next. Be right back.

*We now return to **It's Supernatural.***

SID: Two witches walk into his service to curse him. What happened?

TONY: We were having great, great move of God in Florida. Many were being healed, and a young Hispanic girl came and she said, "There's two ladies in the back. They say that they're witches. They heard what God was doing here and they came to put a curse on you and what's taking place in this church, but they're frozen in the back. They can't move. And they want to know if you can unfreeze them and they promise that they'll leave." I said, "You tell them, in a little bit."

I wanted those witches to see the power of God, not just so that they would see the power of God, but so that they would know you don't touch God's precious children. You don't mess with what belongs to God. And so I let them sit there about another 35 minutes watching the miracles and I said, "Now you can go." And they said, "Thank you." And they ran out of the building, and I never saw them again.

SID: Well, you say. Well, that's good for Tony, but what about me? God told you about how those viewing that are spirit-filled believers and those in the audience can have and be part of a move of God. Everyone can.

TONY: Everyone can, Sid.

SID: What did God say?

TONY: Here's the word of the Lord, "Revival is not coming, revival is here right now." What we've prayed for and long for is here and we don't have to chase after revival. God doesn't need us to be revival chasers. He's called us to become revival makers. We are to be Mark 16 believers. These signs follow them that believe. Every believer needs to become aware of the God on the inside of you. You are the temple of the Holy Ghost, the Holy Spirit, the same spirit that raised Christ Jesus from the dead now lives on the inside of you. If the Holy Spirit has the authority, the power to raise the son of God and the Son of Man from the dead, and that spirit dwells on the inside of us, imagine what we can do. That spirit is raising the church out of religion, out of the restrictions of religion, out of everything that has held us back in our eyes, I believe with all my heart, Sid, our eyes are going to see the prophecies of Joel become a reality in our lifetime.

SID: Tony, what is God saying right now to the multitudes that are fearful and distressed?

TONY: He's telling us to remember that there's never been a great day, a good day. We always say, "Oh, I wish we could go back to the good old days." Well, which good old days are you talking about? World wars, pandemics, depressions, recessions, energy crisis. I know that sounds like the day we're living in, but that's our history. If all you did was take the last 122 years, there's not been a decade of peace and harmony and love, [without] racial strife, political battles. This has always been our history. But in the midst of the pandemonium, there has always been a move of God.

And so the Lord would remind us today, that in the midst of the chaos and the drama, He's still God. And this church is built upon the promise that the gates of hell shall not, cannot and will not prevail against the church. So we don't operate in fear, we don't live in fear, we operate in

power and we demonstrate the power and the miraculous saving works of God to this world, to the intent that they might believe.

SID: I'm going to tell you something, we're in the most exciting time to be alive. We're in the time of a visitation from God like the world has never seen before. I want you to be ready for that visitation. What would happen if your daughter is born with a collapsed lung? What did you do about that?

TONY: My daughter was born premature, eight and a half weeks early and her lungs had collapsed. She wasn't breathing and they rushed my wife out in the intensive care unit for her, and they take my baby daughter. I'm not even able to hold her. They take her into the NICU, her lungs have collapsed. I asked the nurse, "Is everything okay?" She said, "You need to be realistic. This baby isn't going to make it." And I said, "God," right then and there in that hospital room, I said, "God, I am asking you to heal my daughter." And God said, "Praise me." I said, "If you heal her, I'll praise you like I've never praised you before." And He said, "I'm tired of praise that always has strings attached. I always have to do something to get a praise out of you. Whether she lives or dies, I'm worthy of a praise and I command you." That's what He said to me. "I command you to praise me irregardless."

So when's the last time you praised God and it wasn't for a house, a car, a wife, a girlfriend, a boyfriend, a money, a job? When's the last time you praise God and it was just because He's God? That's what I had to do. So I started worshiping and praising God and I went back to the hospital and I praised God. And everyday for about eight or nine days, I just kept worshiping and praising God until it finally came out of my mouth, "Lord, whether she lives or dies, you're good. Whether she lives or dies, I worship you and I praise you." And when I entered that level of praise, I entered a level of boldness I'd never felt before. I said, "Whether she lives or dies, I praise you. However, I read in your word that Elijah breathed on a dead boy and you raised him back to life. And I believe that if you did it for one, you'll do it for all."

And I opened that incubator, I said, "Baby in the name of Jesus." And I breathed on her. And in that miracle moment, she had no breast bone. There was no breast bone. In a miracle moment, my eyes saw her chest pop out and it never caved back in. The monitor started saying, "Beep, beep, beep, beep, beep, beep." And the nurse is frantically typing, she said, "This is so strange." I said, "What?" She said, "According to the monitor, your baby's breathing on her own and she doesn't need this contraption." My little baby girl, she is about nine days old, she [], and she spit the tube out of her throat. She's 15 years old now, she's never had another tube down her throat. God, instantly-

SID: I want you to know God wants you to know Him more than you want to know Him. I want you to know that there is a book in heaven with your name in it. I want you to know that this is a moment like no other for you. I want you to repeat this prayer after me and mean it to the best of your ability. That's all. The rest is up to God. Say it out loud with me. Repeat after me. Dear God-

Audience: Dear God-

SID: ... I've made many mistakes.

Audience: ... I've made many mistakes.

SID: You know-

Audience: You know-

SID: ... and I know-

Audience: ... and I know-

SID: ... and I'm so sorry.

Audience: ... and I'm so sorry.

SID: I believe the blood of Jesus-

Audience: I believe the blood of Jesus-

SID: ... not only covers those mistakes-

Audience: ... not only covers those mistakes-

SID: ... but removes those mistakes.

Audience: ... but removes those mistakes.

SID: It's not even written in your book anymore.

Audience: It's not even written in your book anymore.

SID: Thank you.

Audience: Thank you.

SID: Thank you.

Audience: Thank you.

SID: Thank you.

Audience: Thank you.

SID: I ask you Jesus-

Audience: I ask you Jesus-

SID: ... to come and live inside of me.

Audience: ... to come and live inside of me.

SID: And be my Lord.

Audience: And be my Lord.

SID: And savior.

Audience: And savior

SID: And give me my own experience with you.

Audience: And give me my own experience with you.

SID: I loved you, Lord.

Audience: I love you, Lord.

SID: Amen.

Audience: Amen.

SID: When we return, Tony is going to pray for you to become the move of God you always wanted to be. It's time to stop living in the past. God's glorious glory, it's already here. Be right back.

*We now return to **It's Supernatural**.*

SID: Well, I don't know about you guys, but when I read the compassion that Jesus had in the Bible, I have to believe that the compassion unlocks every miracle God wants in our life. So the question is, how do we get this compassion? Tony, you have it. Teach us.

TONY: The Bible tells us about a man named David who praised God when he had the victory over Goliath and Goliath was killed. But that same man worshiped and praised God when his own son died. You heard me tell the story about my daughter and what God did in her life. Little did I know what was going to happen to me years later. I had just gotten done preaching in California and my son who was 10 years old at the time, calls me and he said, "Daddy, you got to help me. Something's wrong with mommy. She can't walk. Something's wrong." And I had to

walk my son through calling 911 and getting an ambulance to the home. And I jumped on a red eye flight. I got to a hospital to hear that my wife had a very aggressive form of leukemia. They gave her two weeks to live.

And so in that moment, I remembered what God did for my daughter. And I said, "God, I praised you when you healed my daughter. And I told you then whether she lives or dies, I'll praise you. I'll worship you." Little did I know that six months after that diagnosis, God would take my wife home. Now I've gone from being a husband and traveling the ministry to now being a single father of three. And we still have a ministry. And I feel the responsibility of being both father and mother to those babies and making sure that they kept having faith in God. And every day we had to pray. Every day we would go before God and we'd have communion. And together we'd say, "God, I don't understand you, but I trust you." That was the greatest praise for our family that we could give God to not say, "You got to give me an answer. You got to explain why I'm living through what I'm living through."

No, it wasn't that. It was just saying, "God, I don't understand the why's, but I trust you." And when you ask, "How could you have that kind of faith?" It's what their mother exemplified to them on her last day, on this earth. On that last day when we knew that death was imminent, people had come into the hospital room, it wasn't a hotel, I promise you that. But into that hospital room. And they began praising God and they were playing music unto the Lord. And she lifted her hand. I said, "Do you want them to keep singing?" She said, "Oh yes."

Her children saw her do that. Her children saw her last act on this earth be not a woe-is-me, but a praise. Because what you're living through isn't just for you. This is your legacy. Her children saw it, her children caught it, and they came to her bed and my oldest said, "Mommy, I love you and I really want you to come home, but I don't want you to have cancer in your body. Daddy says there's no cancer in heaven. So if you have to go to heaven to be healed, you can go. But I'm going to live for God. I'm going to make you proud of me, mom. I'm going to obey my dad and you're going to be proud of me. And if dad gives me permission, I'm going to get water baptized at your funeral."

We had a word over our life that leukemia was going to bow its knees at the name of Jesus. And I couldn't reconcile the word when she died, but it was at that funeral, hallelujah. When those babies went to the waters of baptism and they came out washed away from the burden of sin. And my youngest came out speaking in other tongues as the Holy Spirit baptized him. Do you know what that means to me? That means that the comforter came to the funeral, the Spirit of the living God showed up and that day, hallelujah, I saw the spirit of leukemia have to bow its knees because our worst day turned into our best day, because salvation visited our home.

Sid talked about compassion. When we pray for the sick now, we feel that. Jesus was touched by our infirmities and he's touched by what you are living through. This great move of the Holy Spirit, this great visitation of the glory of God, in fact won't be a visitation, it's a manifestation that will not leave this earth until the end of days. And it will be a move of God that's manifested through compassion. The world will know Jesus when they feel the love of Jesus through every one of us as believers.

And I want to pray over you today that you wouldn't just receive your miracle, but that you would receive the compassion and the heart of Jesus for a lost people. And through that compassion, many would come to know Messiah as you know Him. Father, I thank you for those that are in this room and those that are watching at home. I thank you that this opportunity is available for the miraculous. And I pray that as the gift of healing and the working of miracles begins to move amongst the people, that the heart of the Father, the love of Jesus Christ, the love of the Lord Jesus would come upon every single one of us so that through compassion we would be moved to tell many, Jesus still heals, Jesus still saves, and Jesus still delivers. Amen and amen. Somebody give Him praise.

We are out of time. But go right now to sidroth.org/tony to watch the full extended segment with Tony Suarez. In this extended segment, Tony prays for everyone watching that you would receive your own miracle. Get ready to experience the glory. The same glory that was in our studio will fill your home.
